Speaking on the occasion, Mr. Rashesh Shah, Chairman and CEO, Edelweiss Financial Services Limited said:

“The last eight quarters have been challenging ones for the financial services industry. A slowing economy was further weakened by the COVID-19 crisis. I am proud of the resilience we have showed in such testing times. I attribute our adaptability as an organisation to our diversified business model. So even when one of our businesses battle sustained headwinds, our other three businesses continued more or less BAU. Throughout this year, our liquidity has been adequate, and our capital base more than adequate.

In this quarter, we have taken three conscious decisions based on our experience and that of our Board: the markdown and sell-down of our corporate asset book, accelerating to capital light model in retail credit, and the proposed equity raise at Edelweiss and in our Wealth & Asset Management business. These measures will further strengthen both our balance sheet and our dominant franchises. As the economy recovers over the next few quarters, our businesses will be well-poised to grow strongly.”
