Notes:

- The standalone financial results of Edelweiss Financial Services Limited ('EFSL' or 'the Company') for the quarter and year ended 31 March 2016 have been reviewed and recommended by the Audit Committee and approved by the Board of Directors at its meeting held on 13 May 2016.
- The Company by virtue of its holding company activities, charges its actual borrowing cost on the loans extended to its group companies. Consequently, in the financial statements, Finance costs have been reflected net of the interest recovered from group companies amounting to ₹ 103.33 crores (previous period ₹ 123.80 crores) for the quarter ended 31 March 2016 and ₹ 511.37 crores (previous year: ₹ 399.09 crores) for the year then ended. During January 2016, Expert Advisory Committee (EAC) of the Institute of the Chartered Accountants of India ('the ICAI') has opined that the recovery of interest income from group companies should be presented separately in the Statement of Profit and Loss. In the opinion of management, principal activity of the Company is of merchant banking and extending loans to its group companies is part of parental support and hence presenting the recovery of finance cost as income does not reflect the business rationale as there is no economic benefit accruing to the Company. Accordingly, in February 2016, a reference has been made to EAC for review of its opinion. Pending response from the ICAI on the matter, existing practice of presenting finance cost, net of interest recovery from the group companies, is continued.
- During the quarter ended 31 March 2016, the Company has issued 1,127,337 equity shares of face value of ₹ 1 each to the employees on exercise of employee stock options.
- During the year, the Company had declared and paid interim dividend of ₹ 1.25 per equity share (on a face value of ₹ 1 per equity share).
- Earnings per share for the quarters ended 31 March 2016, 31 December 2015 and 31 March 2015, have been calculated for three months and not annualised.
