Independent Auditors' Report

To the Members of Edelweiss Broking Limited Report on the Audit of the Ind AS Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Edelweiss Broking Limited ("the Company"), which comprise the Balance sheet as at March 31 2019, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2019, its loss including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (the 'ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Ind AS Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of accounting

B - 46, 3rd Floor, Pravasi Estate, V N Road, Goregaon (E), Mumbai - 400 063. Tel.: +91. 22. 4908 4401 | Email: info@ngsco.in www.ngsco.in

accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The comparative Ind AS financial statements of the Company for the year ended March 31, 2018 and the transition date opening balance sheet as at April 1, 2017, included in these standalone Ind AS financial statements, are based on the previously issued statutory financial statements' prepared in accordance with the Companies (Accounting Standards) Rules 2006, have been audited by us and have expressed an unmodified opinion on those statements vide report dated April 27, 2018 and May 12, 2017 for the year ended March 31, 2018 and March 31, 2017 respectively, as adjusted for the differences in the accounting principles adopted by the Company on transition to the Ind AS.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2019 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2019 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
 - (g) In our opinion, the managerial remuneration for the year ended March 31, 2019 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;
 - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:

- i. the Company does not have any pending litigations which would impact its financial position;
- ii. the Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long-term contracts including derivative contracts; and
- iii.there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- 3. In our opinion, proper books of accounts and records as specified in Rule 15 of the Securities Contract (Regulation) Rules, 1957 have been kept by the Company in so far as it appears from examination of such books.
- 4. The Company has complied with the requirements of BSE Limited ('BESL'), the National Stock Exchange of India Limited ('NSEIL') and MCX Stock Exchange ('MCX SX') in so far as they relate to maintenance of accounts and to the best of our knowledge and belief, was regular in submitting the required accounting information to the respective stock exchanges.
- 5. The Company has complied with the requirements of the derivatives segment of the BSE and NSEIL in so far as they relates to maintenance of accounts and to the best of our knowledge and belief, was regular in submitting the required accounting information to the derivatives segment of the exchange.

Annexure A to the Auditors' Report

The Annexure referred to in our Independent Auditors' Report to the members of Edelweiss Broking Limited ('the Company') on the financial statements for the year ended 31 March 2019, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
 - (b) As explained to us, the Company has a regular programme of physical verification of its fixed assets by which all the fixed assets are verified in a phased manner over a period of three years. In our opinion this periodicity of physical verification is reasonable having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such verification.
 - (c) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the title deed of immovable property is held in the name of the Company.
- (ii) The Company has conducted physical verification of inventory on the basis of statement received from depository participants in respect of securities held as inventory, at reasonable intervals during the year. No material discrepancies have been noticed on such physical verification.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans to directors including entities in which they are interested in respect of which the provisions of section 185 of the Companies Act, 2013 are applicable and hence not commented upon. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Companies Act, 2013 in respect of investments made.
- (v) The Company has not accepted any deposits from the public.
- (vi) The Central Government has not prescribed the maintenance of cost records under section 148 (1) of the Companies Act, 2013 for any activities conducted and services rendered by the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, employees' state insurance, income-tax, service tax, sales tax, value added tax, goods and service tax, cess and other material statutory dues, applicable to it, have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, Company did not have any dues on account of duty of excise and duty of custom.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income-tax, value added tax, service tax, goods and service tax and cess were in arrears as at March 31, 2019 for a period of more than six months from the date they became payable.

(b) According to the information and explanation given to us, there are no dues of sales tax, value added tax, goods and service tax and cess which have not been deposited with the appropriate authorities on account of any dispute. The dues outstanding in respect of income-tax and service tax on account of dispute, are as follows:

Name of the statute	Nature of	Amount	Period to which the	Forum where dispute is
	dues	(Rs.)	amount relates	pending
Income Tax	Income	643,824	A.Y.2011-12	CIT (A)

* net of amounts paid under protest.

- (viii) In our opinion, and according to information and explanations given to us, the Company has not defaulted in repayment of dues to its bank. Further, the Company does not have any loans or borrowings from any financial institution, government and debenture holders.
- (ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable.
- (x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (xi) According to the information and explanations given by the management, the managerial remuneration has been paid / provided in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given by the management, the Company has complied with provisions of section 42 of the Companies Act, 2013 in respect of the preferential allotment shares during the year. According to the information and explanations given by the management, we report that the amounts raised, have been used for the purposes for which the funds were raised.

MUMBAI • INDORE • CHITTORGARH

- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

Annexure B to the Auditors' Report

Annexure B the Independent Auditor's report of even date on the financial statements of Edelweiss Broking Limited ("the Company")

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Edelweiss Broking Limited ("the Company") as of March 31, 2019 in conjunction with our audit of financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2019, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Note:

a) Capital reserve

This reserve represents the excess of premium payable on redemption of financial liability towards preference shares issued by the Company over the carrying amount of premium payable on redemption recognized as liability under previous GAAP on the said preference shares.

b) Securities premium

Securities premium reserve is used to record the premium on issue of shares. The reserve can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

c) Deemed capital contribution - ESOP

Certain employees of the Company have been granted options to acquire equity shares of the Holding Company (Edelweiss Financial Services Limited). This reserve represents the cost of these options based on their fair value at the grant dates as recognised over the vesting period of such options, to the extent that the Holding Company has not recovered such cost from the Company.

Notes to the financial statements

for the year ended March 31, 2019

1. Background

Edelweiss Broking Limited ("the Company") was incorporated on February 7, 2008. The Company is a 100% subsidiary of Edelweiss Financial Services Limited.

The Company is registered as a trading member with National Exchange of India Limited ('NSELL'), BSE Limited ('BSE') and Metropolitan Stock Exchange of India Limited (MSEI) and provides broking services to the clients. The Company also registered as Depository Participant with National Securities Depository Limited (NSDL) and Central Depository Services (India) Limited (CDSL) and also registered as Repository Participant with National E-Repository Limited (NERL). The Company is also a distributor for Mutual Funds.

2. Basis of preparation of financial statements

The Financial statements of the Company has been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

For all periods up to and including the year ended March 31, 2018, the Company prepared its Financial statements in accordance with accounting standards notified under the section 133 of the Companies Act 2013, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 (Indian GAAP or previous GAAP). These financial statements for the year ended March 31, 2019 are the first financial statements of the Company prepared under Ind AS. Refer to note 57 for information on how the Company adopted Ind AS.

These Financial statements have been prepared on a historical cost basis, except for certain financial instruments such as financial asset measured at fair value through other comprehensive income (FVOCI) instruments, derivative financial instruments, and other financial assets held for trading, which have been measured at fair value through profit or loss (FVTPL). The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million, except when otherwise indicated.

3. Presentation of financial statements

The Company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 42.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the company and or its counterparties

Notes to the financial statements

for the year ended March 31, 2019

4. Significant accounting policies

4.1 Recognition of interest

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and debt instrument measured at FVOCI. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.

4.2 Financial Instruments

a) Date of recognition

Financial assets and financial liabilities, with the exception of borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. The Company recognises borrowings when funds are available for utilisation to the Company.

b) Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss.

4.3 Classification of financial instruments

a) Financial assets:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- Fair value through other comprehensive income [FVOCI)
- Fair value through profit or loss [FVTPL]

The Company measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Notes to the financial statements

for the year ended March 31, 2019

4.3 Classification of financial instruments (Continued)

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at FVTPL.

i. Amortized cost and Effective interest method:

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

ii. Investment in equity instruments

The Company subsequently measures all equity investments at fair value through profit or loss. However, for equity investments in subsidiaries and associates, these are measured at cost as permitted under Ind AS 27.

b) Financial liabilities:

All financial liabilities are measured at amortised cost except loan commitments, financial guarantees, and derivative financial liabilities.

Notes to the financial statements

for the year ended March 31, 2019

4.3 Classification of financial instruments (Continued)

Debt securities and other borrowed funds

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

c) Financial assets and Financial liabilities at fair value through profit or loss

Financial assets and financial liabilities in this category are those that are not held for trading and mandatorily required to be measured at fair value under Ind AS 109.

Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

d) Financial liabilities and equity instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company entity are recognised at the proceeds received.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

4.4 Derecognition of financial assets and financial liabilities

a) Derecognition of financial assets due to substantial modification of terms and conditions:

The Company derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

Notes to the financial statements

for the year ended March 31, 2019

4.4 Derecognition of financial assets and financial liabilities (*Continued*)

b) Derecognition of financial assets (other than due to substantial modification):

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition. The difference between the carrying value of the original financial asset and the consideration received would be recognised in profit or loss.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.
- c) Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability are substantially modified, such an exchange or modification is treated as a derecognition of the original financial liability and the recognition of a new financial liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, would be recognised in profit or loss.

4.5 Reclassification of financial assets and financial liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

4.6 Impairment of financial assets

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables and lease receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime (Expected Credit Loss (ECLs) at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure expected credit losses.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate. The Company recognises an

Notes to the financial statements

for the year ended March 31, 2019

4.6 Impairment of financial assets (Continued)

impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

4.7 Collateral valuation

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of guarantees. Collateral, unless repossessed, is not recorded on the balance sheet. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a periodical basis. However, some collateral, for example, cash or securities relating to margining requirements, is valued daily.

To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models.

4.8 Collateral repossessed

The Company's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date in, line with the Company's policy.

4.9 Write off

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery.

4.10 Determination of fair value

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best

Notes to the financial statements

for the year ended March 31, 2019

4.10 Determination of fair value (Continued)

interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 financial instruments –Those where the inputs used in the valuation are unadjusted quoted
 prices from active markets for identical assets or liabilities that the Company has access to at the
 measurement date. The Company considers markets as active only if there are sufficient trading
 activities with regards to the volume and liquidity of the identical assets or liabilities and when there
 are binding and exercisable price quotes available on the balance sheet date.
- Level 2 financial instruments-Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.
- Level 3 financial instruments –Those that include one or more unobservable input that is significant to the measurement as whole. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

4.11 Revenue from contract with customer

Revenue is measured at transaction price i.e. the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Company consider the terms of the contract and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Company excludes the estimates of variable consideration that are constrained.

Notes to the financial statements

for the year ended March 31, 2019

4.11 Revenue from contract with customer (Continued)

The Company recognises revenue from the following sources:

- a. Brokerage income on securities broking business is recognised as per contracted rates at the execution of transactions on behalf of the customers on the trade date and is reflected net of related sub-brokerage expenses, goods and service tax ("GST"), transaction charges and stock exchange expenses.
- b. Fee income including advisory fees, referral fees, commission income, and transaction fees is accounted at a point in time as the customer receives and consumes the benefits.

4.12 Operating leases

Operating lease payments are recognized as an expense in the statement of profit and loss on a straightline basis over the lease term, in which case lease payments are recognized based on contractual terms. Contingent rental payable is recognized as an expense in the period in which it is incurred.

Rental income are recognised on accrual basis by reference to the agreements entered.

4.13 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

4.14 Foreign currency transactions

The Financial statements are presented in Indian Rupees which is also functional currency of the Parent. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences on monetary items are recognised in profit or loss in the period in which they arise.

4.15 Retirement and other employee benefit

Provident fund and national pension scheme

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

Notes to the financial statements

for the year ended March 31, 2019

4.15 Retirement and other employee benefit (Continued)

Gratuity

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have

earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method. Benefits in respect of gratuity are funded with an Insurance company approved by Insurance Regulatory and Development Authority (IRDA).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to profit or loss in subsequent periods.

Compensated Absences

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

4.16 Share-based payment arrangements

Certain employees of the Company have been granted equity-settled ESOPs by the ultimate parent company (Edelweiss Financial Services Limited). The Company recognizes a cost with respect to the services received from the said employees measured by reference to the fair value of the equity instruments granted by the ultimate parent at the grant date.

The fair value determined at the grant date is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in deemed capital contribution from the ultimate parent, to the extent it is not recovered by the ultimate parent company.

At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the deemed capital contribution to the extent it is not recovered by the ultimate parent company. In cases where the share options granted vest in instalments over the vesting period, the

Company treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

Notes to the financial statements

for the year ended March 31, 2019

4.17 Property, plant and equipment

Property plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognised in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognised in profit or loss as incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided up to the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the fixed assets are as follows:

Estimated useful lives of the assets are as follows:

Estimated useful life
60 years
10 years
8 years
5 years
6 years
3 years
_

Leasehold improvements are amortized on a straight-line basis over the estimated useful lives of the assets or the period of lease whichever is earlier.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

Notes to the financial statements

for the year ended March 31, 2019

4.17 Property, plant and equipment (Continued)

For transition to Ind AS, the Company has elected to continue with carrying value of all of its property, plant and equipment recognised as of April 1, 2017 (transition date) measured as per the previous GAAP notified by MCA rules 2006 and use that carrying value as its deemed cost as of the transition date.

4.18 Intangible assets

The Company's intangible assets mainly include the value of computer software. An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Intangible assets with finite lives are amortised over the useful economic life.

Intangibles such as software is amortised over a period of upto 5 years based on its estimated useful life.

4.19 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

4.20 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less.

4.21 Provisions and other contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or

Notes to the financial statements

for the year ended March 31, 2019

4.21 Provisions and other contingent liabilities (Continued)

more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

4.22 Income tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

a) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognised with respect to carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognised to the extent it is probable that:

• the entity will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or

tax planning opportunities are available that will create taxable profit in appropriate periods.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

Notes to the financial statements

for the year ended March 31, 2019

4.22 Income tax expenses (Continued)

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

c) Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

5 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the Financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a) Effective interest rate method

The Company's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given/ taken and recognises the effect of characteristics of the product life cycle.

This estimation, by nature, requires an element of judgement regarding the expected behaviour and lifecycle of the instruments, as well expected changes fee income/expense that are integral parts of the instrument.

b) Accounting for deferred taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

Notes to the financial statements

for the year ended March 31, 2019

5 Critical accounting judgements and key sources of estimation uncertainty (Continued)

The Company has recognised deferred tax assets on carried forward tax losses where the Company believes that the said deferred tax assets shall be recoverable based on the estimated future taxable income which in turn is based on approved business plans and budgets. The losses are allowed to be carried forward to the years in which the Company expects that there will be sufficient taxable profits to offset these losses.

6 Standards issued but not yet effective

a) AS 116 Leases:

Ind AS 116 Leases replaces Ind AS 17 Leases, including appendices thereto. Ind AS 116 is effective for annual periods beginning on or after April 1, 2019. Ind AS 116 sets out the principles for the recognition, measurement, presentation and disclosure of leases and requires lessees to account for all leases under a single on-balance sheet model similar to the accounting for finance leases under Ind AS 17. The standard includes two recognition exemptions for lessees – leases of 'low-value' assets (e.g., personal computers) and short-term leases (i.e., leases with a lease term of 12 months or less). At the commencement date of a lease, a lessee will recognise a liability to make lease payments (i.e., the lease liability) and an asset representing the right to use the underlying asset during the lease term (i.e., the right-of-use asset). Lessees will be required to separately recognise the interest expense on the lease liability and the depreciation expense on the right-of-use asset. The application of this standard is not likely to have a material impact on the Financial statements.

b) Prepayment Features with Negative Compensation (Amendments to Ind AS 109)

The amendments to Ind AS 109 clarify that for the purpose of assessing whether a prepayment feature meets the SPPI condition, the party exercising the option may pay or receive reasonable compensation for the prepayment irrespective of the reason for prepayment. In other words, prepayment features with negative compensation do not automatically fail SPPI. These amendments are to be applied for annual periods beginning on or after April 1, 2019.

The application of these amendments is not likely to have a material impact on the financial statements.

7 Annual Improvements to Ind AS (2018)

a) Plan Amendment, Curtailment or Settlement (Amendments to Ind AS 19)

The amendments clarify that the past service cost (or of the gain or loss on settlement) is calculated by measuring the defined benefit liability (asset) using updated assumptions and comparing benefits offered and plan assets before and after the plan amendment (or curtailment or settlement) but ignoring the effect of the asset ceiling (that may arise when the defined benefit plan is in a surplus position). The change in the effect of the asset ceiling that may result from the plan amendment (or curtailment or settlement) is determined in a second step and is recognised in the normal manner in other comprehensive income.

An entity is also now required to use the updated assumptions from this remeasurement to determine current service cost and net interest for the remainder of the reporting period after the change to the

Notes to the financial statements

for the year ended March 31, 2019

7 Annual Improvements to Ind AS (2018) (Continued)

plan. In the case of the net interest, for the period post plan amendment, the net interest is calculated by multiplying the net defined benefit liability (asset) as remeasured under Ind AS 19 with the discount rate used in the remeasurement (also taking into account the effect of contributions and benefit payments on the net defined benefit liability (asset)).

These amendments are to be applied to plan amendments, curtailments or settlements occurring on or after April 1, 2019.

b) Uncertainty over Income Tax Treatments (Appendix C of Ind AS 12)

This Appendix sets out how to determine the accounting tax position when there is uncertainty over income tax treatments. The Appendix requires an entity to:

- determine whether uncertain tax positions are assessed separately or as a Company; and
- assess whether it is probable that a tax authority will accept an uncertain tax treatment used, or proposed to be used, by an entity in its income tax filings:
 - o If yes, the entity should determine its accounting tax position consistently with the tax treatment used or planned to be used in its income tax filings.
 - If no, the entity should reflect the effect of uncertainty in determining its accounting tax position.

The Appendix is effective for annual periods beginning on or after April 1, 2019. Entities can apply the Appendix with either full retrospective application or modified retrospective application without restatement of comparatives retrospectively or prospectively.

The application of these amendments is not likely to have a material impact on the Financial statements.

44 Contingent liabilities, commitments and lease arrangements

a Legal claims

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent in its operations. As a result, the Company is involved in various litigation, arbitration and regulatory proceedings in the ordinary course of its business. The Company has formal controls and policies for managing legal claims. Based on professional legal advice, the Company provides and/or discloses amounts in accordance with its accounting policies. At year end, the Company had several unresolved legal claims however individually any of the claim is not material. The aggregate value of claim against the Company is ₹ 54.75 million.

b Contingent liabilities

Particulars	March 31, 2019	March 31, 2018
(a) Claims against the Group not acknowledged as debt	54.75	60.16
(b) Taxation matters	40.52	32.58

The Company has received demand notices from tax authorities on account of disallowance of expenditure for earning exempt income under Section 14A of Income Tax Act 1961 read with Rule 8D of the Income Tax Rules, 1962. The company has filed appeal/s and is defending its position. Based on the favourable outcome in Appellate proceedings in the past and as advised by the tax advisors, company is reasonably certain about sustaining its position in the pending cases, hence the possibility of outflow of resources embodying economic benefits on this ground is remote.

c Operating lease commitments

The Company has entered into commercial leases for premises and equipment. Future minimum lease payments under non-cancellable operating leases for the year ended March 31 are as follows:

Particulars	March 31, 2019	March 31, 2018
Within one year	108.07	31.50
After one year but not more than five years	278.66	33.78
More than five years	-	-
Total	386.74	65.28

d Capital and other commitments

- i) Estimated amount of contracts remaining to be executed on Property, plant and equipment and Intangible assets amounts to ₹ 56.39 million (net of advances) (Previous year: ₹ 112.07 million).
- ii) The Company have provided bank guarantees aggregating to ₹ 80.00 million (Previous year ₹ 80.00 million) as on March 31, 2019 to The Bombay Stock Exchange of India Limited for meeting margin requirement.
- iii) The Company have pledged fixed deposits with bank aggregating to ₹ 40.00 million (Previous year ₹ 40.00 million) for obtaining the above bank guarantees.
- iv) The Company have provided bank guarantees aggregating to ₹ 420.00 million (Previous year ₹ 420.00 million) as on March 31, 2019 to The National Stock Exchange of India Limited for meeting margin requirement.
- v) The Company have pledged fixed deposits with bank aggregating to ₹ 210.00 million (Previous year ₹ 210.00 million) for obtaining the above bank guarantees.
- 45 With respect to financial instruments not measured at fair value, their carrying amounts approximates fair value.

Notes:

- a, Loan given/ taken to/ from related parties and margin money placed / refund received with/ from related parties are disclosed based on the maximum incremental amount given/taken and placed / refund received during the reporting period.
- b. Disclosure under section 186(4) of the Companies Act, 2013 for loans and guarantee: Loans have been given for general business purpose.
- c. Information relating to remuneration paid to key managerial person mentioned above excludes provision made for gratuity, leave encashment and deferred bonus which are provided for group of employees on an overall basis. These are included on cash basis. The variable compensation included herein is on cash basis.

47 Capital management

The primary objectives of the Company's capital management policy are to ensure that the Company maintains healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

In addition to above, the Company is required to maintain minimum networth as prescribed by regulatory authorities. The management ensures that this is complied.

Notes to the financial statements (Continued)

for the year ended March 31, 2019 (Currency: Indian rupees in millions)

48 Risk Management

The Company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

Risk management structure

The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board has appointed the Risk Committee, which is responsible for monitoring the overall risk process within the Company and reports to the Audit Committee.

The Risk Committee has the overall responsibility for the development of the risk strategy and implementing principles, frameworks, policies and limits.

The Global Risk Group is responsible for implementing and maintaining risk related procedures to ensure an independent control process is maintained. The risk team works closely with and reports to the Risk Committee, to ensure that procedures are compliant with the overall framework.

Credit risk

Credit risk is the risk of financial loss the Company may face due to current/potential inability or unwillingness of a customer or counterparty to meet financial /contractual obligations. Credit risk also covers the possibility of losses associated with diminution in the credit quality of receivables. The Company has adopted a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Liquidity risk

Liquidity risk emanates from the possible mismatches due to differences in maturity and repayment profile of assets and liabilities. To avoid such a scenario, the Company has maintained cash reserves in the form of fixed deposits, cash and cash equivalents, etc. These assets carry minimal credit risk and can be liquidated in a very short period of time. These would be to take care of immediate obligations while continuing to honour commitments as a going concern.

Analysis of non-derivative financial liabilities by remaining contractual maturities The table below summarises the maturity profile of the undiscounted cash flows of the Company's non-derivative financial liabilities as at year end:

Repayments which are subject to notice are treated as if notice were to be given immediately. However, the Company expects that the counterparties will not request repayment on the earliest date it could be required to pay.

48 Risk Management (Continued)

Total market risk exposure

Fair value or future cash flows of financial instruments will fluctuate due từ changes in market variables such as interest rates, foreign exchange rates and equity prices. The Company classifies exposures to market risk into either trading or non-trading portfolios and manages are as a success on a VaR methodology that reflects the interdependency between risk variables. Non-trading positions are managed and monitored using other sensitivity analyses.

56 Details of dues to Micro enterprises and Small enterprises

Trade Payables includes Nil (Previous year: Nil) payable to "Suppliers" registered under the Micro, Small and Medium Enterprises Development Act, 2006. No interest has been paid / is payable by the Company during the year to "Suppliers" registered under this Act. The aforementioned is based on the responses received by the Company to its inquiries with suppliers with regard to applicability under the said Act.

57 First-time adoption – mandatory exceptions, optional exemptions

The Company has prepared the opening balance sheet as per Ind AS as of April 1, 2017 (the transition date) by recognising all assets and liabilities whose recognition is required by Ind AS, not recognising items of assets or liabilities which are not permitted by Ind AS, by reclassifying items from previous GAAP to Ind AS as required under Ind AS, and applying Ind AS in measurement of recognised assets and liabilities. However, this principle is subject to the certain exception and certain optional exemptions availed by the Company as detailed below.

Exemptions applied

a. Derecognition of financial assets and financial liabilities

The Company has applied the derecognition requirements of financial assets and financial liabilities prospectively for transactions occurring on or after April 1, 2017 (the transition date).

b. Impairment of financial assets

The Company has applied the impairment requirements of Ind AS 109 retrospectively; however, as permitted by Ind AS 101, it has used reasonable and supportable information that is available without undue cost or effort to determine the credit risk at the date that financial instruments were initially recognised in order to compare it with the credit risk at the transition date. Further, the Company has not undertaken an exhaustive search for information when determining, at the date of transition to Ind ASs, whether there have been significant increases in credit risk since initial recognition, as permitted by Ind AS 101.

Notes to the financial statements (Continued)

for the year ended March 31, 2019 (Currency: Indian rupees in millions)

57 First-time adoption – mandatory exceptions, optional exemptions (Continued)

c. Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has elected to continue with the carrying value of all of its plant and equipment, investment property, and intangible assets recognised as of April 1, 2017 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

d. Deemed cost for property, plant and equipment, investment property, and intangible assets

The Company has elected to continue with the carrying value of all of its plant and equipment, investment property, and intangible assets recognised as of April 1, 2017 (transition date) measured as per the previous GAAP and use that carrying value as its deemed cost as of the transition date.

e. Determining whether an arrangement contains a lease

The Company has applied Appendix C of Ind AS 17 Determining whether an Arrangement contains a Lease to determine whether an arrangement existing at the transition date contains a lease on the basis of facts and circumstances existing at that date.

f. Share-based payments

The Company has applied the requirements of Ind AS 102 Share-based payment to equity instruments that are unvested as of the transition to Ind AS (April 1, 2017).
