A MESSAGE FROM OUR ESG COUNCIL CHAIRPERSON 02
SUSTAINABILITY AT EDELWEISS GROUP 09
CONTRIBUTING TO SOCIETY 17
OUR RESPONSE TO COVID-19 04
RESPONSIBLE GOVERNANCE 12
PROTECTING THE ENVIRONMENT 24
Last year, I was entrusted with the responsibility of ensuring that our ESG efforts are monitored and executed efficiently across the Edelweiss Group. This is a role I take very seriously, and one that also aligns with my role as the CEO of our philanthropic initiative, EdelGive Foundation. I understand that many companies of our stature do not have a sustainability report, let alone a director on the board tasked with this responsibility. This report is thus our attempt to set a positive example in the industry and showcase our collective conviction to invest in our stakeholders, our community and our environment.

Edelweiss Group's journey as a leader in the financial services sector is driven by ideas on one hand and values on the other. A large part of the values we support are guided by our commitment to do our best for ourselves, our employees, our customers and society at large. ESG is therefore an extension of this commitment and showcases our resolve to include sustainability within all areas of our operations.

Today, we find ourselves in the middle of a global pandemic, one that has already had catastrophic impact on communities and economies across the world. In the current backdrop, the definition of a sustainable organisation has also changed. The on-going battle to limit the spread and impact of Covid-19, has made it even more important for organisations to define and adhere to social and environmental commitments. We must therefore be resilient, adaptable and accepting of innovative ways of operating, enhancing our use of technology to the fullest. Our Sustainability report and the value of sustainability we uphold, has taken on a deeper meaning this year, one which I hope will come through from this report.

This is the first issue of our Sustainability Report, since I have taken responsibility and I feel humbled to share some of the key parameters of the detailed process we have undertaken, with you:

1. Our comprehensive Sustainability Report is an entirely organic report co-created by the team at Edelweiss, who are directly responsible for our achievements in ESG
2. The report focuses on the SDG framework that has been voluntarily adopted. We continue to monitor our achievements against 9 of the 17 SDGs we are aligned with. These have been selected with a fierce conviction as they were the most important for us to address, without spreading ourselves too thin, rather focussing on a few achievable goals
3. We have also committed to getting our sustainability report assured externally in 2 years. The team at Edelweiss is putting in place the processes required to ensure external scrutiny as well as internal oversight at the Board level

We are firm believers in the concept of 'What cannot be measured cannot be managed', and hence, a process of benchmarking with global reporting standards was undertaken. These benchmarks reflect our seriousness of purpose and our ambition to measure ourselves, year on year, on our targets. We have chosen more than 50 GRI standards which are globally recognised indicators of progress, to report our activities

As part of our efforts to institutionalise this process, we have also put together an ESG Council of senior Edelweiss leaders, responsible for meeting our goals in a thoughtful way. ESG was always part of our thinking and doing and I am certain that the Council will make it part of our being

Even with the new challenges before us, we stand strong in our resolve to operate within the highest levels of governance, supporting societal growth and conserving our natural resources. Through this journey, we are fortunate to have been associated with partners, customers and employees who have stood by us and supported our decisions along the way.

We thank you for your support and hope to continue to live up to the high level of standards that you hold us to.

Warm Regards,

Vidya Shah
Chairperson, ESG Council, Edelweiss Group
CEO, EdelGive Foundation
The Covid-19 pandemic and subsequent lockdown applied immense pressure on economies and businesses across the globe. In India particularly, the pandemic and the resultant lockdown, has challenged our operating environment and further deepened the strain on the economy. At Edelweiss, we enabled a swift and seamless transition to work from home, without any significant loss in productivity. While we worked towards gradually returning to normalcy, a strict focus on safety and hygiene was maintained. We were also cognisant that staying connected and remaining available to all our stakeholders, especially our customers, despite the physical distance, would be critical.
