

INDEPENDENT AUDITOR'S REPORT

To the Members of Edelweiss Housing Finance Limited

Report on the Audit of the Indian Accounting Standard ("Ind AS") Financial Statements

Opinion

We have audited the accompanying Ind AS financial statements of Edelweiss Housing Finance Limited ("the Company"), which comprises the Balance sheet as at March 31 2020, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the Ind AS financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2020, its profit including other comprehensive income its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing ("SAs"), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

Emphasis of Matter - Assessment of COVID 19 Impact

We draw attention to Note 6.1 to the Financial Statement, which describes the economic and social disruption as a result of COVID-19 pandemic of the Company's business and financial metrics including the Company's estimates of impairment of loans to customers and investments which are highly dependent on uncertain future developments.

Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the Ind AS financial statements for the financial year ended March 31, 2020. These matters were addressed in the context of our audit of the Ind AS financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the Ind AS financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the Ind AS financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying Ind AS financial statements.

Key audit matters	How our audit addressed the key audit matter
<p>Impairment of financial instruments (expected credit losses) (as described in note 46.1 of the standalone Ind AS financial statements)</p>	
<p>Ind AS 109: Financial Instruments ("Ind AS 109") requires the Company to provide for impairment of its Loan & Advances and Investment receivables ("Financial Instruments") using the Expected Credit Losses ("ECL") approach. ECL involves an estimation of probability-weighted loss on Financial Instruments over their life, considering reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions which could impact the credit quality of the Company's loans and advances. In the process, a significant degree of judgement has been applied by the management for:</p> <ol style="list-style-type: none"> Defining qualitative/ quantitative thresholds for 'significant increase in credit risk' ("SICR") and 'default'. Determining effect of less frequent past events on future probability of default. Grouping of borrowers based on homogeneity by using appropriate statistical techniques; Determining macro-economic factors impacting credit quality of receivables; <p>Impact of COVID-19 The spread of COVID-19 has severely impacted many economies around the globe. Businesses are being forced to cease or limit operations for long or indefinite periods of time. Measures taken to contain the spread of the virus, including travel bans, quarantines, social distancing, and closures of non-essential services have triggered significant disruptions to businesses, resulting in an economic slowdown and economic uncertainties. Measures have also been taken by the Government and the Reserve Bank to ease the burden on businesses from hardship. Pursuant to the Reserve Bank of India circular dated March 27, 2020 and May 23, 2020 ("RBI Circulars") allowing lending institutions to offer moratorium to borrowers on payment of instalments falling due between March 1, 2020 and August 31, 2020, the Company has extended moratorium to its borrowers in accordance with its Board approved policy as described in Note 6.1.</p> <p>In management's view and considering the guidance provided by the Institute of Chartered Accountants of India ('ICAI'), providing moratorium to borrowers at a mass scale, based on RBI directives, by itself is not considered to result in a SICR for such borrowers. The Company has recorded a management overlay as part of its ECL, to reflect among other things an increased risk of deterioration in macro-economic factors caused by COVID-19 pandemic. Given the unique nature and scale of the economic impact of this pandemic, its timing being close to the year-end,</p>	<ul style="list-style-type: none"> Our audit procedures included considering the Company's accounting policies for impairment of Financial Instruments and assessing compliance with the policies in terms of Ind AS 109: Financial Instruments. Read the Company's policy with respect to moratorium pursuant to the RBI Circular and tested the implementation of such policy on a sample basis. Evaluated the reasonableness of the management estimates by understanding the process of ECL estimation and related assumptions and tested the controls around data extraction and validation. Assessed the criteria for staging of loans based on their past-due status to check compliance with requirement of Ind AS 109. Tested a sample of performing (stage 1) loans to assess whether any SICR or loss indicators were present requiring them to be classified under stage 2 or 3. Assessed the additional considerations applied by the management for staging of loans as SICR or default categories in view of Company's policy on moratorium. Tested the ECL model, including assumptions and underlying computation. Tested the input data used for determining the PD and LGD rates and agreed the data with the underlying books of accounts and records. Tested the arithmetical accuracy of computation of ECL provision performed by the Company. Read and assessed the disclosures included in the Ind AS financial statements in respect of expected credit losses with the requirements of Ind AS 107 and 109.

<p>and no reliable data being available regarding the impact of various regulatory packages, the macroeconomic overlay estimate is based on various highly uncertain and unobservable factors. In accordance with the guidance in Ind AS 109, the macroeconomic overlay estimate takes into account reasonably and supportable information without incurring significant cost. The actual credit losses could be significantly different than the ECL estimates prepared by the Company depending upon the impact and duration of the pandemic and various regulatory and policy measures announced by the Government.</p> <p>In view of the high degree of management's judgement involved in estimation of ECL, accentuated by the COVID-19 pandemic, it is a key audit matter.</p>	
<p>Information Technology</p> <p>The financial accounting and reporting systems of the Company are fundamentally reliant on IT systems and IT controls to process significant transaction volumes. Automated accounting procedures and IT environment controls, which include IT governance, general IT controls over program development and changes, access to programs and data and IT operations, are required to be designed and to operate effectively to ensure accurate financial reporting.</p> <p>Therefore, due to the pervasive nature and complexity of the IT environment, the assessment of the general IT controls and the application controls specific to the accounting and preparation of the financial information is considered to be a key audit matter.</p>	<p>We performed the following procedures, assisted by specialized IT auditors on the IT infrastructure and applications relevant to financial reporting:</p> <ul style="list-style-type: none"> • Tested the design and operating effectiveness of IT access controls over the information systems that are critical to financial reporting. • Tested IT general controls (logical access, changes management and aspects of IT operational controls). This included testing that requests for access to systems were appropriately reviewed and authorized. • Tested the Company's periodic review of access rights. We inspected requests of changes to systems for appropriate approval and authorization. • In addition to the above, we tested the design and operating effectiveness of certain automated and IT dependent manual controls that were considered as key internal controls over financial reporting. • Where deficiencies were identified, we tested compensating controls or performed alternate procedures.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Directors Report but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information

and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management for the Ind AS Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these standalone Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

Conclude on the appropriateness of management's use of the going concern basis of accounting and, based

on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Ind AS financial statements for the financial year ended March 31, 2020 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

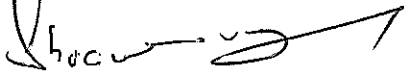

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2016 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.
2. As required by Section 143(3) of the Act, we report that:
 - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
 - (b) In our opinion, proper as required by law have been kept by the Company so far as it appears from our examination of those books;
 - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
 - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
 - (e) On the basis of the written representations received from the directors as on March 31, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2020 from being appointed as a director in terms of Section 164 (2) of the Act;
 - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure 2" to this report;
 - (g) In our opinion, the managerial remuneration for the year ended March 31, 2020 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act;

- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
- i. The Company does not have any pending litigations which would impact its financial position;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses;
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

Annexure 1 referred to under the heading "Report on other legal and regulatory requirements" of our report of even date

Re: Edelweiss Housing Finance Limited ("the Company")

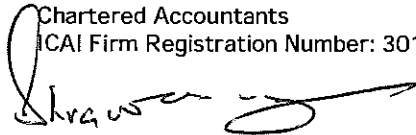

- (i)(a) The Company has maintained proper records showing full particulars, including quantitative details and location of fixed assets.
- (i)(b) Fixed assets have been physically verified by the management during the year and no material discrepancies were noticed on such verification.
- (i)(c) According to the information and explanations given by the management, the title deeds of immovable properties included in property, plant and equipment/ fixed assets are held in the name of the Company.
- (ii) The Company's business does not involve inventories and, accordingly, the requirements under paragraph 3(ii) of the Order are not applicable to the Company.
- (iii) According to the information and explanations given to us, the Company has not granted any loans, secured or unsecured to companies, firms, Limited Liability Partnerships or other parties covered in the register maintained under section 189 of the Companies Act, 2013. Accordingly, the provisions of clause 3(iii)(a), (b) and (c) of the Order are not applicable to the Company and hence not commented upon.
- (iv) In our opinion and according to the information and explanation given to us, there are no loans, investments, guarantees and securities granted in respect of which provisions of section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- (v) The Company has not accepted any deposits within the meaning of Sections 73 to 76 of the Act and the Companies (Acceptance of Deposits) Rules, 2014 (as amended). Accordingly, the provisions of clause 3(v) of the Order are not applicable.
- (vi) To the best of our knowledge and as explained, the Company is not in the business of sale of any goods. Therefore, in our opinion, the provisions of clause 3(vi) of the Order are not applicable to the Company.
- (vii)(a) The Company is regular in depositing with appropriate authorities, undisputed statutory dues including provident fund, income-tax, and other statutory dues applicable to it, except in case of goods and services tax for the month of March 2020 where the Company has deposited the goods and services tax, without payment of late fee and interest, after the original due date but within the timelines prescribed and in accordance with by circular no 136/06/2020-GST dated April 3, 2020 issued by Central Board of Indirect Taxes and Customs. The provisions relating to employees' state insurance, duty of customs, duty of excise, value added tax and cess are not applicable to the Company.
- (vii)(b) According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income-tax, goods and services tax and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable. The provisions relating to employees' state insurance, duty of customs, duty of excise, value added tax and cess are not applicable to the Company.
- (vii)(c) According to the information and explanations given to us, there are no dues of income-tax, goods and service tax, service tax, value added tax and cess which have not been deposited on account of dispute. The provision relating to employee's state insurance, sales tax, custom duty, excise duty and value added tax are currently not applicable to the Company.
- (viii) In our opinion and according to the information and explanations given by the management, the Company has not defaulted in repayment of loans or borrowing to a financial institution, bank or government or dues to debenture holders.
- (ix) According to the information and explanations given by the management, the Company has not raised any money by way of initial public offer or further public offer. Further, money raised by the Company by way of non-convertible debentures and term loans were applied for the purpose for which those were

raised, though idle/ surplus funds which were not required for immediate utilization were gainfully invested in liquid assets payable on demand.

- (x) Based upon the audit procedures performed for the purposes of reporting the true and fair view of the financial statements and according to the information and explanations given by the management, we report that no fraud by the Company or no fraud on the Company by the officers and employees of the Company has been noticed or reported during the year.
- (xi) According to the information and explanation given by the management, the managerial remuneration has been paid in accordance with the requisite approvals mandated by the provisions of section 197 read with Schedule V to the Companies Act, 2013.
- (xii) In our opinion, the Company is not a Nidhi company. Therefore, the provisions of clause 3(xi) of the order are not applicable to the Company and hence not commented upon.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) According to the information and explanations given to us and on an overall examination of the balance sheet, the Company has not made any preferential allotment or private placement of shares or fully or partly convertible debentures during the year under review and hence, reporting requirements under clause 3(xiv) are not applicable to the Company and, not commented upon.
- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with directors or persons connected with him as referred to in section 192 of Companies Act, 2013.
- (xvi) According to the information and explanations given to us, we report that the Company has registered as required, under section 45-IA of the Reserve Bank of India Act, 1934.

ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE STANDALONE FINANCIAL STATEMENTS OF EDELWEISS HOUSING FINANCE LIMITED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Edelweiss Housing Finance Limited ("the Company") as of March 31, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone financial statements.

Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting with Reference to these Standalone Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

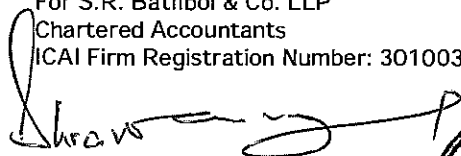

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone financial statements and such internal financial controls over financial reporting with reference to these standalone financial statements were operating effectively as at March 31, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

1. Corporate Information:

Edelweiss Housing Finance Limited ('EHFL' or 'the Company') is a public limited company domiciled and incorporated on May 30, 2008 under the provisions of the Companies Act applicable in India. The Company is subsidiary of Edelweiss Rural & Corporate Services Limited (Formerly Edelweiss Commodities Services Limited). The Company is registered as Housing finance institution (without accepting public deposit) with the National Housing Bank (NHB) under section 29A of the NHB Act, 1987, registration no. is 03.0081.10.

The Company's primary business is providing loan to Retail customers for construction or purchase of residential property, loan against property and loans to real estate developers.

2. Basis of preparation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared on a historical cost basis, except for certain financial instruments such as, derivative financial instruments, and other financial instruments held for trading, which have been measured at fair value. The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million, except when otherwise indicated.

2.1 Presentation of financial statements:

The Company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in "Note 41-Maturity Analysis of assets and liabilities".

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and or its counterparties

3. Significant accounting policies

3.1 Recognition of Interest income and Dividend income

3.1.1 Effective Interest Rate (EIR):

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or, when appropriate a shorter period to the gross carrying amount of financial instrument.

The EIR is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle including prepayments penalty interest and charges.

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income.

3.1.2 Interest Income:

The company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage 3', the Company calculates interest income by applying the EIR to the amortised cost (net of expected credit loss) of the financial asset. If the financial assets cure and is no longer credit-impaired, the Company reverts to calculating interest income on a gross basis.

Penal interest income on delayed EMI or pre EMI is recognised on receipt basis.

3.1.3 Fee and Commission Income

Fee and commission income include fees other than those that are an integral part of EIR. The Company recognises the fee and commission income in accordance with the terms of the relevant contracts / agreement and when it is probable that the Company will collect the consideration.

3.1.4 Dividend Income

Dividend income is recognised when the Company's right to receive dividend is established by the reporting date.

3.1.5. Other Income

Other Income represents income earned from the activities incidental to the business and is recognised when the right to receive the income is established as per the terms of the contract. Other ancillary charges are recognized upon realisation.

3.2 Financial Instruments:

3.2.1 Date of recognition:

Financial assets and liabilities with exception of loans and borrowings are initially recognised on the trade date, i.e. the date the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Company recognises borrowings when funds are available for utilisation to the Company.

3.2.2 Initial measurement of financial instruments:

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.2.3 Classification and Measurement categories of financial assets and liabilities:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- Fair value through other comprehensive income [FVOCI]
- Fair value through profit or loss [FVTPL]

The Company measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and

- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at FVTPL.

Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in carrying value of financial assets is recognised in profit and loss account.

Financial assets at fair value through other comprehensive income (FVTOCI)

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in fair value of financial assets is recognised in Other Comprehensive Income.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL. The Company measures all financial assets classified as FVTPL at fair value at each reporting date. The changes in fair value of financial assets is recognised in Profit and loss account.

3.3 Financial Assets and Liabilities:

3.3.1 Financial assets held for trading:

The Company classifies financial assets as held for trading when they have been purchased primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which there evidence of a recent pattern of short-term profit is taking. Held-for-trading assets are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes.

3.3.2 Debt securities and other borrowed funds:

The Company measures debt issued and other borrowed funds at Amorisred cost at each reporting date. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

3.3.3 Financial Guarantee:

Financial guarantees are contract that requires the Company to make specified payments to reimburse to holder for loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument.

Financial guarantee issued or commitments to provide a loan at below market interest rate are initially measured at fair value and the initial fair value is amortised over the life of the guarantee or the commitment. Subsequently they are measured at higher of this amortised amount and the amount of loss allowance.

3.3.4 Loan Commitments:

Undrawn loan commitments are commitments under which, the Company is required to provide a loan with pre-specified terms to the customer over the duration of the commitment. Undrawn loan commitments are in the scope of the ECL requirements.

3.4 Reclassification of Financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. The Company didn't reclassify any of its financial assets or liabilities in current year and previous year.

3.5 Derecognition of financial Instruments:

3.5.1 Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or a part of a group of similar financial assets) is derecognised when the rights to receive contractual cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either

- The Company has transferred the rights to receive cash flows from the financial asset or
- It retains the contractual rights to receive the cash flows of the financial asset, but assumed a contractual obligation to pay the cash flows in full without material delay to third party under pass through arrangement.

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following conditions are met:

- The Company has no obligation to pay amounts to the eventual recipients unless it has collected equivalent amounts from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates.
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients.

The Company has to remit any cash flows it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

The Company also derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

3.5.2 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expires. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, is recognised statement of profit or loss.

3.6 Impairment of financial assets:

The Company records provisions based on expected credit loss model ("ECL") on all loans, other financial assets not measured at FVTPL together with undrawn loan commitment and financial guarantee contracts, in this section all referred to as "Financial instrument". Equity instruments are not subject to impairment.

ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive discounted at the original effective interest rate. Because ECL consider the amount and timing of payments, a credit loss arises even if the entity expects to be paid in full but later than when contractually due.

Simplified Approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However, if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure ECL.

General Approach

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The measurement of expected credit losses is a function of the probability of default (PD), loss given default (LGD) (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default (EAD), for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

Company categories its financial assets as follows:

Stage 1 Assets:

Stage 1 assets includes financial instruments that have not had a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 2 Assets:

Stage 2 Assets includes financial instruments that have had a significant increase in credit risk since initial recognition. For these assets lifetime ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage 3 Assets:

Stage 3 for Assets considered credit-impaired the Company recognises the lifetime ECL for these loans. The method is similar to that for Stage 2 assets, with the PD set at 100%.

Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

The expected credit losses on the loan commitment have been recognised together with the loss allowance for the financial asset.

The Company's product offering includes a working capital facilities with a right to Company to cancel and/or reduce the facilities with one day's notice. The Company does not limit its exposure to credit losses to the contractual notice period, but, instead calculates ECL over a period that reflects the Company's expectations of the customer behaviour, its likelihood of default and the Company's future risk mitigation procedures, which could include reducing or cancelling the facilities.

3.7 Collateral Valuation:

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit /guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the Company's balance sheet. However, the fair value of collateral affects the calculation of ECLs. It is generally assessed, at a minimum, at inception and re-assessed on a periodic basis. However, some collateral, for example, securities relating to margin requirements, is valued daily.

To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market value are valued using models.

3.8 Collateral Repossessed:

The Company's policy is to determine whether a repossessed asset can be best used for its internal operations or should be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date in, line with the Company's policy.

In its normal course of business, the Company does not physically repossess properties or other assets in its retail portfolio, but engages external agents to recover funds, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, the residential properties under legal repossession processes are not recorded on the balance sheet.

3.9 Write-Offs:

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery.

3.10 Forborne and modified loan:

The Company sometimes makes concessions or modifications to the original terms of loans as a response to the borrower's financial difficulties, rather than taking possession or to otherwise enforce collection of collateral. The Company considers a loan forborne when such concessions or modifications are provided as a result of the borrower's present or expected financial difficulties and the Company would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, or significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment is measured using the original EIR as calculated before the modification of terms. It is the Company's policy to monitor forborne loans to help ensure that future payments continue to be likely to occur. Derecognition decisions and classification between Stage 2 and Stage 3 are determined on a case-by-case basis. If these procedures identify a loss in relation to a loan, it is disclosed and managed as an impaired Stage 3 forborne asset, until it is collected or written off.

3.11 Determination of Fair Value:

The Company measures financial instruments, such as, derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either;

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 financial instruments:

Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 financial instruments:

Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 financial instruments:

Those that include one or more unobservable input that is significant to the measurement as whole. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

3.12 Leases:

Company as a lessee:

The Company has applied Ind AS 116 using the partial retrospective approach.

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short term lease

The Company has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Company recognises lease payment associated with these leases as an expense on a straight line basis over lease term.

Company as lessor:

The Company's accounting policy under Ind AS 116 has not changed from the comparative period. As a lessor the Company classifies its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset and classified as an operating lease if it does not.

3.13 Earnings Per Share:

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

3.14 Retirement and other employee benefit:

3.14.1 Provident fund and national pension scheme:

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

3.14.2 Gratuity:

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

Re-measurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurement are not reclassified to profit or loss in subsequent periods.

3.14.3 Compensated Absences:

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

3.14.4 Deferred Bonus:

The Company has adopted a Deferred Bonus Plan under its Deferred Variable Compensation Plan. A pool of identified senior employees of the Company is entitled for benefits under this plan. Such deferred compensation will be paid in a phased manner over a future period of time. The measurement for the same has been based on actuarial assumptions and principles.

3.14.5 Equity-settled share-based payments and Stock Appreciation Rights (SARs):

Equity-settled share-based payments to employees are granted by the ultimate parent Company. These are measured by reference to the fair value of the equity instruments at the grant date. These includes Stock Appreciation Rights (SARs) where the right to receive the difference between the SAR price and the market price of equity shares of the ultimate parent Company on the date of exercise, either by way of cash or issuance of equity shares of the ultimate parent Company, is at the discretion of the ultimate parent Company. These are classified as equity settled share based transaction.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the 'ESOP reserve'. In cases where the share options granted vest in instalments over the vesting period, the Group treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

3.15 Property, plant and equipment:

Property plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognised in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognised in profit or loss as incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the fixed assets are as follows:

Nature of assets	Estimated useful lives
Furniture and fixtures	10 years
Vehicles	8 years
Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years

Leasehold improvements are amortised on a straight-line basis over the estimated useful lives of the assets or the period of lease whichever is earlier.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.16 Intangible Assets:

Intangible assets are recorded at the consideration paid for the acquisition of such assets and are carried at cost less accumulated amortization and impairment, if any. Intangibles such as software are amortised over a period of 3 years based on its estimated useful life.

3.17 Impairment of non-financial assets:

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

3.18 Provisions and other contingent liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

3.19 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less

3.20 Income tax expenses:

Income tax expense represents the sum of the tax currently payable and deferred tax.

3.20.1 Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

3.20.2 Deferred tax:

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3.20.3 Current and Deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

4. Significant accounting judgements, estimates and assumptions :

The preparation of these financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the standalone financial statements are included are given below:

4.1 Business model assessment :

The Company determines the business model at a level that reflects how the financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those instruments.

4.2 Significant increase in credit risk:

As explained in note 46.1, ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. Ind AS 109 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information. Refer to note 46.1 for more details.

4.3 Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

4.4 Fair value of financial instruments:

The Fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions based on market conditions existing at the end of each reporting period. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk, funding value adjustments, correlation and volatility.

4.5 Effective Interest Rate (EIR) Method:

The Company's EIR methodology, as explained in Note 3.1.1, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle including prepayments and penalty interest and charges.

This estimation, by nature requires an element of judgement regarding the expected behaviour and life cycle of the instrument, as well expected changes India's base rate and other fee income, expenses that are integral part of the instrument

4.6 Impairment of Financial assets:

The impairment provisions for the financial assets except assets valued at fair value through Profit & Loss account (FVTPL) are based on assumptions about estimation of the amount and timing of future cash flows, collateral values, assessment of a significant increase in credit risk, probability of default (PD) and Loss given default (LGD) rates. The Company uses judgements in making these assumptions and selecting the inputs for impairment calculations based on its past history, existing market conditions and forward looking estimates at the end of each period. These estimates are driven by number of factors, change in which can result in different level of allowance.

The Company's expected credit loss (ECL) calculations are output of complex model with number of underlying assumptions regarding choice of variable inputs and their interdependencies Elements of the ECL models that are considered accounting judgements and estimates include:

- The Company's internal credit grading model, which assigns PDs to the individual grades based on ageing.
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment.
- The segmentation of financial assets when their ECL is assessed on a collective basis.
- Development of ECL models, including the various formulas and the choice of inputs Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs.
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

4.7 Impairment of Non-Financial assets:

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exist, the Company estimates the asset's recoverable amount. An asset's recoverable amount is higher of an asset's fair value less cost of disposal and its value in use. Where the carrying amount exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

4.8 Provisions and contingent liabilities:

The Company operates in a regulatory and legal environment that, by nature, has a heightened element of litigation risk inherent to its operations. As a result, it is involved in various litigation, arbitration and regulatory investigations and proceedings in the ordinary course of its business.

When the Company can reliably measure the outflow of economic benefits in relation to a specific case and considers such outflows to be probable, the Company records a provision against the case. Where the probability of outflow is considered to be remote, or probable, but a reliable estimate cannot be made, a contingent liability is disclosed.

Given the subjectivity and uncertainty of determining the probability and amount of losses, the Company takes into account a number of factors including legal advice, the stage of the matter and historical evidence from similar incidents. Significant judgement is required to conclude on these estimates.

4.9 Provisions for Income Taxes:

Significant judgments are involved in determining the provision for income taxes including judgment on whether tax positions are probable of being sustained in tax assessments. A tax assessment can involve complex issues, which can only be resolved over extended time periods.

Estimates and judgments are continually evaluated. They are based on historical experience and other factors, including expectation of future events that may have a financial impact on the Company and that are believed to be reasonable under the circumstances.

4.10 Leases:

Significant judgements are involved in evaluating if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. The Company also uses significant judgement in assessing the applicable discount rate which is an equivalent to incremental borrowing rate estimated on best effort basis.

5. Standards issued but not yet effective:

5.1 There are no new standard or amendment issued but not effective.

6. Subsequent Events

6.1. The Covid-19 pandemic

The Covid-19 pandemic outbreak across the world including India has resulted in most countries announcing lockdowns and quarantine measures that have sharply stalled economic activity. The Company is mainly engaged in providing individual housing loans, loans against property (LAP) and project finance for real estate development. All of these segments were impacted over the past few months and consequent to COVID 19 pandemic are expected to be significantly impacted by reduced income and/or job losses of the borrowers, reduced economic activities and delay in completion and sale of real estate projects. The Indian Government too has imposed lockdowns starting from March 24, 2020. The Indian economy would be impacted by this pandemic and the resultant lockdown, due to the contraction in industrial and services output across small and large businesses. The impact of the COVID -19 pandemic on EHFL's results, including credit quality and provisions, remains uncertain and dependent on the current and further spread of COVID -19, steps taken by the government and the RBI to mitigate the economic impact and also the time it takes for economic activities to resume and reach the normal levels.

In accordance with the regulatory package announced by the Reserve Bank of India (RBI) on March 27, 2020 and April 17, 2020 the Company has granted a moratorium of 3 months and extended the same for a further period of 3 months in accordance with the announcement by the RBI on May 22, 2020 for the payment of all instalments falling due between March 1, 2020 and August 31, 2020 to all eligible borrowers that have opted to avail the same. In respect of accounts overdue but standard as at February 28, 2020 where moratorium benefit has been granted, the staging for the accounts is based on staging existing as at that date. As per the assessment done by the Company, this staging standstill has not been on its own considered to be triggering any substantial increase in credit risk. Based on the assessment of the Company, in the absence of other credit risk indicators, the granting of the moratorium does not itself result in accounts becoming past due and triggering Stage 2 and Stage 3 classification criteria.

The Company has assessed the impact of the COVID-19 pandemic on its liquidity and ability to repay its obligations as and when they are due. Management has considered various stimulus packages announced by the Government of India which will directly or indirectly benefit NBFC, Company's lenders to seek/extend moratorium and various other financial support from other banks, agencies and its parent entity in determining the Company's liquidity position over the next 12 months. Based on the foregoing and necessary stress tests considering various scenarios, management believes that the Company will be able to pay its obligations as and when these become due in the foreseeable future. The Company would continue to focus on maintaining adequate capital and ensuring liquidity during current period and for the period going forward.

In assessing the recoverability of loans, receivables, intangible assets (including goodwill), deferred tax assets and investments, the Company has considered internal and external sources of information, including credit reports, economic forecasts and industry reports up to the date of approval of these financial results. Since the situation is rapidly evolving, its effect on the operations of the Company may be different from that estimated as at the date of approval of these financial results. The Company will continue to closely monitor material changes in markets and future economic conditions.

Note:

During the year ended March 31, 2020 and March 31, 2019, the Company has sold financial assets aggregating to Rs. 1,325.00 million (net of provisions & losses) and Rs. Nil (net of provisions & losses) respectively to various asset reconstructions company trusts ('ARC Trusts') and has acquired security receipts (SR) from ARC Trusts amounting to Rs. 1,044.73 million. The Board approved committee approved such sale of financial assets to ARC Trusts. Ind AS 109 - Financial Instruments, prescribed under section 133 of the Companies Act, 2013, requires substantial risks and rewards to be transferred for the purpose of de-recognition of such financial assets from the Company's financial statements. Edelweiss Financial Services Limited (EFSL), ultimate holding company, and Edelweiss Rural and Corporate Services Limited (ERC SL), holding company, on March 31, 2020, have guaranteed significant risks and assumed significant rewards in respect of an aggregate value of financial assets of Rs 924.70 million sold to ARC Trusts. As a result, these financial assets are de-recognized in Company's financial statements. Further, as the risks and rewards continue in ERC SL and EFSL, these continue to be accounted as financial assets in the consolidated financial statements of the Group and the respective consequent expected credit loss will be recorded in the consolidated financial statements of EFSL or ERC SL.

Notes:

*Charged against secured redeemable non-convertible debentures

**Effective April 1, 2019, the Company adopted Ind AS 116 "Leases", applied to all lease contracts existing on April 1, 2019, using the modified retrospective method and has taken the cumulative adjustment to retained earnings, on the date of initial application. Accordingly, comparatives for the year ended March 31, 2019, have not been retrospectively adjusted. On transition, the adoption of the new standard resulted in recognition of Right-of-Use asset (ROU) of Rs.179.04 million and a lease liability of Rs.198.53 million with a corresponding deferred tax asset of Rs. 6.81 million. The cumulative effect of applying the standard thus resulted in Rs.12.68 million being debited to retained earnings as at April 1, 2019, net of taxes. In the profit or loss for the current year, the nature of expenses in respect of operating leases has changed from lease rent in previous periods to depreciation cost for the right-to-use asset and finance cost for interest accrued on lease liability. Thus, other expenses have reduced by Rs.52.11 million whereas depreciation and amortisation expense has increased by Rs.41.49 million and finance cost has increased by Rs.18.78 million for the year ended March 31, 2020 consequent to adoption of Ind AS 116. This has had an impact on deferred tax credit by Rs. 0.10 million for the year ended March 31, 2020. Also, total assets have increased by Rs.154.96 million and total liabilities have increased by Rs.182.62 million as at March 31, 2020.

27.1 Nature and purpose of Reserves

(a) Securities Premium

Securities premium is used to record the premium on issue of shares. Balance in Securities premium can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

(b) Reserve under section 29C of the National Housing Bank Act, 1987

Reserve created under section 29C of National Housing Bank Act, 1987 a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared.

(c) Debenture Redemption Reserve

The Companies Act 2013 requires companies that issue debentures to create a debenture redemption reserve from annual profits until such debentures are redeemed. Company being NBFC has to maintain Debenture Redemption reserve upto 25% of the value of debentures issued through public issue. The amounts credited to the debenture redemption reserve may not be utilised except to redeem debentures. On redemption of debentures, the amount may be transferred from debenture redemption reserve to retained earnings. However, as per the amendment in the Companies Act 2013, debenture redemption reserve is not required for debentures issued by Non-Banking Finance Companies regulated by Reserve Bank of India for both public as well as privately placed debentures.

(d) Deemed capital contribution - Equity

This reserve relates to Share options granted to eligible employees of the Company by the parent company under its employee share option plan.

(e) Retained Earnings

Retained earnings comprises of the Company's undistributed earnings after taxes.

Provision for expected credit loss (at amortised cost) (including on loan commitments)	46.84	74.80
	<u>407.06</u>	<u>121.33</u>

Note:

During the year ended March 31, 2020, the Company completed its re-assessment of probability of default, loss given default in respect of exposures to certain sectors that were experiencing operational challenges. Credit and market risks for certain counter parties increased significantly relative to such risks at initial recognition, resulting in recognition of higher amount of expected credit losses and gain/loss on fair value changes for the year ended March 31, 2020. Management judgement for expected credit losses and gain/loss on fair values changes has been accentuated on account of factors caused by the COVID-19 pandemic. Accordingly, the Company has recorded for the year ended March 31, 2020 an amount of Rs. 407.06 million towards expected credit losses, write-offs, loss on sale to ARC Trusts and Funds and net loss on fair value changes.

	40,454.55	4,157.31	-	114.07	44,725.93

*Other column includes the effect of accrued but not paid interest on borrowing, amortisation of processing fees etc.

38. Earnings per Share

Basic earnings per share is calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the year.

	For the year ended March 31, 2020	For the year ended March 31, 2019
Net Profit attributable to Equity holders of the Company - A	15.55	624.59
Weighted average Number of Shares		
- Number of equity shares outstanding at the beginning of the year	69.35	54.35
- Number of equity shares issued during the year	-	15.00
Total number of equity shares outstanding at the end of the year	69.35	69.35
Weighted average number of equity shares outstanding during the year (based on the date of issue of shares) - B	69.35	60.77
Nominal value of equity shares	10.00	10.00
Basic and diluted earnings per share (in rupees) (A/B)	0.22	10.28

The basic and diluted earnings per share are the same as there are no dilutive/ potential equity shares issued or outstanding as at the year end.

39. Contingent Liability and Commitment:

(a) Contingent Liability

	As at March 31, 2020	As at March 31, 2019
Taxation matters	Nil	Nil
Litigation pending against the company	Nil	Nil

The Company's pending litigations mainly comprise of claims against the Company pertaining to proceedings pending with Income Tax and other authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in the financial statements. The Company believes based on information available that the outcome of these proceedings will not have a materially adverse effect on the Company's financial position and results of operations.

(b) Commitment:

	As at March 31, 2020	As at March 31, 2019
Estimated amount of contracts remaining to be executed on capital account (net of advances)	7.63	3.94
Loan sanctioned pending disbursements	484.19	1,517.21

40 Retirement and other employee benefits

(a) Defined contribution plan - Provident funds

In accordance with Employees' Provident Fund and Miscellaneous Provisions Act, 1952, employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan, in which, both the employee and the Company contribute monthly at a determined rate. These contributions are made to a recognized provident fund administered by Regional Provident Fund Commissioner. The employees contribute 12% of their basic salary and the Company contributes an equal amount.

The Company recognised Rs.32.52 millions (March 31, 2019 : Rs 30.74 Millions) for provident fund and other contributions in the Statement of profit and loss.

(b) Defined benefit plan - Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, a defined benefit plan covering all employees. The plan provides a lump sum payment to vested employees at retirement or termination of employment in accordance with the rules laid down in the Payment of Gratuity Act, 1972. The gratuity benefit is partially provided through funded plan and annual expense is charged to the statement of profit and loss on the basis of actuarial valuation.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation (DBO) for gratuity were carried out as at March 31, 2020. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

	As at March 31, 2020	As at March 31, 2019
Present value of defined benefit obligations (A)	20.34	14.97
Fair Value of plan assets (B)	-	-
Present value of defined benefit obligations (A-B)	20.34	14.97
Net deficit / (assets) are analysed as:		
Liabilities	20.34	14.97
Assets	-	-

Movement in net defined benefit (asset) liability:

The following table shows a reconciliation from the opening balances to the closing balances for net defined benefit (asset) liability and its components:

	Defined benefit obligation		Fair value of plan assets		Net defined benefit (asset) liability	
	March 31, 2020	March 31, 2019	March 31, 2020	March 31, 2019	March 31, 2020	March 31, 2019
(i) Present value of defined benefit obligations (opening)	14.97	11.41	-	-	14.97	11.41
Current service cost	4.22	3.14	-	-	4.22	3.14
Past service cost	-	-	-	-	-	-
Interest cost	1.09	0.80	-	-	1.09	0.80
	20.28	15.35	-	-	20.28	15.35

Net defined benefit liability					20.34	14.97

40 Retirement and other employee benefits

Components of defined benefit plan cost:

	For the year ended March 31, 2020	For the year ended March 31, 2019
(i) Recognised in Statement of profit or loss		
Current service cost	4.22	3.14
Interest cost	1.09	0.80
Expected return on plan assets	-	-
Past service cost	-	-
	<u>5.31</u>	<u>3.94</u>
(ii) Recognised in other comprehensive income		
Remeasurement of net defined benefit liability/(asset)	1.44	2.13
Return on plan assets excluding net interest	-	-
	<u>1.44</u>	<u>2.13</u>
Total (i) + (ii)	6.75	6.07

Actuarial assumptions:

The following were the principal actuarial assumptions at the reporting date:

	As at March 31, 2020	As at March 31, 2019
Discount Rate	5.50%	6.70%
Salary Growth Rate	7.00%	7.00%
Withdrawal/Attrition Rate (based on categories)	13% to 60%	13% to 60%
Expected return on plan Assets (p.a)	6.70%	7.00%
Mortality Rate	IALM 2012-14(Ultimate)	IALM 2012-14(Ultimate)
Expected weighted average remainin working lives of employees	3 Years	3 Years

Sensitivity analysis:

	As at March 31, 2020		As at March 31, 2019	
	Increase	Decrease	Increase	Decrease
Salary Growth Rate (+/- 1%)	0.78	(0.74)	0.63	(0.59)
Discount Rate (+/- 1%)	(0.74)	0.80	(0.59)	0.64
Withdrawal Rate (+/- 1%)	(0.05)	0.05	(0.14)	0.14
Mortality (increase in expected lifetime by 1 year)	Negligible change		Negligible change	
Mortality (increase in expected lifetime by 3 year)	Negligible change		Negligible change	

The sensitivity is performed on the DBO at the respective valuation date by modifying one parameter whilst retaining other parameters constant. There are no changes from the previous period to the methods and assumptions underlying the sensitivity analysis.

Asset liability comparisons:

	As at March 31, 2020	As at March 31, 2019
Present value of DBO	20.34	14.97
Fair Value of Plan assets	-	-
Net (Assets)/Liability	20.34	14.97

(c) Compensated absences :

The Company provides for accumulated compensated absences as at the balance sheet date using projected unit credit method based on actuarial valuation. The leave encashment on separation is paid on basic salary.

Notes:

- As part of fund based activities, intergroup company loans and advances activities undertaken are generally in the nature of revolving demand loans. Such loans and advances, voluminous in nature, are carried on at arm's length and in the ordinary course of business. Pursuant to Ind AS 24 – Related Party Disclosures, maximum amount of loans given and repaid are disclosed above as in the view of the management it provides meaningful reflection of such related party transactions on the financial statements. Interest income and expenses on such loans and advances are disclosed on the basis of full amounts of such loans and advances given and repaid.
- Information relating to remuneration paid to key managerial person mentioned above excludes provision made for gratuity, leave encashment, bonus and deferred bonus which are provided for group of employees on an overall basis. These are included on cash basis. The variable compensation included herein is on cash basis.
- The above list contain name of only those related parties with whom the Company has undertaken transactions for the year ended March 31, 2020 and March 31, 2019.

44 Leases

44.1. Transition to Ind AS 116 on Lease

Effective April 1, 2019, the Company has adopted Ind AS 116 "Leases" and applied the standard to all long-term lease contracts existing on April 1, 2019 using modified retrospective method. The Company recorded the lease liability and the right of use assets at the present value of the lease payments discounted at the incremental borrowing rate at the date of initial application. Comparatives as at and for the year ended March 31, 2019 have not been retrospectively adjusted and therefore will continue to be reported as per accounting policies included as part of our financial statement for the year ended March 31, 2019.

Measurement of lease liability	As at April 1, 2019
(a) Opening lease commitment disclosed as at March 31, 2019	18.25
(b) Discounted using the lessee's incremental borrowing rate of at the date of initial application	(1.59)
(c) Short Term Lease	-
(d) Low value Lease	-
(e) Change in lease term under Ind AS 116	181.87
(f) Other adjustments (please specify)	-
(g) Lease liability recognised as at 1 April 2019	198.53

The change in accounting policy affected the following items in balance sheet as on April 1, 2019

(a) Lease liability	198.53
(b) Right-of-use Asset (ROU)	179.04
(c) Deferred tax	6.81
(d) Net impact on retained earnings as on April 1, 2019 (reduction)	12.68

44.2. Set out below are the carrying amounts of right-of-use assets recognised and the movements

	For the year ended March 31, 2020
Balance as at April 1, 2019	179.04
Addition	17.41
Amortisation for the year	(41.49)
Balance as at March 31, 2020	<u>154.96</u>

44.3. Set out below are the carrying amounts of lease liabilities and the movements

Balance as at April 1, 2019	198.53
Additions/ reversal (net)	17.41
Interest on lease liabilities	18.78
Repayment of lease obligation	(52.11)
Balance as at March 31, 2020	<u>182.61</u>

44.4. Amounts recognised in profit or loss:

Depreciation expense of right-of-use assets	41.49
Interest expense on lease liabilities	18.78
Total	<u>60.27</u>

44.5. Cash outflow for leases:

Cash outflow of long term leases	52.11
Cash outflow of short term leases	1.30
Total	<u>53.41</u>

44.6. Details regarding the contractual maturities of lease liabilities, on an undiscounted basis:

	As at March 31, 2020
Less than 1 year	50.70
1-3 years	79.47
3-5 years	40.23
More than 5 years	29.49
Total	<u>199.89</u>

45 Cost sharing

Edelweiss Financial Services Limited, being the ultimate holding Company along with fellow subsidiaries incurs expenditure like, Group mediclaim, insurance, rent, electricity charges etc. which is for the common benefit of itself and its certain subsidiaries, fellow subsidiaries including the Company. This cost so expended is reimbursed by the Company on the basis of number of employees, time spent by employees of other Companies, actual identifications etc. On the same lines, employees' costs expended (if any) by the Company for the benefit of fellow subsidiaries is recovered by the Company. Accordingly, and as identified by the management, the expenditure heads in note 34 and 35 include reimbursements paid and are net of reimbursements received based on the management's best estimates are Rs. 93.86 millions (previous year Rs. 72.62 millions)

46. Risk Management

(a) Introduction and risk profile

Risk is an inherent part of Company's business activities. When the Company extends a corporate or retail loan, buy or sell securities in market, or offers other products or services, the Company takes on some degree of risk. The Company's overall objective is to manage its businesses, and the associated risks, in a manner that balances serving the interests of its customers and investors and protects the safety and soundness of the Company.

The Company believes that effective risk management requires:

- 1) Acceptance of responsibility, including identification and escalation of risk issues, by all individuals within the Company;
- 2) Ownership of risk identification, assessment, data and management within each of the lines of business and Corporate; and
- 3) Firmwide structures for risk governance

The Company strives for continual improvement through efforts to enhance controls, ongoing employee training and development and other measures.

(b) Risk Management Structure

The Company have a well-defined risk management policy framework for risk identification, assessment and control to effectively manage risks associated with the various business activities. The risk function is monitored primarily by the business risk group. The Company has also established a Risk Committee that is responsible for managing the risk arising out of various business activities.

Company's risk management policy ensures that the margin requirements are conservative to be able to withstand market volatility and scenarios of sharply declining prices. As a result, Company follows conservative lending norms. The Company centralises the risk monitoring systems to monitor its client's credit exposure which is in addition to the monitoring undertaken by the respective businesses.

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(c) Risk mitigation and risk culture

The Company's business processes ensure complete independence of functions and a segregation of responsibilities. Credit appraisal & credit control processes, centralised operations unit, independent audit unit for checking compliance with the prescribed policies and approving loans at transaction level as well as our risk management processes and policies allow layers of multiple checks and verifications. Company's key business processes are regularly monitored by the business and/or operation heads. Company's loan approval and administration procedures, collection and enforcement procedures are designed to minimise delinquencies and maximise recoveries.

At all levels of operations, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information.

It is the Company's policy that a monthly briefing is given to the Board of Directors and all other relevant stakeholder on the utilisation of market limits, proprietary investments and liquidity, plus any other risk developments.

It is the Company's policy to ensure that a robust risk awareness is embedded in its organisational risk culture. Employees are expected to take ownership and be accountable for the risks the Company is exposed to, that they decide to take on. The Company's continuous training and development emphasises that employees are made aware of the Company's risk appetite and they are supported in their roles and responsibilities to monitor and keep their exposure to risk within its risk appetite limits. Compliance breaches and internal audit findings are important elements of employees' annual ratings and remuneration reviews.

46. Risk Management

(d) Types of Risks

The Company's risks are generally categorized in the following risk types:

Risk	Exposure Arising from	Measurement	Management of risk
Credit Risk	Cash equivalents, trade receivables, financial assets measured at amortised cost.	Aging Analysis, Credit Ratings	Credit limits and regular monitoring.
Liquidity Risk	Borrowings and other liabilities	Rolling cash flow forecasts	Availability of surplus cash, committed credit lines and borrowing facilities
Market Risk	Investments in Government Securiteis, Treasury Bills, Equity Shares, Futures & Options	Cash flow forecasting Sensitivity analysis	Regular monitoring to keep the exposure at an acceptable level, with option of taking Interest Rate Swaps/Futures if deemed necessary.

46.1. Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's loans and trade receivables. The Company has a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In case the loans are to be restructured, similar credit assessment process is followed by the Company.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties/Groups (Single Borrowing Limit/Group Borrowing Limit) and for industry concentrations, and by monitoring exposures in relation to such limits.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company and market intelligence. Outstanding customer receivables are regularly monitored. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

(a) Impairment Assessment:

The Company applies the expected credit loss model for recognising impairment loss. The expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The expected credit loss is a product of exposure at default, probability of default and loss given default. The Company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS. Accordingly, the loans are classified into various stages as follows:

<u>Internal rating grade</u>	<u>Internal grading description</u>	<u>Stages</u>
Performing		
High grade	0 dpd and 1 to 30 dpd	Stage I
Standard grade	31 to 90 dpd	Stage II
Non-performing		
Individually impaired	90+ dpd	Stage III

(b) Expected Credit Loss

Credit loss is the difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Expected Credit Loss (ECL) computation is not driven by any single methodology, however methodology and approach used must reflect the following:

An unbiased and probability weighted amount that evaluates a range of possible outcomes

Reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions;

Time value of money

While the time value of money element is currently being factored into ECL measurement while discounting cash flows by the Effective Interest Rate (EIR), the objective of developing a macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the first two requirements. This has been achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

(c) Significant increase in credit risk (SICR)

Company considers a financial instrument defaulted, classified as Stage 3 (credit-impaired) for ECL calculations, in all cases when the borrower becomes 90 days past due. Classification of assets from stage 1 to stage 2 has been carried out based on SICR criterion. Accounts which are more than 30 days past due have been identified as accounts where significant increase in credit risk has been observed. These accounts have been classified as Stage 2 assets. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

46.1. Credit Risk

(d) **Probability of Default**

Probability of default (PD) is an estimate of the likelihood of default over a given time horizon. PD estimation process is done based on historical internal data available with the Company. While arriving at the PD, the Company also ensures that the factors that affects the macro economic trends are considered to a reasonable extent, wherever necessary. Company calculates the 12 month PD by taking into account the past historical trends of the Loans/portfolio and its credit performance. In case of assets where there is a significant increase in credit risk / credit impaired assets, lifetime PD has been applied.

(e) **Loss Given Default (LGD)**

The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money. The Loss Given Default (LGD) has been computed with workout methodology. Along with actual recoveries, value of the underlying collateral has been factored in to estimate future recoveries in LGD computation. Workout LGD computation involves the actual recoveries as well as future recoveries (as a part of the workout process) on a particular facility, as a percentage of balance outstanding at the time of Default/Restructuring. The assessment of workout LGD was then performed. Principal outstanding each loan was assessed, which went into the denominator of the LGD calculation. LGD computation has been done for each segment and sub-segment separately.

(f) **Exposure at Default (EAD)**

The amount which the borrower will owe to the portfolio at the time of default is defined as Exposure at Default (EAD). While the drawn credit line reflects the explicit exposure for the Company, there might be variable exposure that may increase the EAD. These exposures are of the nature where the Company provides future commitments, in addition to the current credit. Therefore, the exposure will contain both on and off balance sheet values. The value of exposure is given by the following formula:

$$\text{EAD} = \text{Drawn Credit Line} + \text{Credit Conversion Factor} * \text{Undrawn Credit Line}$$

Where,

Drawn Credit Line = Current outstanding amount

Credit Conversion Factor (CCF) = Expected future drawdown as a proportion of undrawn amount

Undrawn Credit Line = Difference between the total amount which the Company has committed and the drawn credit line While the drawn exposure and limits for the customer are available, the modelling of CCF is required for computing the EAD

(g) **Forward looking adjustments**

“A measure of ECL is an unbiased probability-weighted amount that is determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.”

To fulfil the above requirement Company has incorporated forward looking information into its measurement of ECL. The objective of developing a macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the requirements of unbiased, probability weighted outcomes while taking into account current conditions as well as future economic conditions. This will be achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

Exogenous macroeconomic parameters were used as independent (X) variables to predict the dependent (Y) variable. The Company formulates base case view of the future direction of relevant economic variable as well as a representative range of other possible forecast scenario. This involves developing two or more additional economic scenarios and considering the relative probabilities of each outcome.

46.1. Credit Risk

(h) Data sourcing

The Company is expected to obtain reasonable and supportable information that is available without undue cost or effort. Keeping in mind the above requirement macroeconomic information was aggregated from Economic Intelligence Unit (EIU), Bloomberg, World Bank, RBI database. The EIU data has a database of around 150 macroeconomic variables as well as their forecasted values. Beyond 2022 macro-economic variables are forecasted by mean reverting the values to their long term average. External information includes economic data and forecasts published by governmental bodies and monetary authorities in the country, supranational organisations such as the OECD and the IMF, and selected private sector and academic forecasters.

(i) Probability weighted scenario creations:

To incorporate macroeconomic impact into probability-weighted, each scenario has an associated probability. In order to ensure consistency across macroeconomic models, these probabilities were calculated at an overall level for both Retail and Non-Retail portfolios, considering the impact of a scenario across different portfolios may differ based on endogenous factors, the probability of a scenario unfolding is purely exogenous, and hence should not vary.

The Company has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and using an analysis of historical data, has estimated relationship between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analysing historical data over the past 5 years.

Edelweiss Housing Finance Limited
Notes to the financial statements (Continued)

46.1.3. Transfer of financial assets

(a) Transferred financial assets that are not derecognised in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated liabilities.

	As at March 31, 2020	As at March 31, 2019
Securitisations		
Carrying amount of transferred assets <i>(held as Collateral)</i>	3,591.91	-
Carrying amount of associated liabilities	3,564.76	-
Fair value of assets	3,591.91	-
Fair value of associated liabilities	3,564.76	-
Net position at FV	27.15	-

46.2. Liquidity Risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstances.

The company has financing arrangement from banks/ financial institutions in form of committed credit lines.

46.2.1. Analysis of non-derivative financial assets and liabilities by remaining contractual maturities

As at March 31, 2020	On demand	1 to 14 days	15 days to 1 month	1 month to 2 months	2 months to 3 months	3 months to 6 months	6 months to 1 year	1 year to 3 years	3 years to 5 years	Over 5 years	Total
A. Financial Assets											
Cash and cash equivalent and other bank balances	745.40	4,183.76	-	-	47.23	72.41	581.61	20.61	17.46	-	5,668.48

Note - The company has financing arrangement from banks/ financial institutions in form of committed credit lines. Undrawn committed credit lines as at March 31, 2019 is Rs. 2927.60 million.

46.2.2. The table below shows the expected maturity of the Company's loan commitments

Undrawn loan commitments	-	-	-	-	-	-	1,517.21	-	-	-	1,517.21
Total	-	-	-	-	-	-	1,517.21	-	-	-	1,517.21

46.2. Liquidity Risk

46.2.3. Financial assets available to support future funding

Following table sets out the availability of Company's financial assets to support funding

As at March 31, 2020	Encumbered Pledge as collateral	Contractually/ legally restricted assets ¹	Unencumbered Available as collateral	others ²	Total carrying amount
Cash and cash equivalent including bank balance	5,628.39	40.09	0.00	-	5,668.48
Trade receivables	-	-	58.46	-	58.46
Loans	37,714.82	4,513.33	972.47	-	43,200.62
Investments	-	1,044.73	-	-	1,044.73
Property, Plant and Equipment	1.21	-	-	-	1.21
Other financial assets	-	-	-	-	-
Total assets	43,344.42	5,598.15	1,030.93	-	49,973.50

As at March 31, 2019	Encumbered Pledge as collateral	Contractually/ legally restricted assets ¹	Unencumbered Available as collateral	others ²	Total carrying amount
Cash and cash equivalent including bank balance	38.88	40.04	594.89	-	673.82
Trade receivables	-	-	8.49	-	8.49
Loans	50,765.70	-	2,833.31	-	53,599.01
Investments	-	-	-	-	-
Property, Plant and Equipment	1.21	-	-	-	1.21
Other financial assets	-	-	-	-	-
Total assets	50,805.79	40.04	3,436.69	-	54,282.53

1 Represents assets which are not pledged and the Company believes it is restricted from using to secure funding for legal or other reason

2 Represents assets which are not restricted for use as collateral, but that the Company would not consider readily available to secure funding in the normal course of business

46.3. Market Risk

Market risk is the risk associated with the effect of changes in market factors such as interest rates, equity prices, credit spreads or implied volatilities, on the value of assets and liabilities held resulting in loss of future earnings. The objective of the Company's market risk management is to manage and control market risk exposures within acceptable parameters. The Company separates its exposure to market risks between trading and non-trading portfolios.

Exposure to market risk – Non trading portfolios

Interest rate risk - The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands.

ALCO is the monitoring body for compliance with these limits. ALCO reviews the interest rate gap statement and the mix of floating and fixed rate assets and liabilities. Balance Sheet Management Unit is in-charge for day to day management of interest rate risk.

46.3.1 Market risk exposure

The fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates. The Company classifies its exposures to market risk into non-trading portfolios.

Particulars	As at March 31, 2020			As at March 31, 2019			Primary risk sensitivity
	Carrying amount	Traded risk	Non-traded risk	Carrying amount	Traded risk	Non-traded risk	
Financial Assets							
Cash and cash equivalent and other bank balances	5,668.48	-	5,668.48	673.82	-	673.82	Interest rate
Loans	43,200.62	-	43,200.62	53,599.01	-	53,599.01	Interest rate
Investments	1,044.73	-	1,044.73	-	-	-	Interest rate
Trade receivables	58.46	-	58.46	8.49	-	8.49	
Other financial assets	244.92	-	244.92	62.86	-	62.86	
Total	50,217.21	-	50,217.21	54,344.18	-	54,344.18	
Financial Liabilities							
Debt securities	10,091.57	-	10,091.57	12,582.50		12,582.50	Interest rate
Borrowings (other than Debt Securities)	27,992.02	-	27,992.02	31,634.95		31,634.95	Interest rate
Subordinated liabilities	508.61	-	508.61	508.48		508.48	Interest rate
Trade payables	85.37	-	85.37	224.26		224.26	
Other liabilities	3,948.80	-	3,948.80	1,419.30		1,419.30	
Total	42,626.37	-	42,626.37	46,369.49	-	46,369.49	

Edelweiss Housing Finance Limited
Notes to the financial statements (Continued)
(Currency : Indian rupees in millions)

46.3. Market Risk

46.3.2 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows of financial instruments. The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held as at year end.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

INR Loans

For the year ended	Increase/ (Decrease) in basis points	Increase in profit after tax	Decrease in profit after tax	Increase in Equity (Decrease) in Equity	
<u>INR Loans</u>					
March 31, 2020	25/(25)	45.46	(45.46)	45.46	(45.46)
March 31, 2019	25/(25)	52.52	(52.52)	52.52	(52.52)

INR Borrowings

March 31, 2020	25/(25)	(50.97)	50.97	(50.97)	50.97
March 31, 2019	25/(25)	(49.76)	49.76	(49.76)	49.76

47.1. Fair Value measurement:

A. Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques:

Level 1 – valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that company can access at the measurement date.

Level 2 – valuation technique using observable inputs: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 – valuation technique with significant unobservable inputs: Those that include one or more unobservable input that is significant to the measurement as whole.

Refer note 3.11 for more details on fair value hierarchy

B. Valuation governance framework

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions.

Where fair values are determined by reference to externally quoted prices or observable pricing inputs to models, independent price determination or validation is used. For inactive markets, Company sources alternative market information, with greater weight given to information that is considered to be more relevant and reliable.

The responsibility of ongoing measurement resides with the business and product line divisions. However finance department is also responsible for establishing procedures governing valuation and ensuring fair values are in compliance with accounting standards.

C. The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

As at March 31, 2020	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Other financial assets				
Security receipts	-	-	1,044.73	1,044.73
Total financial instruments measured at fair value - C	-	-	1,044.73	1,044.73
As at March 31, 2019	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Other financial assets				
Security receipts	-	-	-	-
Total financial instruments measured at fair value - C	-	-	-	-

D. Valuation techniques:

Security receipts

The market for these securities is not active. Therefore, the Company uses valuation techniques to measure their fair values. Since the security receipts are less liquid instruments therefore they are valued by discounted cash flow models. Expected cash flow levels are estimated by using quantitative and qualitative measures regarding the characteristics of the underlying assets including prepayment rates, default rates and other economic drivers. Securities receipts with significant unobservable valuation inputs are classified as Level 3

47.1. Fair Value measurement:

E. There have been no transfers between levels during the year ended March 31, 2020 and March 31, 2019.

F. The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy.

Financial year ended March 2020	<u>Security receipts</u>	<u>Total</u>
Investments - at April 1, 2019	-	-
Purchase	1,044.88	1,044.88
Sale/Redemption proceeds	(0.14)	(0.14)
Profit for the year recognised in profit or loss	-	-
Investments - at March 31, 2020	<u>1,044.73</u>	<u>1,044.73</u>
Unrealised gain/(Loss) related to balances held at the end of the year	-	-
Financial year ended March 2019	<u>Security receipts</u>	<u>Total</u>
Investments - at April 1, 2018	-	-
Purchase	-	-
Sale/Redemption proceeds	-	-
Profit for the year recognised in profit or loss	-	-
Investments - at March 31, 2019	<u>-</u>	<u>-</u>
Unrealised gain/(Loss) related to balances held at the end of the year	-	-

47.1. Fair Value measurement:

G. Impact on fair value of level 3 financial instrument of changes to key unobservable inputs

The below table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 Instruments i.e. Securities receipts. The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation. Relationships between unobservable inputs have not been incorporated in this summary.

Type of Financial Instruments	Fair value of asset as on 31 March 2020	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Security receipts	1,044.73	Discounted Cash flow. The present value of expected future economic benefits to be derived from the ownership of the underlying investments of the Trust.	Expected future cash flows	1,317.72	5% increase in Expected future cash flow	56.47	5% Decrease in Expected future Cash flow	(56.47)
			Risk-adjusted discount rate	12.00%	0.5% increase in Risk-adjusted discount rate	(4.64)	0.5% Decrease in Risk-adjusted discount rate	4.69

Type of Financial Instruments	Fair value of asset as on 31 March 2019	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Security receipts	-	Discounted Cash flow. The present value of expected future economic benefits to be derived from the ownership of the underlying investments of the Trust.	Expected future cash flows	-	5% increase in Expected future cash flow	-	5% Decrease in Expected future Cash flow	-
			Risk-adjusted discount rate	-	0.5% increase in Risk-adjusted discount rate	-	0.5% Decrease in Risk-adjusted discount rate	-

47.2. Financial instruments not measured at fair value

The following table sets out the fair values of financial instruments not measured at fair value and analysing them by the level in the fair value hierarchy into which each fair value measurement is categorised.

As on March 31, 2020	Total Carrying Amount	Total fair value	Level 1	Level 2	Level 3
Financial assets:					
Loans	43,200.62	44,884.56	-	-	44,884.56
Total	43,200.62	44,884.56	-	-	44,884.56
Financial liabilities

Loan commitments	484.19	242.10	-	-	242.10
Total	484.19	242.10	-	-	242.10
As on March 31, 2019					
Financial assets:					
Loans	53,599.01	54,647.65	-	-	54,647.65
Total	53,599.01	54,647.65	-	-	54,647.65
Financial liabilities					
Debt securities	12,582.50	12,700.30	-	12,700.30	-
Borrowing (other than debt securities)	3,106.17	3,122.47	-	3,122.47	-
Subordinated liabilities	508.48	556.55	-	556.55	-
Total	16,197.15	16,379.32	-	16,379.32	-
Off-balance sheet items					
Loan commitments	1,517.21	758.61	-	-	758.61
Total	1,517.21	758.61	-	-	758.61

Valuation Methodologies of Financial Instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables and, as such, may differ from the techniques and assumptions explained in notes.

Short Term Financial Assets and Liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts are a reasonable approximation of their fair value. Such instruments include: Trade receivables, balances other than cash and cash equivalents, trade payables and contract liability without a specific maturity. Such amounts have been classified as Level 2 on the basis that no adjustments have been made to the balances in the balance sheet.

Financial assets at amortised cost

The fair values of financial assets measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk. In case of floating interest rate linked loans, since such loans are subject to repricing periodically (less than twelve months), with the interest rate reflecting current market price. Hence carrying value of such loans is deemed to be equivalent of fair value.

Issued Debt

The fair value of issued debt is estimated by a discounted cash flow model incorporating the Company's own credit risk.

Financial liabilities at amortised cost

The fair values of financial liabilities measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields. In case of floating interest rate linked borrowings, since such borrowings are subject to repricing periodically (less than twelve months), with the interest rate reflecting current market price. Hence carrying value of such borrowings is deemed to be equivalent of fair value.

48. Trade receivables

Provision matrix for Trade receivables

Particulars	Trade receivables days past due	1-90days	91-180 days	181-360 days	more than 360 days	Total

52. Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements from its regulators and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

(a) The Pillars of its policy are as follows:

- a) Maintain diversity of sources of financing and spreading the maturity across tenure buckets in order to minimize liquidity risk.
- b) Maintain investment grade ratings for all its liabilities issuances domestically and internationally by ensuring that the financial strength of their balance sheets are preserved.
- c) Manage financial market risks arising from Interest rate, equity prices and minimise the impact of market volatility on earnings.
- d) Leverage optimally in order to maximise shareholder returns while maintaining strength and flexibility of balance sheet.

This framework is adjusted based on underlying macro-economic factors affecting business environment, financial market conditions and interest rates environment

(b) Regulatory Capital

The below regulatory capital is computed in accordance with Master Circular - The Housing Finance Companies (NHB) Directions, 2010, NHB(ND)/DRS/REG/MC-01/2019 dated July 01, 2019 issued by National Housing Bank on Ind AS financial statements.

Particulars	As at March 31, 2020	As at March 31, 2019
Capital Funds		
Common Equity Tier1 (CET1) capital	7,499.78	7,676.43
Other Tier 2 capital instruments (CET2)	144.08	222.05
Total capital	7,643.86	7,898.48
Risk weighted assets	26,758.65	36,907.17
CET1 Capital ratio	28.03%	20.80%
CET2 Capital ratio	0.54%	0.60%
Total Capital ratio	28.57%	21.40%

53. Disclosures required by the National Housing Bank (NHB)

The following minimum disclosures have been given in terms of Notification no. NHB(ND)/DRS/REG/MC-07/2019 dated 01 July, 2019 read with NHB (ND)/DRS/Policy Circular No.89/2017-18 - Implementation of Indian Accounting Standards (Ind AS) dated June 14, 2018 issued by NHB. Accordingly, these disclosures have been prepared and disclosed as per the extant Indian GAAP, which have been presented solely based on the information compiled by the Management.

(i) Statutory reserve

As per Section 29C of the The National Housing Bank Act, 1987 (the "NHB Act"), the company is required to transfer at least 20% of its net profits every year to a reserve before any dividend is declared. For this purpose any Special Reserve created by the company under Section 36(1)(viii) of the Income- tax Act, is considered to be an eligible transfer. The company has transferred an amount of Rs. 2.49 million (Previous Year Rs. 74.33 million) to Special Reserve No. II in terms of Section 36(1)(viii) of the Income-tax Act, 1961 and an amount of Rs. 0.63 million (Previous Year Rs. 50.59 million) to "Statutory Reserve (As per Section 29C of The NHB Act)".

Reserve Fund under section 29C of National Housing Bank Act, 1987

Particulars	As at March 31, 2020	As at March 31, 2019
Balance at the beginning of the year	Amount	Amount
a) Statutory Reserve u/s 29C of the National Housing Bank Act, 1987	150.57	99.98
b) Amount of special reserve u/s 36(1)(viii) of Income Tax Act, 1961 taken into account for the purposes of Statutory Reserve under section 29C of the NHB Act, 1987	386.65	312.32
