

Independent Auditors' Report**To the Members of Edelweiss Global Wealth Management Limited
Report on the Audit of the Ind AS Financial Statements****Opinion**

We have audited the accompanying Ind AS financial statements of Edelweiss Global Wealth Management Limited ("the Company"), which comprise the Balance sheet as at March 31, 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its loss including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (the 'ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibilities for the Ind AS Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Other Matter

The comparative Ind AS financial statements of the Company for the year ended March 31, 2019, included in these standalone Ind AS financial statements, have been audited by the predecessor auditor, who issued unmodified opinion on those financial statements on May 9, 2019.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;

- (g) In our opinion and according to the information and explanation given to us, no remuneration has been paid by the Company to its directors during the current year.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. the Company does not have any pending litigations which would impact its financial position;
 - ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
 - iii. there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure A to the Auditors' Report

The Annexure referred to in our Independent Auditors' Report to the members of Edelweiss Global Wealth Management Limited ('the Company') on the financial statements for the year ended March 31, 2020, we report that:

- (i) (a) The Company has maintained proper records showing full particulars, including quantitative details and situation of fixed assets.
- (b) As explained to us, the Company has a regular programme of physical verification of its fixed assets by which all the fixed assets are verified in a phased manner over a period of three years. In our opinion this periodicity of physical verification is reasonable having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given to us, the Company does not own immovable properties, accordingly, the requirements under paragraph 3(i)(c) of the Order are not applicable to the Company.
- (ii) Based on our examination of documents and records, the Company does not own any inventory during the year. Therefore, the provisions of clause 3(ii) of the Companies (Auditor's Report) Order, 2016 are not applicable to the Company.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii) (a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanations given to us, there are no loans to directors including entities in which they are interested in respect of which the provisions of section 185 of the Companies Act, 2013 are applicable and hence not commented upon. In our opinion and according to the information and explanations given to us, the Company has complied with the provisions of section 186 of the Companies Act, 2013 in respect of investments made.
- (v) The Company has not accepted any deposits from the public.
- (vi) The Central Government has not prescribed the maintenance of cost records under section 148 (1) of the Companies Act, 2013 for any activities conducted and services rendered by the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, services tax, goods and service tax, cess, and other material statutory dues, applicable to it, have been regularly deposited during the year by the Company with the appropriate authorities. As explained to us, Company did not have any dues on account of employees' state insurance, sales tax, value added tax, duty of excise and duty of custom.

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income-tax, services tax, goods and service tax, cess and other material statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

- (b) According to the information and explanations given to us, there are no dues of income tax, service tax, goods and service tax and cess which have not been deposited on account of any dispute.

- (viii) In our opinion, and according to information and explanations given to us, the Company has not defaulted in repayment of dues to its financial institution. Further, the Company does not have any loans or borrowings from any banks, government and debenture holders.
- (ix) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) and term loans during the year. Accordingly, paragraph 3 (ix) of the Order is not applicable.
- (x) According to the information and explanations given to us, no fraud by the Company or on the Company by its officers or employees has been noticed or reported during the course of our audit.
- (xi) According to the information and explanations given to us and based on our examination of the records of the Company, during the year, the Company has not paid/provided for managerial remuneration. Accordingly, paragraph 3 (xi) of the Order is not applicable.
- (xii) In our opinion and according to the information and explanations given to us, the Company is not a nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 188 of Companies Act, 2013 where applicable and the details have been disclosed in the financial statements, as required by the applicable accounting standards. The provisions of section 177 are not applicable to the Company and accordingly reporting under clause 3(xiii) insofar as it relates to section 177 of the Act is not applicable to the Company and hence not commented upon.
- (xiv) According to the information and explanations given by the management, the Company has complied with provisions of section 42 of the Companies Act, 2013 in respect of the preferential allotment or private placement of shares/r fully or partly convertible debentures during the year. According to the information and explanations given by the management, we report that the amounts raised, have been used for the purposes for which the funds were raised.
- (xv) According to the information and explanations given to us and based on our examination of the records of the Company, the Company has not entered into non-cash transactions with directors or persons connected with him. Accordingly, paragraph 3(xv) of the Order is not applicable.
- (xvi) The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934.

Annexure B to the Auditors' Report

Annexure B the Independent Auditor's report of even date on the financial statements of Edelweiss Global Wealth Management Limited ("the Company")

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Edelweiss Global Wealth Management Limited ("the Company")** as of March 31, 2020 in conjunction with our audit of financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the "Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.1 Background

Edelweiss Global Wealth Management Limited ("the Company") was incorporated on October 9, 2007. The Company is a 100% subsidiary of Edelweiss Financial Services Limited.

The Company holds Investment Advisor registration with Securities and Exchange Board of India (SEBI) for providing advisory services to the clients.

1.2 Basis of preparation of financial statements

The Financial statements of the Company has been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and the other relevant provisions of the Companies Act, 2013 ('the Act') and rules thereunder.

These financial statements for the year ended March 31, 2020 are the financial statements of the Company prepared under Ind AS.

These Financial statements have been prepared on a historical cost basis, except for certain financial instruments such as financial asset measured at fair value through other comprehensive income (FVOCI) instruments, derivative financial instruments, and other financial assets held for trading, which have been measured at fair value through profit or loss (FVTPL). The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest thousands, except when otherwise indicated.

The outbreak of COVID-19 virus continues to spread across the globe including India, resulting in significant volatility in financial markets and a significant decrease in global and India's economic activities. On March 11, 2020, this outbreak was declared a global pandemic by the World Health Organization. On March 24, 2020, the Indian Government announced a 21 days lockdown which was further extended till 31st May 2020 across the nation to contain the spread of the virus and still continues to be across many parts of the country in India. The pandemic and its consequent adverse effect on the economy also adversely impacted the financial markets.

In preparing these financial statements, the Company's management has assessed the impact of the pandemic on its operations and its assets including the value of its investments as at March 31, 2020 based on estimate of the future results and various internal and external information available up to the date of approval of these financial statements. The estimates as at the date of approval of these financial results may differ based on the ongoing impact of the pandemic and the timing of the improvement in the economy and the financial markets.

1.3 Presentation of financial statements

The Company presents its balance sheet in compliance with the Division II of the Schedule III to the Companies Act, 2013.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.3 Presentation of financial statements (*Continued*)

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the company and or its counterparties

All assets and liabilities are classified into current and non-current.

Assets

An asset is classified as current when it is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle or it is held primarily for the purpose of being traded or it is expected to be realized within 12 months after the reporting date or it is cash or cash equivalent unless it is restricted from being exchanged or expected to be used to settle a liability for at least 12 months after the reporting date. Current assets include the current portion of non-current assets. All other assets are classified as non-current.

Liabilities

A liability is classified as current when it is expected to be settled in the company's normal operating cycle or it is held primarily for the purpose of being traded or it is due to be settled within 12 months after the reporting date or the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

1.4 Significant accounting policies

1.4.1 Recognition of interest and dividend income

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and debt instrument measured at FVOCI. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.

Dividend income is recognised in profit or loss when the Company's right to receive payment of the dividend is established, it is probable that the economic benefits associated with the dividend will flow to the entity, and the amount of the dividend can be measured reliably.

1.4.2 Financial Instruments

a) Date of recognition

Financial assets and financial liabilities, with the exception of borrowings are initially recognised on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.2 Financial Instruments (Continued)

Instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. The Company recognises borrowings when funds are available for utilisation to the Company.

b) Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

1.4.3 Classification of financial instruments

a) Financial assets:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- Fair value through other comprehensive income [FVOCI]
- Fair value through profit or loss [FVTPL]

The Company measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.3 Classification of financial instruments (Continued)

By default, all other financial assets are subsequently measured at FVTPL.

i. Amortized cost and Effective interest method:

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

ii. Investment in equity instruments

The Company subsequently measures all equity investments at fair value through profit or loss.

b) Financial liabilities:

All financial liabilities are measured at amortised cost except loan commitments, financial guarantees, and derivative financial liabilities.

Debt securities and other borrowed funds

After initial measurement, debt issued and other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

c) Financial assets and Financial liabilities at fair value through profit or loss

Financial assets and financial liabilities in this category are those that are not held for trading and mandatorily required to be measured at fair value under Ind AS 109.

Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.3 Classification of financial instruments (*Continued*)

premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

d) Financial liabilities and equity instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by a Company entity are recognised at the proceeds received.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

1.4.3 Derecognition of financial assets and financial liabilities

a) Derecognition of financial assets due to substantial modification of terms and conditions:

The Company derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

b) Derecognition of financial assets (other than due to substantial modification):

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition. The difference between the carrying value of the original financial asset and the consideration received would be recognised in profit or loss.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.4 Derecognition of financial assets and financial liabilities (Continued)

- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

c) Derecognition of financial liabilities:

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing financial liability are substantially modified, such an exchange or modification is treated as a derecognition of the original financial liability and the recognition of a new financial liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, would be recognised in profit or loss.

1.4.5 Reclassification of financial assets and financial liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

1.4.6 Impairment of financial assets

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables and lease receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime (Expected Credit Loss (ECLs) at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure expected credit losses.

For financial assets, the expected credit loss is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate. The Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

1.4.7 Write off

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.8 Determination of fair value

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 financial instruments –Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.
- Level 2 financial instruments–Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.
- Level 3 financial instruments –Those that include one or more unobservable input that is significant to the measurement as whole. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.8 Determination of fair value (Continued)

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

1.4.9 Revenue from contract with customer

Revenue is measured at transaction price i.e. the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Company consider the terms of the contract and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Company excludes the estimates of variable consideration that are constrained.

The Company recognises revenue from the following sources:

Fee income including advisory fees, referral fees, commission income are accounted at a point in time as the customer receives and consumes the benefits.

1.4.10 Operating leases

As described in Note 37c, the Company has applied Ind AS 116 using the modified retrospective approach and therefore comparative information has not been restated. This means comparative information is still reported under Ind AS 17.

Company as a lessee:

For any new contracts entered into on or after 1 April 2019, the Group considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition the Company assesses whether the contract is or contains lease

Measurement and recognition

At lease commencement date, the Company recognises a right-of-use (ROU) asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist. At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or at the incremental borrowing rate.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.10 Operating leases (Continued)

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero

Short term lease

The Company has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Company recognises lease payment associated with these leases as an expense on a straight line basis over lease term.

In the comparative period, as a lessee the Company classified leases that transfer substantially all the risk and reward of ownership as finance leases. Assets held under other leases are classified as operating lease and were not recognised in Company Balance sheet. Payments made under operating lease are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, in which case lease payments are recognised based on contractual terms. Contingent rental payable is recognised as an expense in the period in which it is incurred

Company as lessor:

The Company's accounting policy under Ind AS 116 has not changed from the comparative period. As a lessor the Company classifies its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset and classified as an operating lease if it does not.

1.4.11 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

1.4.12 Foreign currency transactions

The Financial statements are presented in Indian Rupees. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognised at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.13 Retirement and other employee benefit

Provident fund and national pension scheme

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

a) Gratuity

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to profit or loss in subsequent periods.

b) Compensated Absences

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

1.4.14 Share-based payment arrangements

Certain employees of the Company have been granted equity-settled ESOPs by the ultimate parent company (Edelweiss Financial Services Limited). The Company recognizes a cost with respect to the services received from the said employees measured by reference to the fair value of the equity instruments granted by the ultimate parent at the grant date. The fair value determined at the grant date is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in deemed capital contribution from the ultimate parent, to the extent it is not recovered by the ultimate parent company.

At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the deemed capital contribution to the extent it is not recovered by the ultimate parent company. In cases where the share options granted vest in instalments over the vesting period, the

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.14 Share-based payment arrangements (Continued)

Company treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

1.4.15 Property, plant and equipment and right – of – use assets

Property plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognised in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognised in profit or loss as incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the fixed assets are as follows:

Estimated useful lives of the assets are as follows:

Nature of assets	Estimated useful life
Building (other than Factory Building)	60 years
Furniture and fixtures	10 years
Vehicles	8 years
Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years

Leasehold improvements are amortized on a straight-line basis over the estimated useful lives of the assets or the period of lease whichever is earlier.

Right-of-use assets are presented together with property and equipment in the statement of financial position – refer to the accounting policy 1.4.10. Right-of-use assets are depreciated on a straight-line basis over the lease term.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.15 Property, plant and equipment and right – of – use assets *(Continued)*

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

For transition to Ind AS, the Company has elected to continue with carrying value of all of its property, plant and equipment recognised as of April 1, 2017 (transition date) measured as per the previous GAAP notified by MCA rules 2006 and use that carrying value as its deemed cost as of the transition date.

1.4.16 Intangible assets

The Company's intangible assets mainly include the value of computer software. An intangible asset is recognised only when its cost can be measured reliably and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Intangible assets with finite lives are amortised over the useful economic life.

Intangibles such as software is amortised over a period of upto 5 years based on its estimated useful life.

1.4.17 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

1.4.18 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.19 Provisions and other contingent liabilities

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities. Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

1.4.20 Income tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

a) Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

b) Deferred tax

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognised with respect to carry forward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognised to the

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.4.20 Income tax expenses (*continued*)

extent it is probable that:

- the entity will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or
- tax planning opportunities are available that will create taxable profit in appropriate periods.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

c) Current and deferred tax for the year

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

Minimum alternate tax (MAT)

MAT paid in a year is charged to the statement of profit and loss as current tax. The Company recognises unused MAT credit as a deferred tax asset only to the extent that it is probable that the Company will be able to utilise during the specified period, i.e., the period for which MAT credit is allowed to be carried forward. In the year in which the Company recognises deferred tax asset (MAT credit) as an asset, the said asset is created by way of credit to the statement of profit and loss. The Company reviews the MAT asset at each reporting date and writes down the asset to the extent that it is not probable that the Company will be able to utilise it during the specified period.

1.5 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020

1.5 Critical accounting judgements and key sources of estimation uncertainty (*continued*)

Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the Financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

a) Effective interest rate method

The Company's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given/ taken and recognises the effect of characteristics of the product life cycle.

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes fee income/expense that are integral parts of the instrument.

b) Accounting for deferred taxes

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies.

The Company has recognised deferred tax assets on carried forward tax losses where the Company believes that the said deferred tax assets shall be recoverable based on the estimated future taxable income which in turn is based on approved business plans and budgets. The losses are allowed to be carried forward to the years in which the Company expects that there will be sufficient taxable profits to offset these losses.

1.6 Standards issued but not yet effective

There are no new standard or amendment issued but not effective.

Unconsolidated Structured Entities

The following tables show the carrying amount of the Company's recorded interest in its Balance sheet as well as the maximum exposure to risk (as defined in below) due to exposures in unconsolidated structured entities:

Particulars	March 31, 2020		March 31, 2019	
	Carrying amount	Maximum exposure	Carrying amount	Maximum exposure
Investments in units of Alternative Investment Funds	389,368.26	389,368.26	384,867.72	384,867.72
Total Assets	389,368.26	389,368.26	384,867.72	384,867.72
Total Liabilities				
Off-balance sheet exposure	12,500.00	NA	47,500.00	NA
Size of the structured entities	26,261,511.96	NA	37,459,780.46	NA
Income from the structured entities	(30,333.09)	NA	15,783.81	NA

The size of the structured entity refers to assets under management of alternative investment funds. For investments in structured entities, the carrying value reflects the Company's maximum exposure to loss.

35 Segment reporting

The Company's business is organised and management reviews the performance based on the business segments as mentioned below:

Segment	Activities Covered
Agency business	Advisory and product distribution services
Capital based business	Income from treasury operations, income from investments and dividend income

Income for each segment has been specifically identified. Expenditure, assets and liabilities are either specifically identified with individual segments or have been allocated to segments on a systematic basis.

Based on such allocations, segment disclosures relating to revenue, results, assets and liabilities have been prepared.

The following table gives information as required under the Ind AS 108 on Operating Segment Reporting:

Particulars	For the year ended March 31, 2020	For the year ended March 31, 2019
I Segment revenue		
a) Agency business	513,703.12	592,414.48
b) Capital based business	-	44,287.70
c) Unallocated	6,624.34	2,244.81
Total Income	520,327.46	638,946.99
II Segment results

37 Contingent liabilities, commitments and lease arrangements

a. Contingent liabilities

Particulars	March 31, 2020	March 31, 2019
Taxation matters	-	994.55

The Company has received demand notices from tax authorities on account of disallowance of expenditure for earning exempt income under Section 14A of Income Tax Act 1961 read with Rule 8D of the Income Tax Rules, 1962. The company has filed appeal/s and is defending its position. Based on the favourable outcome in Appellate proceedings in the past and as advised by the tax advisors, company is reasonably certain about sustaining its position in the pending cases, hence the possibility of outflow of resources embodying economic benefits on this ground is remote.

b. Capital commitments

Particulars	March 31, 2020	March 31, 2019
Towards Property, plant and equipment	222.92	7,614.96
Towards Investment in Alternative Investment Funds as Sponsor	12,500.00	47,500.00

c. Operating lease commitments

The Company has entered into commercial leases for premises and equipment.

There are no future minimum lease payments under non-cancellable operating leases for the year ended March 31, 2019.

There are no short term lease payments under operating leases for the year ended March 31, 2020.

i) Reconciliation of Lease commitment with opening lease liability

Measurement of lease liability	March 31, 2020
Opening lease commitment disclosed as at March 31, 2019	-
Change in lease term under Ind AS 116	19,216.24
Total	19,216.24

ii) The change in accounting policy affected following items in the balance sheet as on April 1, 2019

39 Fair Values of Financial Instruments

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy:

Particulars	March 31, 2020			
	Level 1	Level 2	Level 3	Total
Investments in Units of Alternative Investment funds (refer note a below)	-	-	389,368.26	389,368.26
Other financial assets (refer note b below)	-	78,615.57	-	78,615.57
March 31, 2019				
Particulars	Level 1	Level 2	Level 3	Total
Investments in Units of Alternative Investment funds (refer note a below)	-	-	384,867.72	384,867.72
Other financial assets (refer note b below)	-	224,825.60	-	224,825.60

- a) Units held in Alternative Investment Funds are measured based on fund net asset value (NAV), taking into account redemption and/or other restrictions. Such instruments of Alternative Investment Funds are classified at Level 3.
- b) The Company has measured the fair value of other financial assets by using comparable market price of similar units within the same real estate property.

Financial instruments not measured at fair value:

With respect to financial instruments not measured at fair value, their carrying amounts approximates fair value.

Unobservable inputs used in measuring fair value categorised within Level 3

Following tables set out information about significant unobservable inputs used at respective balance sheet dates in measuring financial instruments categorised as Level 3 in the fair value hierarchy.

Type of Financial Instruments	Fair value of asset as on March 31, 2020	Fair value of liability as on March 31, 2020	Valuation Techniques	Significant Unobservable input	Range of estimates for unobservable input	Increase in the unobservable input (% or as the case may be)	Change in fair value in statement of profit and loss	Decrease in the unobservable input (% or as the case may be)	Change in fair value in statement of profit and loss
Investments in units of AIF	389,368.26	-	Net Asset Value	Fair value of underlying Net Assets of the Funds	1,719,192.41 - 12,035,980.70	5%	19,468.41	5%	-19,468.41

Type of Financial Instruments	Fair value of asset as on March 31, 2019	Fair value of liability as on March 31, 2019	Valuation Techniques	Significant Unobservable input	Range of estimates for unobservable input	Increase in the unobservable input (% or as the case may be)	Change in fair value in statement of profit and loss	Decrease in the unobservable input (% or as the case may be)	Change in fair value in statement of profit and loss
Investments in units of AIF	384,867.72	-	Net Asset Value	Fair value of underlying Net Assets of the Funds	1,392,329.91 -13,329,354.34	5%	17,940.77	5%	-17,940.77

Edelweiss Global Wealth Management Limited

Notes to the financial statements for the year ended March 31, 2020 (Continued)

(Currency: Indian rupees in thousands)

40. Risk Management

The Company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk and market price risk. It is also subject to various operating and business risks.

Risk management structure

The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles. The Board has appointed the Risk Committee which is responsible for monitoring the overall risk process within the Company and reports to the Audit Committee.

The Risk Committee has the overall responsibility for the development of the risk strategy and implementing principles, frameworks, policies and limits.

The Global Risk Group is responsible for implementing and maintaining risk related procedures to ensure an independent control process is maintained. The Company works closely with and reports to the Risk Committee, to ensure that procedures are compliant with the overall framework.

Credit risk

Credit risk is the risk of financial loss the Company may face due to current/potential inability or unwillingness of a customer or counterparty to meet financial /contractual obligations. The Company has adopted a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults.

Liquidity risk

Liquidity risk emanates from the possible mismatches due to differences in maturity and repayment profile of assets and liabilities. To avoid such a scenario, the Company has maintained cash reserves in the form of cash, group loan support which are callable any time at the Company's discretion, etc. These assets carry minimal credit risk and can be liquidated in a very short period of time. These would be to take care of immediate obligations while continuing to honour commitments as a going concern.

44. Cost Sharing

Edelweiss Financial Services Limited, being the holding company along with fellow subsidiaries incurs expenditure like Group mediclaim, insurance, electricity charges etc. which is for the common benefit of itself and its certain subsidiaries, fellow subsidiaries including Company. This cost so expended is reimbursed by the Company on the basis of number of employees. On the same line, branch running cost expended by the Company for the benefit of fellow subsidiaries is recovered by the Company. Accordingly, and as identified by management, expenditure heads in note 31 and 32 include reimbursement paid and are net of reimbursement received based on the management's best estimate.

45. Details of dues to micro enterprises and small enterprises

Trade payable include ₹ Nil (Previous year ₹ Nil) payable to "Suppliers" registered under the Micro, Small and Medium Enterprises Development Act 2006. No interest has been paid / is payable by the company during the year to "Suppliers" registered under this act. The aforementioned is base on the responses received by the Company to its inquiries with suppliers with regards to applicability under the said act.

46. Capital management

The primary objectives of the Company's capital management policy are to ensure that the Company maintains healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

In addition to above, the Company is required to maintain minimum net-worth as prescribed by regulatory authorities. The management ensures that this is complied.
