Edelweiss has over the last years pursued the strategy of diversifying its businesses across adjacent spaces to become a large and respected firm with businesses across all growth areas in the financial services sector. The diversification of businesses, asset classes, client segments, markets and geographies has helped us de-risk the business model, reduce volatility and build sustainability in our performance. As a result, Edelweiss has recorded consistently improved financial and business performance across cycles. With the diversification phase complete around two years ago, we are focusing on scaling up businesses, improving efficiency and productivity, strengthening balance sheet, risk management and compliance, instilling customer-centricity, upgrading technology and building leadership for future.

From catering to a few hundred wholesale clients in 2008, the group now touches lives of over **532,000 clients** from retail and wholesale segments across businesses. In addition, our Depository Participants maintain over 266,700 DP accounts.

**Speaking on the occasion, Mr. Rashesh Shah, Chairman and CEO, Edelweiss Financial Services Limited said:**

*"In the Lok Sabha elections, Indian people voted for a change and stability. Markets have rallied significantly in the last few months in the hope of a development oriented government at the centre and the macro environment is stable. The clear mandate in favour of NDA and its first Union Budget are positive as the country needs to get back to growth.*

*We continue to de-risk our business model and build sustainability through long-term strategy of diversifying across businesses, asset classes and client segments. Our newer retail businesses continue their planned scale up. This is also bringing in constant improvement in our financial and business indicators and our profits are being increasingly contributed by multiple businesses.*

*With the improvement in business climate in the first quarter, our net profit is higher by 41% YoY. This is the eleventh quarter of consistent growth in our profits barring the exceptional second quarter of last year. Our return on tangible equity ex-insurance for Q1FY15 has improved to 15.5% compared to 13.1% for Q1FY14. Our focus areas for current year continue to be improving capital and operating efficiency, achieving scale in retail businesses, improving sustainability in our performance, strengthening balance sheet, risk and compliance, upgrading technology, building a customer-centric culture and nurturing leadership for future growth."*

**Q1FY15 Financial Highlights:**

- \* **Fund based income** is ₹ 681 cr for Q1FY15 (₹ 525 cr in Q1FY14), up 30%. This income stream includes income from credit including housing finance business, commodities business and Balance Sheet Management Unit operations.

- \* **Gross Premium income from Life Insurance business** is ₹ 23 cr for Q1FY15 compared to ₹ 11 cr in Q1FY14, up by 101%.

The **diversified revenue mix** has successfully helped us in achieving improvement in our performance on a sustained basis despite volatile environment.

**Balance Sheet, ALM and Liquidity Management:**

- \* Our Balance Sheet Management Unit actively manages the Balance Sheet, Asset Liability position and liquidity in a way similar to that of the treasury of a commercial bank.
- \* The focus of Balance Sheet Management unit continues to be on maintaining adequate liquidity, reducing our dependence on short-term market borrowings, diversifying our sources of borrowings and maintaining a matched ALM profile. We continue to modify our liabilities profile in sync with our assets profile.
- \* As a part of this effort and in order to supplement equity capital, our NBFC subsidiary **ECL Finance Limited** successfully closed the **Public Issue of unsecured Retail Bonds in the nature of Subordinated Debt for ₹ 400 cr** in June '14. These NCDs have 70 months maturity and provide us medium to long term liabilities to match the increasing duration of our assets portfolio besides qualifying as Tier 2 capital.

ECL Finance had earlier raised ₹ 500 cr in January '14 through a Public Issue of 3 year and 5 year Secured NCDs and is comfortably placed to keep adding longer term assets going forward.

- \* **The total Networth of the Group now stands at ₹ 3,168 cr with Tangible Equity ex-insurance and ex-minority at ₹ 2,294 cr.**
- \* The aggregate borrowings excluding the episodic borrowings at the end of this quarter are higher at around ₹ 14,942 cr compared to ₹ 12,948 cr as at the end of the previous quarter. Excluding the episodic borrowing and our back to back borrowings, the **Net Gearing is 3.8x** compared to 3.6x at the end of the previous quarter.

**Business Highlights:**

Operations of Edelweiss are organised around **five broad business groups – Credit including Retail Finance, Commodities, Financial Markets, Asset Management and Life Insurance.**

Brief highlights of our business performance are as under:

- \* **Credit:**

Edelweiss offers **Retail Finance and Corporate Finance**. Total credit book of the group including these segments stands at ₹ 8,829 cr at the end of this quarter compared to ₹ 8,628 cr at the end of previous quarter. In addition, we had episodic funding of ₹ 2,076 cr at the end of Q1FY15.

**Retail Finance** business offers **housing mortgages including small-ticket housing loans**, rural finance, loans against property and SME finance. As at the end of this quarter it had a book size of ₹ 2,245 cr compared to ₹ 2,090 cr at the end of Q4FY14. Its assets under management were ₹ 2,414 cr at the end of first quarter. The **asset quality** of the overall credit book continued to remain under control with Gross NPLs at 1.12% and Net NPLs at 0.32% indicating a Provision Coverage Ratio (PCR) of 71%. Including the general loan loss provision that we make on our standard assets, the PCR is 101%. We continue to focus on risk management and achieving growth in the book without diluting risk standards.

Having added a new source of long term liabilities by virtue of two **public issues of NCDs since January 2014**, our NBFC subsidiary **ECL Finance Limited** is well placed to grow its asset book with confidence. Its Capital Adequacy Ratio as on June 30, 2014 is 22.8% excluding the episodic funding.

**Fixed Income Advisory** business continued to be among leading debt arrangers in the country having handled eight transactions in Q1FY15 including one public issue of NCDs and five Debt Syndication and Restructuring advisory transactions.

### \* **Commodities:**

Edelweiss set up its commodities business about 6 years ago in order to diversify across adjacent asset classes. The expected financialisation of commodities markets in India will act as a growth driver for this strategically important business.

We see agri business as a significantly large and untapped opportunity in India across sourcing of commodities through our infrastructure and intermediary network, making credit available to the participants in the value chain and distribution. The business is also building an international sourcing and procurement model for key commodities like pulses and oilseeds. A state-of-the-art precious metals refinery is being set up in Ahmedabad as a part of our precious metals business. We continue to invest in infrastructure, people strategy, technologies, inventory and collateral risk management and operations processes to strengthen the business.

### \* **Financial Markets:**

After facing severe headwinds in the past two years, Markets have rallied in the hope of a stable and progressive government at the centre and FII inflows have been higher. Stock Market indices have also recorded a growth of around 40% over the lows of FY14.

This business handled two transactions this quarter including the QIP of ₹ 4,808 cr for Reliance Communications, one of the largest QIPs ever in India, and the IPO of Rs. 181 cr for Wonderla Holidays which generated significant interest among investors.

\* **Retail Financial Market** business continued to scale up its market share with the total retail client base crossing 4,54,000 having added nearly 28,000 clients during the quarter. This includes over 1,27,000 online clients. The AuAs of the Wealth business touched ₹ 7,000 cr at the end of this quarter, up from ₹ 4,800 cr at the end of the previous quarter.
