Edelweiss has evolved into a large financial services firm through its strategy of synergistic diversification. It has grown significantly since its inception in 1995 and has increased its presence and influence across all sectors of financial services. The business model is de-risked by adding different businesses, asset classes, client segments, demographics, markets and geographies in adjacent spaces. This has led to the building of a highly diversified financial services company within the non banking financial services sector. Increasingly the profits are being contributed by multiple businesses and this has reduced concentration risk and made profits more sustainable. Our aspiration is to be a large, respected organisation with quality high growth businesses in every material segment of financial services.

**Speaking on the occasion, Mr. Rashesh Shah, Chairman and CEO, Edelweiss Financial Services Limited said:**

*"Operating environment is gradually improving with comfortable liquidity aided by a rate cut in this quarter. At the same time, credit growth, corporate earnings and investment continue to remain sluggish. Global situation and currencies have been volatile bringing in some uncertainties. Despite these challenges, we believe Indian macro-economic indicators will keep improving gradually and we may see return of growth in the second half of FY16."*

*"For Q1FY16, our net profit is higher by 17% YoY and return on tangible equity ex-insurance is at 17.0% compared to 15.5% for Q1FY15. We continue to focus on improving capital and operating efficiency, scaling up retail businesses, strengthening balance sheet, risk and compliance, building a customer-centric culture, upgrading technology and nurturing leadership for future growth."*

*"Our long-term strategy of diversifying across businesses, asset classes and client segments continues to bear fruits as demonstrated by consistent improvement in financial and business indicators. With the completion of the diversification phase in FY12, Edelweiss has built an organisation with a strong foundation and is well positioned to leverage the potential."*

The **diversified revenue mix** has helped us achieve improvement in our performance on a sustained basis despite volatile environment.
