### Independent Auditors' Report

# To the Members of Edelweiss Alternative Asset Advisors Limited Report on the Audit of the Ind AS Financial Statements

# Opinion

We have audited the accompanying Ind AS financial statements of Edelweiss Alternative Asset Advisors Limited ("the Company"), which comprise the Balance sheet as at March 31, 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Ind AS financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

# **Basis for Opinion**

We conducted our audit of the Ind AS financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Ind AS Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India (the 'ICAI') together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Ind AS financial statements.

# Other Information

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Director's Report, but does not include the Ind AS financial statements and our auditor's report thereon.

Our opinion on the Ind AS financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Ind AS financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### Management's Responsibilities for the Ind AS Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these Ind AS financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Ind AS financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Ind AS financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

### Auditor's Responsibilities for the Audit of the Ind AS Financial Statements

Our objectives are to obtain reasonable assurance about whether the Ind AS financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Ind AS financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the Ind AS financial statements, whether due to fraud
  or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is
  sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement
  resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery,
  intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and
  related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based othe audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the Ind AS financial statements, including the
disclosures, and whether the Ind AS financial statements represent the underlying transactions and events in a
manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Ind AS financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

# Report on Other Legal and Regulatory Requirements

- As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure A" a statement on the matters specified in paragraphs 3 and 4 of the Order.
- 2. As required by Section 143(3) of the Act, we report that:
  - (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
  - (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books;
  - (c) The Balance Sheet, the Statement of Profit and Loss including the Statement of Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the books of account;
  - (d) In our opinion, the aforesaid Ind AS financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended;
  - (e) On the basis of the written representations received from the directors as on March 31, 2022 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2022 from being appointed as a director in terms of Section 164 (2) of the Act;
  - (f) With respect to the adequacy of the internal financial controls over financial reporting of the Company with reference to these Ind AS financial statements and the operating effectiveness of such controls, refer to our separate Report in "Annexure B" to this report;
  - (g) In our opinion, the managerial remuneration for the year ended March 31, 2022 has been paid / provided by the Company to its directors in accordance with the provisions of section 197 read with Schedule V to the Act.
  - (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to use 13 & Company and the company of the second s

- i. The Company does not have any pending litigations which would impact its financial position;
- ii. the Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses; and
- iii.there were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
- iv. a) The management has represented to us that, to the best of its knowledge and belief, as disclosed in the note 58.9(A) to the financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Company ("Ultimate Beneficiary") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiary;
  - b) The management has represented to us that, to the best of its knowledge and belief, as disclosed in the note 58.9(B) to the financial statements, no funds have been received by the Company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
  - c) Based on such audit procedures that were considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- v. No dividend has been declared or paid during the period by the Company.

### Annexure A to the Auditors' Report

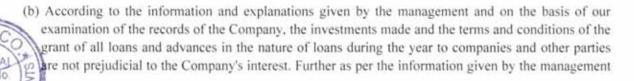

### The Annexure referred to in our Independent Auditors' Report to the members of Edelweiss Alternative Asset Advisors Limited ('the Company') on the financial statements for the year ended March 31, 2022, we report that:

 (i) (a)(A) The Company has maintained proper records showing full particulars, including quantitative details and situation of property, plant and equipment.

(a)(B) The Company has maintained proper records showing full particulars of intangibles assets.

- (b) As explained to us, the Company has a regular programme of physical verification of its property, plant and equipment by which all the property, plant and equipment are verified in a phased manner over a period of three years. In our opinion this periodicity of physical verification is reasonable having regard to the size of the Company and nature of its assets. No material discrepancies were noticed on such verification.
- (c) According to the information and explanations given by the management and on the basis of our examination of the records of the Company, there is no immovable property (other than properties where the Company is the lessee and the lease agreements are duly executed in favour of the lessee), held by the Company and accordingly, the requirement to report under clause 3(i)(c) of the Order is not applicable to the Company.
- (d) According to the information and explanations given by the management, the Company has not revalued its Property, Plant and Equipment (including Right of use assets) and intangible assets during the year ended March 31, 2022.
- (e) According to the information and explanations given by the management, there are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.
- (a) The Company's business does not involve inventories and, accordingly, the requirements under paragraph 3(ii)(a) of the Order are not applicable to the Company.
  - (b) According to the information and explanations given to us, the Company has not been sanctioned working capital limits in excess of Rs. five crores in aggregate from banks or financial institutions during any point of time of the year on the basis of security of current assets. Accordingly, the requirement to report under clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii) (a) (A) During the year the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to its subsidiaries, joint ventures and associates.

(B) During the year, the Company has provided loans aggregating to Rs. 13,15,00,000 to three companies other than its subsidiaries, joint ventures and associates and the balance outstanding as at the balance sheet date with respect to such loans is Rs. 11,00,00,000. Further as per the information and explanations given to us by the management, the Company has not granted advances in nature of loans or given any guarantee or provided any security during the year to parties other than its subsidiaries, joint ventures and associates.

(ii)

the Company has not provided any guarantees or not given any security.

- (c) According to the information and explanations given by the management and on the basis of our examination of the records of the Company, the Company has granted loan during the year to its holding company, the schedule of repayment of principal and payment of interest has been stipulated and the repayment or receipts are regular.
- (d) According to the information and explanations given by the management and on the basis of our examination of the records of the Company, there are no amounts of loans and advances in the nature of loans granted to companies, firms, limited liability partnerships or any other parties which are overdue for more than ninety days.
- (e) In our opinion and according to the information and explanations given to us, there were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships or any other parties which was fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same parties.
- (f) In our opinion and according to the information and explanations given to us, the Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company:
- (iv) In our opinion and according to the information and explanations given to us, the Company has not advanced loans to directors / to a Company in which the director is interested to which provisions of section 185 of the Companies Act, 2013 apply and hence not commented upon. In our opinion and according to the information and explanations given to us, investments in respect of which the provisions of section 186 of the Companies Act 2013 are applicable have been complied with by the Company.
- (v) According to the information and explanations given by the management, the Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) To the best of our knowledge and as explained by the management of the Company, the Company is not in the business of sale of any goods or provision of such services as prescribed u/s 148 (1) of Companies Act, 2013. Accordingly, the requirement to report on clause 3(vi) of the Order is not applicable to the Company.
- (vii) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, amounts deducted/ accrued in the books of account in respect of undisputed statutory dues including provident fund, income-tax, goods and service tax, cess and other statutory dues, applicable to it, have been regularly deposited during the year by the Company with the appropriate authorities. The provisions relating to employees' state insurance, sales tax, service tax, duty of excise, duty of custom, value added tax and cess are currently not applicable to the Company

According to the information and explanations given to us, no undisputed amounts payable in respect of provident fund, income-tax, goods and service tax, cess and other statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(b) According to the information and explanation given to us, there are no dues of income tax, provident fund, goods and service tax and cess which have not been deposited with the appropriate authorities on account of any dispute The provisions relating to employees' state insurance, sales tax, service tax, duty of excise, duty of custom, value added tax and cess are currently not applicable to the Company.

- (viii) The Company has not surrendered or disclosed any transaction, previously unrecorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
  - (b) The Company has not been declared wilful defaulter by any bank or financial institution or other lender.
  - (c) In our opinion and according to the information and explanations given to us, term loans have been applied for the purpose for which loans were obtained.
  - (d) In our opinion and on an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.
  - (e) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3(ix)(e) of the Order is not applicable to the Company.
  - (f) The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on Clause 3(ix)(f) of the Order is not applicable to the Company
- (a) The Company did not raise any money by way of initial public offer or further public offer (including debt instruments) during the year. Accordingly, paragraph 3(x) of the Order is not applicable to the Company.
  - (b) The Company has not made any preferential allotment or private placement of shares /fully or partially or optionally convertible debentures during the year under audit and hence, the requirement to report on clause 3(x)(b) of the Order is not applicable to the Company.
- (xi) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company we report that no fraud by the Company or on the Company has been noticed or reported during the year.
  - (b) According to the information and explanations given to us, during the year, no report under subsection (12) of section 143 of the Companies Act, 2013 has been filed by secretarial auditor or by us in Form ADT - 4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
  - (c) As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- (xii) The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clauses 3(xii)(a) to 3(xii)(c) of the Order is not applicable to the Company.
- (xiii) According to the information and explanations given by the management, transactions with the related parties are in compliance with section 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.
- (xiv) (a) In our opinion and based on our examination, the Company has an internal audit system commensurate with the size and nature of its business.

(b) We have considered the internal audit reports of the Company issued till date for the period under audit.

- (xv) According to the information and explanations given by the management, the Company has not entered into any non-cash transactions with its directors or persons connected with its directors and hence requirement to report on clause 3(xv) of the Order is not applicable to the Company.
- (xvi) (a) According to the information and explanations given to us, the provisions of section 45-IA of the Reserve Bank of India Act, 1934 are not applicable to the Company. Accordingly, the requirement to report on clause 3(xvi)(a) of the Order is not applicable to the Company
  - (b) The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtained a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
  - (c) Based on our examination, the Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3(xvi)(c) of the Order is not applicable to the Company.
  - (d) According to the information and explanations given by the management, the Group has one Core Investment Company as part of the Group.
- (xvii) According to the information and explanations given to us and on the basis of our examination of the records of the Company, the Company has not incurred cash losses in the current financial year as well as in the immediately preceding financial year.
- (xviii) There has been no resignation of the statutory auditors during the year and accordingly requirement to report on Clause 3(xviii) of the Order is not applicable to the Company.
- (xix) On the basis of the financial ratios disclosed in note 58.8 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- (xx) (a) According to the information and explanations given to us and on the basis of our examination of the records of the Company, there are no unspent amounts in respect of other than ongoing projects, that are required to be transferred to a fund specified in Schedule VII of the Companies Act (the Act), in compliance with second proviso to sub section 5 of section 135 of the Act.

(b) According to the information and explanations given to us, there are no unspent amounts in respect of ongoing projects, that are required to be transferred to a special account in compliance of provision of sub section (6) of section 135 of Companies Act.

(xxi) The Report is part of standalone financials of the Company hence the requirement to report on clause 3(xxi) of the Order is not applicable to the Company.

## Annexure B to the Auditors' Report

Annexure B the Independent Auditor's report of even date on the financial statements of Edelweiss Alternative Asset Advisor Limited ("the Company")

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of Edelweiss Alternative Asset Advisor Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the Ind AS financial statements of the Company for the year ended on that date.

### Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

### Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting with reference to these standalone Ind AS financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting with reference to these standalone Ind AS financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls over financial reporting with reference to these standalone Ind AS financial statements and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting with reference to these standalone Ind AS financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls over financial reporting with reference to these standalone Ind AS financial statements.

# Meaning of Internal Financial Controls Over Financial Reporting With Reference to these Financial Statements

A company's internal financial control over financial reporting with reference to these standalone Ind AS financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting with reference to these standalone Ind AS financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

# Inherent Limitations of Internal Financial Controls Over Financial Reporting With Reference to these Standalone Ind AS Financial Statements

Because of the inherent limitations of internal financial controls over financial reporting with reference to these standalone Ind AS financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting with reference to these standalone Ind AS financial statements to future periods are subject to the risk that the internal financial control over financial reporting with reference to these standalone Ind AS financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

### Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls over financial reporting with reference to these standalone Ind AS financial statements and such internal financial controls over financial reporting with reference to these standalone Ind AS financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Currency : (Indian Rupees in lakhs)

#### 1. Background

Edelweiss Alternative Asset Advisors Limited ('the Company') is registered a Company incorporated in India on 14 May 2008. Its is a subsidiary of Edelweiss Securities And Investments Private Limited, a Company incorporated in India.

The ultimate holding company is Edelweiss Financial Services Limited, which is incorporated in India

The Company is an Investment Manager to Alternative Investment Funds and also provides non-binding advisory services to certain offshore funds under Edelweiss Group.

#### 2. Basis of preparation of financial statements

The financial statements of the Company has been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared on a historical cost basis, except for certain financial instruments such as financial asset measured at fair value through other comprehensive income (FVOCI) instruments which have been measured at fair value. The financial statements are presented in Indian Rupees (INR)

The outbreak of COVID - 19 pandemic has affected several countries across the world, including India. The Government is undertaking several measures to restrict the spread of virus and provide financial support to some stressed sectors. Further, while the COVID-19 vaccination efforts have gained momentum, uncertainty due to the resurgence of COVID cases across many parts of India is rising. The extent to which COVID-19 pandemic will impact the Company, if any, depends on future spread of the virus and related developments, which are uncertain at this point of time. There has been no material change in the controls or processes followed in the closing of the financial statements of the Company.

In preparing the accompanying financial results, the Company's management has assessed the impact of the pandemic on its operations and its assets including the value of its investments, asset management rights and trade receivables as at March 31, 2022. Since the revenue of the Company is ultimately dependent on the value of the assets it manages, changes in market conditions and the trend of flows into alternate funds may have an impact on the operations of the Company. Basis the assessment, the management does not, at this juncture, believe that the impact on the value of the Company's assets or its operations is likely to be material.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

#### 3. Presentation of financial statements

The Company presents its balance sheet in compliance with the Division II of the Schedule III to the Companies Act, 2013.

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all of the following circumstances:

- · the normal course of business
- · the event of default
- · the event of insolvency or bankruptcy of the company and or its counterparties

All assets and liabilities are classified into current and non-current.

#### Assets

An asset is classified as current when it is expected to be realized in, or is intended for sale or consumption in, the company's normal operating cycle or it is held primarily for the purpose of being traded or it is expected to be realized within 12 months after the reporting date or it is cash or cash equivalent unless it is restricted from being exchanged or expected to be used to settle a liability for at least 12 months after the reporting date. Current assets include the current portion of non-current assets. All other assets are classified as noncurrent.

#### Liabilities

A liability is classified as current when it is expected to be settled in the company's normal operating cycle or it is held primarily for the purpose of being traded or it is due to be settled within 12 months after the reporting date or the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. Current liabilities include current portion of non-current liabilities. All other liabilities are classified as non-current.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

#### 4. Significant accounting policies

4.1 Financial Instruments

- 4.1.1 Date of recognition
  - Financial assets and financial liabilities, with the exception of borrowings are initially recognized on the trade date, i.e., the date that the Company becomes a party to the contractual provisions of the instrument. This includes regular way trades: purchases or sales of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. The Company recognises borrowings when funds are available for utilisation to the Company.
- 4.1.2 Initial measurement of financial instruments

Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in profit or loss.

4.1.3 Day 1 profit or loss

When the transaction price of the financial instrument differs from the fair value at origination and the fair value is based on a valuation technique using only inputs observable in market transactions, the Company recognises the difference between the transaction price and fair value in net gain on fair value changes. In those cases where fair value is based on models for which some of the inputs are not observable, the difference between the transaction price and the fair value is deferred and is only recognized in profit or loss when the inputs become observable, or when the instrument is derecognized.

- 4.2 Classification of financial instruments
- 4.2.1 Financial assets:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

- Amortised cost
- · Fair value through other comprehensive income [FVOCI)
- Fair value through profit or loss [FVTPL]

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

The Company measures debt financial assets that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that
  are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that
  are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at FVTPL.

4.2.1.1 Amortized cost and Effective interest method

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period.

For financial instruments other than purchased or originated credit-impaired financial assets, the effective interest rate is the rate that exactly discounts estimated future cash receipts (including all fees and points paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) excluding expected credit losses, through the expected life of the debt instrument, or, where appropriate, a shorter period, to the gross carrying amount of the debt instrument on initial recognition. For purchased or originated credit-impaired financial assets, a credit-adjusted effective interest rate is calculated by discounting the estimated future cash flows, including expected credit losses, to the amortised cost of the debt instrument on initial recognition.

The amortised cost of a financial asset is the amount at which the financial asset is measured at initial recognition minus the principal repayments, plus the cumulative amortisation using the effective interest method of any difference between that initial amount and the maturity amount, adjusted for any loss allowance. On the other hand, the gross carrying amount of a financial asset is the amortised cost of a financial asset before adjusting for any loss allowance.

# Investment in equity instruments

The Company subsequently measures all equity investments at fair value through profit or loss, unless the management has elected to classify irrevocably some of its strategic equity investments to be measured at FVTOCI, when such instruments meet the definition of Equity under Ind AS and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

4.2.2 Financial liabilities

All financial liabilities are measured at amortised cost

4.2.2.1 Debt securities and other borrowed funds

After initial measurement, other borrowed funds are subsequently measured at amortised cost. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

4.2.2.2 Financial assets and Financial liabilities at fair value through profit or loss

Financial assets and financial liabilities in this category are those that are not held for trading and are mandatorily required to be measured at fair value under Ind AS 109.

- The liabilities are part of a Company of financial liabilities, which are managed and their performance evaluated on a fair value basis, in accordance with a documented risk management or investment strategy; Or
- Financial assets and financial liabilities at FVTPL are recorded in the balance sheet at fair value. Changes in fair value are recorded in profit and loss with the exception of movements in fair value of liabilities designated at FVTPL due to changes in the Company's own credit risk. Such changes in fair value are recorded in the Own credit reserve through OCl and do not get recycled to the profit or loss. Interest earned or incurred on instruments designated at FVTPL is accrued in interest income or finance cost, respectively, using the EIR, taking into account any discount/ premium and qualifying transaction costs being an integral part of instrument. Interest earned on assets mandatorily required to be measured at FVTPL is recorded using contractual interest rate.

Similarly, any realised gain or loss on sale of financial instruments measured at FVTPL and debt instruments measured at FVOCI is recognised in net gain / loss on fair value changes.

4.2.3 Financial liabilities and equity instruments

Financial instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

An equity instrument is any contract that evidences a residual interest in the assets of an Company after deducting all of its liabilities. Equity instruments issued by a Company are recognized at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognized and deducted directly in equity. No gain or loss is recognized in profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

4.3 Reclassification of financial assets and financial liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified.

- 4.4 Derecognition of financial assets and financial liabilities
- 4.4.1 Derecognition of financial assets due to substantial modification of terms and conditions

The Company derecognises a financial asset, such as a loan to a customer, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new loan, with the difference recognized as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

4.4.2 Derecognition of financial assets (other than due to substantial modification)

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is derecognized when the rights to receive cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred its contractual rights to receive cash flows from the financial asset; or
- It retains the rights to the cash flows, but has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement.

A transfer only qualifies for derecognition if either:

- · The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards
  of the asset, but has transferred control of the asset

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

#### 4.4.3 Derecognition of financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expires.

Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognized as new financial liability, would be recognized in profit or loss.

### 4.5 Impairment of financial assets

The Company records allowance for expected credit losses for all loans, other debt financial assets not held at FVTPL, together with loan commitment and financial guarantee contracts, in this section all referred to as 'financial instruments'. Equity instruments are not subject to impairment.

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure ECL.

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognized is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

Notes to the financial statements (continued)

#### Currency : (Indian Rupees in lakhs)

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default, (EAD) for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

For financial assets, the expected credit loss (ECL) is estimated as the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the Company expects to receive, discounted at the original effective interest rate. The Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

If a financial instrument includes both a loan (i.e. financial asset) and an undrawn commitment (i.e. loan commitment) component and the Company cannot separately identify the ECL on the loan commitment component from those on the financial asset component, the ECL on the loan commitment have been recognized together with the loss allowance for the financial asset. To the extent that the combined expected credit losses exceed the gross carrying amount of the financial asset, the expected credit losses have been recognized as a provision. Also, for other loan commitments and all financial guarantee contracts, the loss allowance has been recognized as a provision.

4.6 Write off

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery.

4.7 Determination of fair value

The Company measures financial instruments, at fair value at each balance sheet date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

 In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

- Level 1 financial instruments –Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.
- Level 2 financial instruments-Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.
- Level 3 financial instruments –Those that include one or more unobservable input that is
  significant to the measurement as whole. For assets and liabilities that are recognized in the
  financial statements on a recurring basis, the Company determines whether transfers have
  occurred between levels in the hierarchy by re-assessing categorization (based on the
  lowest level input that is significant to the fair value measurement as a whole) at the end of
  each reporting period. The Company periodically reviews its valuation techniques
  including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

The Company evaluates the levelling at each reporting period on an instrument-byinstrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

4.8 Revenue from contract with customer

Revenue is measured at transaction price i.e. the amount of consideration to which the Company expects to be entitled in exchange for transferring promised goods or services to the customer, excluding amounts collected on behalf of third parties. The Company consider the terms of the contract and its customary business practices to determine the transaction price. Where the consideration promised is variable, the Company excludes the estimates of variable consideration that are constrained.

- a. Revenue from fund management services is recognized over the tenure in accordance with the terms and conditions of the investment management agreement between the Company and the Fund for which the Company acts as a fund manager.
- b. Fee income including advisory fees is accounted over the period as the customer simultaneously receives and consumes the benefits, as the services are rendered.
- c. The company recognises incremental costs of obtaining a contract with a customer as an asset if it expects to recover those costs. This asset is amortised to profit or loss on a systematic basis consistent with the transfer to the customer of the goods or services to which the asset relates.
- d. Recognition of Interest income
  - Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost and debt instrument measured at FVOCI. The EIR is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to the gross carrying amount of the financial asset.
  - The EIR (and therefore, the amortised cost of the financial asset) is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle (including prepayments, penalty interest and charges).
  - Interest income from a financial asset is recognized when it is probable that the
    economic benefits will flow to the Company and the amount of income can be
    measured reliably.

Notes to the financial statements (continued)

#### Currency : (Indian Rupees in lakhs)

- · In case of staff loans interest income is recognised on accrual basis
- 4.9 Operating leases

As described in Note 48.4, the Company has applied Ind AS 116 while recognising lease cost.

Company as a lessee:

For contracts entered into, the Company considers whether a contract is, or contains a lease. A lease is defined as 'a contract, or part of a contract, that conveys the right to use an asset (the underlying asset) for a period of time in exchange for consideration'. To apply this definition the Company assesses whether the contract is or contains lease

#### Measurement and recognition

At lease commencement date, the Company recognises a right-of-use (ROU) asset and a lease liability on the balance sheet. The right-of-use asset is measured at cost, which is made up of the initial measurement of the lease liability, any initial direct costs incurred by the Company, an estimate of any costs to dismantle and remove the asset at the end of the lease, and any lease payments made in advance of the lease commencement date (net of any incentives received).

The Company depreciates the right-of-use assets on a straight-line basis from the lease commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. The Company also assesses the right-of-use asset for impairment when such indicators exist. At the commencement date, the Company measures the lease liability at the present value of the lease payments unpaid at that date, discounted using the interest rate implicit in the lease if that rate is readily available or at the incremental borrowing rate.

Subsequent to initial measurement, the liability will be reduced for payments made and increased for interest. It is remeasured to reflect any reassessment or modification, or if there are changes in in-substance fixed payments. When the lease liability is remeasured, the corresponding adjustment is reflected in the right-of-use asset, or profit and loss if the right-of-use asset is already reduced to zero

#### Short term lease

The Company has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Company recognises lease payment associated with these leases as an expense on a straight line basis over lease term.

In the comparative period, as a lessee the Company classified leases that transfer substantially all the risk and reward of ownership as finance leases. Assets held under other

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

leases are classified as operating lease and were not recognised in Company Balance sheet. Payments made under operating lease are recognised as an expense in the statement of profit and loss on a straight-line basis over the lease term, in which case lease payments are recognised based on contractual terms. Contingent rental payable is recognised as an expense in the period in which it is incurred

4.10 Earnings per share

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

4.11 Foreign currency transactions

The Financial Statements are presented in Indian Rupees which is also functional currency of the company. Transactions in currencies other than Indian Rupees (i.e. foreign currencies) are recognized at the rates of exchange prevailing at the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing at the date when the fair value was determined. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated

Exchange differences on monetary items are recognized in profit or loss in the period in which they arise.

4.12 Retirement and other employee benefit

Provident fund and national pension scheme

The Company contributes to a recognized provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognized in the statement of profit and loss.

Gratuity

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any,

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method. Benefits in respect of gratuity are funded with an Insurance company approved by Insurance Regulatory and Development Authority (IRDA).

Remeasurements, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognized immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurements are not reclassified to profit or loss in subsequent periods

#### Compensated Absences

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

### 4.13 Share-based payment arrangements

Equity-settled share-based payments to employees and others providing similar services that are granted by the Ultimate Parent Company are measured by reference to the fair value of the equity instruments at the grant date.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Company's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Company revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognized in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the 'Share Option Reserve'. In cases where the share options granted vest in instalments over the vesting period, the Company treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each installment differs.

#### 4.14 Property, plant and equipment

Property plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

Subsequent costs incurred on an item of property, plant and equipment is recognized in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognized in profit or loss as incurred.

Depreciation is recognized so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the fixed assets are as follows:

Estimated useful lives of the assets are as follows:

Estimated useful life
8 years
5 years
6 years
3 years

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognized as assets is derecognized at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate

#### 4.15 Intangible assets

The Company's intangible assets mainly include the value of computer software and Investment Management Rights.

Intangibles such as software are amortised over a period of 3 years based on its estimated useful life.

Intangibles such as Investments Management Rights, representing premium paid to acquire Investment Management rights of new funds are amortised over the tenure of the fund.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

An intangible asset is recognized only when its cost can be measured reliably, and it is probable that the expected future economic benefits that are attributable to it will flow to the Company.

Intangible assets acquired separately are measured on initial recognition at cost. The cost of intangible assets acquired in a business combination is their fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortization and any accumulated impairment losses. Intangible assets with finite lives are amortized over the useful economic life.

Projects under which Intangible assets are not yet ready for their intended use are carried at cost, comprising direct cost, related incidental expenses and attributable interest and are disclosed as "Intangible asset under development".

4.16 Impairment of non-financial assets

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the asset is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

4.17 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and shortterm deposits with an original maturity of three months or less.

4.18 Provisions and other contingent liabilities

Provisions are recognized when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by

Notes to the financial statements (continued)

#### Currency : (Indian Rupees in lakhs)

the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognized in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognized.

4.19 Income tax expenses

Income tax expense represents the sum of the tax currently payable and deferred tax.

4.19.1 Current tax

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

### 4.19.2 Deferred tax

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences. Deferred tax assets are generally recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

Deferred tax assets are also recognized with respect to carryforward of unused tax losses and unused tax credits to the extent that it is probable that future taxable profit will be available against which the unused tax losses and unused tax credits can be utilised.

It is probable that taxable profit will be available against which a deductible temporary difference, unused tax loss or unused tax credit can be utilised when there are sufficient taxable temporary differences which are expected to reverse in the period of reversal of deductible temporary difference or in periods in which a tax loss can be carried forward or back. When this is not the case, deferred tax asset is recognized to the extent it is probable that:

- the company will have sufficient taxable profit in the same period as reversal of deductible temporary difference or periods in which a tax loss can be carried forward or back; or
- tax planning opportunities are available that will create taxable profit in appropriate periods.

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

Current and deferred tax for the year

Current and deferred tax are recognized in profit or loss, except when they relate to items that are recognized in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognized in other comprehensive income or directly in equity respectively.

#### 5 Critical accounting judgements and key sources of estimation uncertainty

In the application of the Company's accounting policies, which are described in note 4, the management is required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

5.1 Critical judgements in applying accounting policies

The following are the critical judgements, that the management has made in the process of applying the Company's accounting policies and that have the most significant effect on the amounts recognized in the Financial Statements.

5.1.1 Business model assessment

Classification and measurement of financial assets depends on the results of the SPPI and the business model test. The Company determines the business model at a level that reflects how Company's financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance is measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognized prior to their maturity to understand the quantum, the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those assets.

#### 5.1.2 Significant increase in credit risk

ECL is measured as an allowance equal to 12-month ECL for stage 1 assets, or lifetime ECL for stage 2 or stage 3 assets. An asset moves to stage 2 when its credit risk has increased significantly since initial recognition. Ind AS 109 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information.

## 5.1.3 Consolidation of structured entities

A structured entity is an entity that has been designed so that voting or similar rights are not the dominant factor in deciding who controls the entity, such as when any voting rights relate to administrative tasks only and the relevant activities are directed by means of contractual arrangements. In the context of the Company, structured entities comprises alternative investment funds / schemes thereof. The Company consolidates the structured entities that it controls. When making this judgement, the Company also considers voting and similar rights available to itself and other parties, who may limit the Company's ability to control, including rights to appoint, reassign or remove members of the structured entity's key management personnel who have the ability to direct the relevant activities, the exposure to variability of returns and whether the Company has the ability to use its power to affect the amount of the Company's returns i.e. the variability of returns in relation to the total returns of the investee entity. For disclosures of unconsolidated structured entities, refer Note 51.

#### 5.2 Key sources of estimation uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the Financial Statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

#### Fair value of financial instruments

The fair value of financial instruments is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price) regardless of whether that price is directly observable or estimated using another valuation technique. When the fair values of financial assets and financial liabilities recorded in the balance sheet cannot be derived from active markets, they are determined using a variety of valuation techniques that include the use of valuation

Notes to the financial statements (continued)

Currency : (Indian Rupees in lakhs)

models. The inputs to these models are taken from observable markets where possible, but where this is not feasible, estimation is required in establishing fair values. Judgements and estimates include considerations of liquidity and model inputs related to items such as credit risk (both own and counterparty), funding value adjustments, correlation and volatility.

#### Impairment of financial assets

The measurement of impairment losses across all categories of financial assets requires judgement, in particular, the estimation of the amount and timing of future cash flows and collateral values when determining impairment losses and the assessment of a significant increase in credit risk. These estimates are driven by a number of factors, changes in which can result in different levels of allowances.

The Company's ECL calculations are outputs of models with a number of underlying assumptions regarding the choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- Probabilities of defaults (PDs) the calculation of which includes historical data, assumptions and expectations of future conditions.
- The Company's criteria for assessing if there has been a significant increase in credit risk
  and so allowances for financial assets should be measured on a life-time expected credit loss
  model basis and the qualitative assessment
- The segmentation of financial assets when their ECL is assessed on a collective basis
- Development of ECL models, including the various formulas and the choice of inputs
- Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, exposure at defaults and loss given defaults (LGDs)
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models

It is Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary

· Effective interest rate method

The Company's EIR methodology recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of characteristics of the product life cycle.

This estimation, by nature, requires an element of judgement regarding the expected behaviour and life-cycle of the instruments, as well expected changes fee income/expense that are integral parts of the instrument.

# 6 Standards issued but not yet effective

There are no new standard or amendment issued but not effective.

	1,22,56,000	99.04%	1,22,56,000	99.04%

There is no change in shareholding percentage during the previous year & current year.

The Composite scheme of arrangement (the "Scheme") amongst Edebweiss Securities Limited ("ESL"), Edebweiss Securities And Investments Private Limited ("ESIPL"), Edebweiss Global Wealth Management Limited and their respective shareholders and creditors, under section 230 to 232 and other applicable provisions of the Companies Act, 2013, inter-alia envisaged Demerger of Asset Management Buniness Undertaking ("Demerged Undertaking 1" as defined in the Scheme) of ESL into ESIPL, including ESL's stake in the Company.

The National Company Law Tribunal Bench at Mumhai had approved the aforementioned Scheme on March 31, 2022 under the applicable provisions of the Companies Act, 2013 and the certified copy of the said order of the Tribunal was filed with the Registrar of Companies on April 22, 2022.

Since the Scheme was sanctioned by the NCLT on March 31, 2022, it is an adjusting event in accordance with IND AS 10. On account of the Scheme , share held by ESL in the Company were transferred to ESIPL during April 2022. Since the actual shareholding of the company was affected post March 31, 2022, we have disclosed the actual share holding pattern as at 31 March 2022.

### e. Terms/rights attached to equity shares

The Company has only one class of shares, referred to as equity shares, having a par value of Rs 10. Each holder of equity shares is entitled to one vote per share held. In the event of liquidation of the Company, the holders of equity shares will be entitled to receive remaining assets of the Company, after distribution of all preferential amounts. The distribution will be in proportion to the number of equity shares held by the shareholders.

### 45 Segment reporting.

Company has three operating segments. Capital based business, Agency business and treasury business Capital based business comprises of Income from income from investments. Agency business generates Fee income. Treasury business comprises of income earned from treasury operations and interest income on temporary investments. Income for each segment has been specifically identified. Expenditure, assets and liabilities are either specifically identified with individual segments or have been allocated to segments on a systematic basis. Based on such allocations, segment disclosures relating to revenue, results, assets and liabilities have been prepared. Since the business operations of the Company are primarily concentrated in India, the Company is considered to operate only in the domestic segment.

The following table gives information as required under the AS- 108 - Operating Segme	at Reporting

### 50 Capital management :

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

The Company manages its capital structure and makes adjustments to it according to changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Company may adjust the antount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes have been made to the objectives, policies and processes from the previous years. However, they are under constant review by the Board.

The Company is not subject to any regulatory capital requirements.

### 51 Fair Values of Financial Instruments:

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e.,an exit price), regardless of whether that price is directly observable or estimated using a valuation technique.

### 51.1 Assets and liabilities by fair value hierarchy

The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

		31 March	2022	
Particulars	Level 1	Level 2	Level 3	Total
Investments in Units of AIF	+		1.526.87	1,526.87
Investments in Units of Mutual Fund	4,160.23			4,160.23
Investments in NCDs	+	9,927.65		9,927.65
Investments in Security Receipts		*	617.00	617.00
Investment in Listed Equity shares	499,49			499,49
Total financial assets measured at fair value on a recurring basis	4,659.72	9,927.65	2,143.87	16,731.24

		31 Mare	h 2021	
Particulars	Level 1	Level 2	Level 3	Tetal
Investments in Units of AIF			76.89	76.89
Investments in Units of Mutual Fund	1,751.86			1,751.86
Investments in Listed Equity shares	130.28			130.28
Total financial assets measured at fair value on a recurring basis	1.882.14		76.89	1,959.03

### Fair valuation Technique

The equity instrument is traded actively traded on recognised stock exchange with readily available active prices on a regular basis. Such instruments are classified as level 1. Units held in funds are measured based on net asset value (NAV),taking into account redemption and/or other restrictions. Such instruments are generally level 3. (refer note 41.4)

### 51.2 Movement in level 3 financial instrument measured at fair value

The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy.

Particulars	Financia	d assets
	March 31 2022	March 31 2021
Investments in units of AIF		
At I April	76.89	235.15
Purchase	1,291.74	46.38
Redemption	(2.34)	(193.12)
Gains / (losses) for the period recognised in profit or loss	160.58	(11.52)
At 31 March	1,526.86	76.89
Unrealised gains / (losses) related to balances held at the end of the period	160.58	(53.57)

### Notes to the financial statements (Continued)

(Currency:Indian rupees in lakhs)

51.2 Movement in level 3 financial instrument measured at fair value (continued)

Particulars	Financia	assets .
	March 31 2022	March 31 202
Investments in Security Receipts		
At I April		
Purchase	665.00	*
Redemption	(48.99)	
Gains / (losses) for the period recognised in profit or loss		-
At 31 March	617.00	
Unrealised gains / (losses) related to balances held at the end of the period		

The market for these securities is not active. Therefore, the comapny uses valuation techniques to measure their fair values. Since these security receipts are less liquid nstruments therefore they are valued by discounted cash flow models. Expected cash flow levels are estimated by using i quantitative and qualitative measures regarding the characteristics of the underlying assets including prepayment rates, default rates and other economic drivers. Securities receipts with significant unobservable valuation inputs are classified as Level 3.

### 51.3 Financial instruments not measured at fair value

Fair value information of financial assets and financial liabilities not measured at fair value has not been presented as the carrying amount is a reasonable approximation of the fair value due to their short term nature.

Notes to the financial statements (Continued)

(Currency Indian rupces in lakhs)

# 51.4 Fair values of financial instruments (continued)

# Unobservable inputs used in measuring fair value categorised within Level 3 :

Following tables set out information about significant unobservable inputs used at respective balance sheet dates in measuring financial instruments categorised as Level 3 in the fair value hierarchy:

Type of innancial insertions	Fair value of asset as on 31 March 2022	Fair value of Fair value of Sect as on 31 liability as on March 2022 31 March 2022	Valuation techniques	Significant unobservable input	Range of estimates Increase in the (weighted-average) unobservable (% or as the case input input may be)	Increase in the Change in fair Decrease in the Change in fair unobservable input (% or as the case may be) the case may be) the case may be) the case may	Change in fair value	n fair Decrease in the value unobservable input (% or as the case may be)	Change in fair value
investments in units of AIF	1,526.87		Net assets approach	Fair value of underlying investments	NAV per unit Rs. 685.69 - 10,773	5%	76.33	5%	(76.33)

### 52 Risk Management

The company has operations in India. Whilst risk is inherent in the Company's activities, it is managed through an integrated risk management framework, including ongoing identification, measurement and monitoring, subject to risk limits and other controls. This process of risk management is critical to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk and market risk. It is also subject to various operating and business risks.

### A Risk management structure

The Board of Directors are responsible for the overall risk management approach and for approving the risk management strategies and principles.

### **B** Analysis of risk concentration

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incut a financial loss. The carrying amounts of financial assets in the statement of financial position represent the Company's maximum exposure to credit risk, before taking into account any collateral held. The Company does not hold any collateral in respect of their financial assets. At the reporting date, there was no significant concentration of credit risk. The maximum credit risk is represented by the carrying amount of each financial assets in the statement of financial position. The Company's cash and cash equivalents are held with regulated financial institutions. Trade receivables largely comprise of receivables from Group Companies.

### C Industry analysis - Risk concentration for 31 March 2022 and 31 March 2021

The company operates in financial services industry. Following table shows the risk concentration by the industry for the components of the balance sheet.

1. Represents assets which are not restricted for use as collateral, but that the company would not consider readily available to secure funding in the normal course of business. 2. Represent assets which are used as a security towards facility from financial institution.

### Notes to the financial statements (Continued)

(Currency Indian ruppes in lakhs)

### 52 Risk Management (Continued)

### E Market Risk (Continued)

### (i) Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments.

			2021-2	2		
Currency of borrowing / advances	Increase in basis points	Effect on profit before tax	Effect on Equity	Decrease in basis points	Effect on profit before tax	Effect on Equity
INR	25	(0.55)		25	0.55	

			2020-2	1		
Currency of borrowing / advances	Increase in basis points	Effect on profit before tax	Effect on Equity	Decrease in basis points	Effect on profit before tax	Effect on Equity
INR	25	6.22	-	25	(6.22)	

### (ii) Currency risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. Foreign currency risk arise majorly on account of

foreign currency borrowings. The table below indicates the currencies to which the Company had significant exposure at the end of the reported periods. The analysis calculates the effect of a reasonably possible movement of the currency rate against the INR (all other variables being constant) on the statement of profit and loss (due to the fair value of currency sensitive non-trading monetary assets and liabilities) and equity (due to the change in fair value of currency swaps and forward foreign exchange contracts used as cash flow hedges).

			2021-2	2		
Currency	Increase in currency rate (%)		Effect on Equity	Decrease in currency rate (%)	Effect on profit before tax	Effect on Equity
USD	5	68.82		5	(68.82)	

			2020-21			
Currency	Increase in currency rate (%)		Effect on Equity	Decrease in currency rate (%)	Effect on profit before tax	Effect on Equity
USD	5	20.93		5.00	(20.93)	

### (iii) Equity Price Risk

Equity Price Risk is the risk that the fair value or furture cash flows of a financial instrument will fluctuate because of changes in the level of individual investment in equity share prices.

			2021-22			
Impact on	Increase in price (%)	Effect on profit before tax	Effect on Equity	Decrease in price (%)		Effect on Equity
Equity shares	5	24.97		5	(24.97)	

			2020-21			
Impact on	Increase in price (%)	Effect on profit before tax	Effect on Equity	Decrease in price (%)	Effect on profit before tax	Effect on Equity
Equity shares	5	6.51	2+1		(6.51)
