

Edelweiss Retail Finance Limited

Corporate Identity Number: U67120MH1997PLC285490

Financial Statement for the year ended March 31, 2025

INDEPENDENT AUDITOR'S REPORT

To the Members of **Edelweiss Retail Finance Limited**

Report on the Audit of the Standalone Financial Statements

Opinion

We have audited the accompanying Standalone financial statements of **Edelweiss Retail Finance Limited** ("the Company"), which comprise the Balance sheet as at March 31, 2025, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and Notes to the Standalone Financial Statements, including a summary of Significant Accounting Policies and other explanatory information (hereinafter referred to as "Financial Statement").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the Indian accounting Standards prescribed under section 133 of the Act read with the companies (Indian Accounting standards) Rules, 2015, as amended, ("Ind AS") and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2025, its Profit/Loss including Other Comprehensive Income, its Cash Flows and the Changes in Equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the standalone financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Standalone Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the standalone financial statements for the financial year ended March 31, 2025. These matters were addressed in the context of our audit of the standalone financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the standalone financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the standalone financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying standalone financial statements.

Sr. No.	Key audit matters	How our audit addressed the key audit matter
1.	Impairment of Loans and Advances	<ul style="list-style-type: none"> Evaluated the design, implementation, and operating effectiveness of key controls over the ECL modeling process. Verified the criteria applied by the management for staging and tested the completeness and accuracy of the data inputs used. Assessed the assumptions regarding probability of default, loss given default, and forward-looking information, including macroeconomic variables incorporated in the ECL model. Performed independent recalculations on a sample basis to verify the accuracy of the computation of expected credit losses. Examined the adequacy of the financial statement disclosures as required under Ind AS 107 and Ind AS 109.
2.	Sale or Assignment of Financial Assets	<ul style="list-style-type: none"> Assessed the Company's accounting policies relating to derecognition of financial assets and evaluated their compliance with Ind AS 109 and RBI guidelines. Tested on a sample basis the sale and assignment transactions to verify whether the conditions for derecognition were appropriately assessed and met. Reviewed transaction documentation such as assignment agreements, sale deeds, and servicing agreements to evaluate the transfer of risks and rewards and loss of control. Evaluated the recognition of gains or losses on derecognition of financial assets and checked the appropriateness of disclosures in the financial statements. Assessed compliance with RBI's Master Directions on Transfer of Loan Exposures for NBFCs and checked reporting to regulators where applicable.

We have determined that there are no other key audit matters to communicate in our report.

Information Other than the Standalone Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Boards Report including Annexures to Board Reports, Business Responsibility Report, corporate governance and

shareholders information, but does not include the Standalone Financial Statements and our Auditor's Report thereon.

Our opinion on the standalone financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the standalone financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Standalone Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance, change in cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate implementation and maintenance of accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the standalone financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Standalone Financial Statements

Our objectives are to obtain reasonable assurance about whether the standalone financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these standalone financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the standalone financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal

control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the standalone financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the standalone financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Materiality is the magnitude of misstatements in the standalone financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements for the financial year ended March 31, 2025 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act 2013, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:

- (a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit;
- (b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
- (c) The Balance Sheet, the Statement of Profit and Loss including Other Comprehensive Income, the Cash Flow Statement and Statement of Changes in Equity dealt with by this Report are in agreement with the relevant books of account.
- (d) In our opinion, the aforesaid Standalone Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 Companies (Indian Accounting Standards) Rules, 2015, as amended.
- (e) On the basis of the written representations received from the directors as on March 31, 2025 taken on record by the Board of Directors, none of the directors is disqualified as on March 31, 2025 from being appointed as a director in terms of Section 164 (2) of the Act.
- (f) With respect to the adequacy of the internal financial controls over financial reporting of the company and the operating effectiveness of such controls, refer to our separate report in "Annexure B". Our report expresses an unmodified opinion on the adequacy and operating effectiveness of the company's internal financial controls over financial reporting.
- (g) In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us.
- (h) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, as amended in our opinion and to the best of our information and according to the explanations given to us:
 - i. The Company does not have any pending litigations which would impact its financial position;
 - ii. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses
 - iii. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company
 - iv. The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 57(8)(A) to the standalone financial statements, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries

- v. The management has represented that, to the best of its knowledge and belief, other than as disclosed in the note 57(8)(A) to the standalone financial statements, no funds have been received by the company from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries; and
- vi. Based on such audit procedures that were considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (a) and (b) contain any material misstatement.
- vii. No dividend has been declared or paid during the year by the Company.
- viii. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account for the financial year ended March 31, 2025 which has a feature of recording audit trail (edit log) facility and the same has operated throughout the year for all relevant transactions recorded in the software. Further, during the course of our audit we did not come across any instance of the audit trail feature being tampered with.

**ANNEXURE "A" TO THE INDEPENDENT AUDITORS' REPORT ON STANDALONE FINANCIAL STATEMENT
OF EDELWEISS RETAIL FINANCE LIMITED**

**(Referred to in Paragraph 1 Under the Heading "Report on Other Legal and Regulatory Requirements"
of Our Report of Even Date)**

i.

- a)
 - A) The Company has maintained proper records showing full particulars including quantitative details and location of property, plant and equipment for the year.
 - B) The Company has maintained proper records showing full particulars including quantitative details and location of intangible assets.
- b) According to the information and explanations given to us, and based on our examination of the records, the company has carried out physical verification of its property, plant and equipment at reasonable intervals during the year. No material discrepancies were noticed on such verification.
- c) According to the information and explanations given to us, the title deeds of immovable properties (other than properties where the company is the lessee and the lease agreements are duly executed in favour of the lessee), are held in the name of the Company.
- d) The company has neither revalued its Property, Plant and Equipment's (including Right of Use assets) nor intangible assets or both during the year.
- e) As per the information and explanation provided to us, no proceedings have been initiated or are pending against the company for holding any Benami Property under the 'Benami Transactions (Prohibition) Act, 1988 (45 of 1988)' and rules made thereunder.

ii.

- a) The Company business does not involve Inventories and, accordingly, the requirements under paragraph 3(ii) of the Order are not applicable to the Company.
- b) According to the information and explanations given to us, the company has availed working capital limits from banks on the basis of security of current assets. The quarterly statements filed by the company are in agreement with the books of accounts.

iii.

- a) As per the information and explanations given to us, the principal business of the company is to give loans and hence clause iii(a) of the order is not applicable.
- b) As per the information and explanations given to us, the investments made and loans provided by the company, are not prejudicial to the company's interest;

Company has not given any guarantees, security, and advances in the nature of loans.

- c) In respect of the loans/advances in nature of loan, granted by the company as part of its business, the schedule of repayment of principal and payment of interest has been stipulated

by the Company. Having regard to the voluminous nature of loan transactions, it is not practicable furnish entity-wise details of amount, due date of repayment or receipt and the extent of delay (as suggested in the Guidance Note on CARO 2020, issued by the Institute of Chartered Accountants of India for the reporting under this clause) in this report, in respect of loans and advances which were not repaid/paid when they are due or were repaid/paid with a delay, in the normal course of lending business.

Further, except for those instances where there are delays or defaults in repayment of principal and/or interest as at the balance sheet date, in respect of which the Company has disclosed asset classification/staging of loans in Note 11.2 to the Standalone Financial Statements in accordance with Indian Accounting Standards (Ind AS) and the guidelines issued by the Reserve Bank of India, the parties are repaying the principal amounts, as stipulated, and are also regular in payment of interest, as applicable.

- d) In respect of the loans/advances in nature of loans, the total amount overdue for more than ninety days (including cases classified as non-performing asset (NPA) as per RBI guidelines) as at March 31, 2025 and the details of the number of such cases, are disclosed in Note 11.2 to the Standalone Financial Statements. In such instances, in our opinion, reasonable steps have been by the Company for recovery of the overdue amount of principal and interest.
 - e) In our opinion and based on the information and explanation given to us, the company is in the business of giving loans, hence this clause is not applicable.
 - f) According to the information and explanation given to us, the company has not granted any loans or advances in the nature of loans either repayable on demand or without specifying any terms or period of repayment.
- iv. According to the information and explanations given to us, there are no loans, investments, guarantees and securities granted in respect of which provisions of section 185 and 186 of the Companies Act 2013 are applicable and hence not commented upon.
- v. In our opinion and according to the information and explanations given to us, the company has not accepted any deposits or the amounts deemed to be deposit as per the directives issued by the Reserve Bank of India and the provisions of sections 73 to 76 of the Act and the rules framed. Accordingly, paragraph 3(v) of the order is not applicable to the company.
- vi. The provisions of maintenance of cost records under sub-section (1) of section 148 of the Companies Act, 2013 are not applicable to the company, as it is engaged in the business of providing loans;
- vii.
- a) According to the information and explanations given to us and according to the records of the Company examined by us, in our opinion, the Company is generally regular in depositing with the appropriate authorities undisputed statutory dues including Provident Fund, Employees State Insurance, Income-tax, Goods and Service Tax, Cess and any other statutory dues, wherever applicable. The provisions relating to duty of excise, duty of custom, sales tax, value added tax, and service tax are not applicable to the Company. According to the information and explanations given to us, no undisputed amounts payable in respect of aforesaid dues were outstanding as at March 31, 2025 for a period of more than 6 months from the date they became payable.
 - b) According to the information and explanations given to us, there were no dues in respect of Income Tax, duty of Excise, duty of Customs, Sales Tax, Service Tax, Goods and Service Tax and

Value Added Tax which have not been deposited on account of any dispute except for the following:

Name of the statute	Nature of Dues	Amt. (Rs. in million)	Period to which the amount relates	Forum where the dispute is pending
GST Act	ITC Reversal	0.61	2017-18	Appellate Authority
GST Act	ITC Reversal	0.43	2017-18	Appellate Authority
GST Act	ITC Reversal	4.95	2018-19	Appellate Authority
GST Act	ITC Reversal	3.75	2017-18	Appellate Authority
GST Act	ITC Reversal	1.39	2018-19	Appellate Authority
GST Act	ITC Reversal	0.15	2019-20	Appellate Authority
GST Act	ITC Reversal	0.89	2018-19	Appellate Authority
Income Tax Act	Disallowance of Employees' contribution to PF/ESI	2.05	2018-19	Appellate Authority
Income Tax Act	Short TDS Credit	0.40	2018-19	Appellate Authority
Income Tax Act	Penalty appeal	0.39	2020-21	Appellate Authority
Income Tax Act	Addition U/s. 69A of the Act	10.00	2021-22	Appellate Authority
Income Tax Act	Short TDS Credit	145.65	2021-22	Appellate Authority
Income Tax Act	Short TDS Credit	14.82	2022-23	Appellate Authority
Income Tax Act	Short TDS Credit	14.16	2024-25	Appellate Authority

viii. According to the information and explanations given to us, no transactions or income, not recorded in the books of account, have been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961 (43 of 1961).

ix.

- In our opinion and according to the information and explanation given to us, the company has not defaulted in repayments of dues from any lender during the year.
- According to the information and explanation given to us, the company is not declared as willful defaulter by any bank or Financial Institution or any lender.
- In our opinion and according to the information and explanations given to us by the management, term loans were applied for the purpose for which the loans were obtained.
- According to the information and explanation given to us, the funds raised on short term basis have not been utilized for long-term purposes
- The Company does not have any subsidiaries, associates or joint ventures and hence clause ix(e) of the order is not applicable.
- The Company does not have any subsidiaries, associates or joint ventures and hence clause ix(f) of the order is not applicable.

x.

- According to the information and explanations given to us and on the basis of examination of records of the Company, the company has not raised any money by way of initial public offer or further public offer during the year. Hence the reporting requirement under clause 3(x)(a) is not applicable to the company.

- b) According to the information and explanations given to us and on the basis of examination of records of the Company, the company has not made any preferential allotment or private placement of shares or convertible debentures (fully, partially or optionally convertible) during the year. Hence the reporting requirement under clause 3(x)(b) is not applicable to the company.
- xii. a) According to the information and explanation given to us, no fraud on or by the company, by its officers and employees has been noticed or reported during the course of our audit.
- b) According to the information and explanations given to us, during the year, no report U/s 143(12) of the Companies Act, 2013 has been filed by secretarial auditor, or by us in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- c) According to the information and explanation given to us, no whistle-blower complaints have been received during the year by the company.
- xiii. In our opinion, the Company is not a Nidhi Company. Therefore, the provisions of Clause 3(xii)(a) to 3(xii)(c) of the order are not applicable to the Company and hence not commented upon.
- xiv. According to the information and explanations given to us and based on our examination of records of the Company, the transactions entered with related parties are in compliance with provisions of section 177 and 188 of the Act, where applicable and the details of such transactions are disclosed in the Standalone Financial Statements as required by the applicable accounting standards.
- xv. a) According to the information and explanation given to us, the company has an internal audit system commensurate with the size and nature of its business.
- b) The reports of the Internal Auditors of the company issued till date for the period under audit were considered by us.
- xvi. In our opinion, and according to the information and explanations given to us and based on our examination of records of the Company, the Company during the year has not entered into any non-cash transactions with directors or persons connected with the directors covered under the provisions of sec 192 of the Act and accordingly the provisions of clause (xv) of the Order are not applicable to the Company.
- xvii. a) In our opinion, the Company is required to be registered under section 45-1A of the RBI Act, 1934 (2 of 1934) and accordingly the registration certificate is obtained by the Company.
- b) According to the information and explanation given to us, the company has not conducted Non-Banking Financial or Housing Finance activities without a valid Certificate of Registration (CoR) from the Reserve Bank of India as per the Reserve Bank of India Act, 1934;
- c) According to the information and explanation given to us, the company is not a Core Investment Company (CIC) as defined in the regulations made by the RBI. Hence the clause 3(xvi)(c) of the Report is not applicable.

- d) According to the information and explanation given to us, there is one Core Investment Company (CIC) as part of the group.
- xvii. According to the information and explanation given to us, the company has not incurred cash losses during the financial year and in the immediately preceding financial year.
- xviii. There has been no resignation of the statutory auditor during the year and accordingly, the reporting requirement under clause 3(xviii) of the Order is not applicable to the Company.
- xix. According to the information and explanation given to us and on the basis of the financial ratios, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, and our knowledge of the BOD and management plans, we are of the opinion that no material uncertainty exists as on the date of the audit report and that company is capable of meeting its liabilities existing as at the date of balance sheet as and When they fall due within a period of 1 year from the balance sheet date.
- xx.
- a) According to the information and explanation given to us, there are no unspent amount in respect of other than ongoing projects which are required to be transferred to a Fund specified in Schedule 7 to the Companies Act, within a period of 6 months of the expiry of the financial year in compliance with second proviso to Sec 135(6) of the said Act.
- b) According to the information and explanation given to us, there are no unspent amount in respect of ongoing project which are required to be transferred to special account in compliance with the provision under section 135(6) of the said Act.
- xxi. The Company is not required to prepare consolidated financial statement and hence the provisions of clause of 3(21) is not applicable.

**Annexure-B to the Independent Auditor's Report on Standalone IND AS Financial Statements of
EDELWEISS RETAIL FINANCE LIMITED**

(Referred to in paragraph 1 (f) under 'Report on Other Legal and Regulatory Requirements' of our report of even date)

**Report on the Internal Financial Controls Over Financial reporting under Clause (i) of Sub-section 3 of
Section 143 of the Companies Act, 2013 ("the Act")**

We have audited the internal financial controls over financial reporting of **EDELWEISS RETAIL FINANCE LIMITED** ("the Company") as of March 31, 2025 in conjunction with our audit of the Standalone Financial Statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the Guidance Note") issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statement included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with Reference to these Financial Statements

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial

statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorizations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls with reference to these financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2025, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by ICAI.

Notes to the financial statement for the year ended March 31, 2025

1. Corporate Information:

Edelweiss Retail Finance Limited ('ERFL' or 'the Company') is a public limited company domiciled and incorporated under the provisions of the Companies Act applicable in India. The Company was originally incorporated on February 18, 1997 as "Affluent Dealcom Private Limited" which subsequently got converted to public limited on January 1, 2014 and then the Company's name changed to "Edelweiss Retail Finance Limited" with effect from January 6, 2014. The Company is subsidiary of Edelcap Securities Limited. ERFL is registered with the Reserve Bank of India (RBI) as a Systemically Important Non Deposit Accepting Non-Banking Financial Company.

As an NBFC-NDSI, the Company is primarily in business of lending and carries out only such activities as are permitted under the guidelines issued by RBI for NBFC-ND-SI

2. Basis of preparation:

The financial statements of the Company have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

These financial statements have been prepared on a historical cost basis, except for certain financial instruments such as, financial asset measured at fair value through other comprehensive income (FVOCI) instruments, derivative financial instruments, fair value through Profit or Loss and other financial assets held for trading, certain property plant and equipment which have been measured at fair value. The financial statements are presented in Indian Rupees (INR) and all values are rounded to the nearest million, except when otherwise indicated.

2.1 Presentation of financial statements:

The Company presents its balance sheet in order of liquidity in compliance with the Division III of the Schedule III to the Companies Act, 2013. An analysis regarding recovery or settlement within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in "Note 43 - Maturity Analysis of assets and liabilities".

Financial assets and financial liabilities are generally reported gross in the balance sheet. They are only offset and reported net when, in addition to having an unconditional legally enforceable right to offset the recognised amounts without being contingent on a future event, the parties also intend to settle on a net basis in all the following circumstances:

- The normal course of business
- The event of default
- The event of insolvency or bankruptcy of the Company and or its counterparties

3. Material accounting policies information

3.1 Recognition of Interest income and Dividend income

3.1.1 Effective Interest Rate (EIR):

Under Ind AS 109 interest income is recorded using the effective interest rate (EIR) method for all financial instruments measured at amortised cost. The EIR is the rate that exactly discounts estimated future cash flows through the expected life of the financial instrument or, when appropriate a shorter period to the gross carrying amount of financial instrument.

The EIR is calculated by taking into account any discount or premium on acquisition, fees and costs that are an integral part of the EIR. The Company recognises interest income using a rate of return that represents the best estimate of a constant rate of return over the expected life of the loan. Hence, it recognises the effect of potentially different interest rates charged at various stages, and other characteristics of the product life cycle including prepayments penalty interest and charges.

Edelweiss Retail Finance Limited

Notes to the financial statement for the year ended March 31, 2025

If expectations regarding the cash flows on the financial asset are revised for reasons other than credit risk, the adjustment is booked as a positive or negative adjustment to the carrying amount of the asset in the balance sheet with an increase or reduction in interest income.

3.1.2 Interest Income:

The company calculates interest income by applying the EIR to the gross carrying amount of financial assets other than credit-impaired assets.

When a financial asset becomes credit-impaired and is, therefore, regarded as 'Stage III', the Company calculates interest income by applying the EIR to the amortised cost (net of expected credit loss) of the financial asset. If the financial assets cures and is no longer credit-impaired, the Company reverts to calculating interest income on gross basis.

Penal interest income on delayed EMI / pre EMI is recognised on receipt basis.

3.1.3 Fee and Commission Income

Fee and commission income includes fee other than those that are an integral part of EIR. The Company recognises the fee and commission income in accordance with the terms of the relevant contracts / agreements and basis the probability of consideration collection.

3.1.4 Dividend Income

Dividend income is recognised when the Company's right to receive dividend is established on the reporting date.

3.1.5 Other Income

Other Income represents income earned from activities incidental to the business and is recognised when the right to receive income is established as per the terms of the contract. Other ancillary charges are recognized on realisation.

3.2 Financial Instruments:

3.2.1 Date of recognition:

Financial assets and liabilities except of debt securities and borrowings are initially recognised on the trade date, i.e. the date when Company becomes a party to the contractual provisions of the instrument. This includes regular ways of trade: purchase or sale of financial assets that require delivery of assets within the time frame generally established by regulation or convention in the market place. Loans are recognised when funds are transferred to the customers' account. The Company recognises borrowing when funds are available for utilisation to the Company.

3.2.2 Initial measurement of financial instruments:

Financial assets and financial liabilities are initially measured at fair value. Trade receivables are measured at transaction price. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in profit or loss.

3.2.3 Classification and Measurement categories of financial assets and liabilities:

The Company classifies all of its financial assets based on the business model for managing the assets and the asset's contractual terms, measured at either:

Edelweiss Retail Finance Limited

Notes to the financial statement for the year ended March 31, 2025

- Amortised cost
- Fair value through other comprehensive income [FVOCI]
- Fair value through profit or loss [FVTPL]

The Company measures debt financial assets at amortised cost basis the following conditions: that meet the following conditions at amortised cost:

- the financial asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Debt instruments that meet the following conditions are subsequently measured at fair value through other comprehensive income (except for debt instruments that are designated as at fair value through profit or loss on initial recognition):

- the financial asset is held within a business model whose objective is achieved both by collecting contractual cash flows and selling the financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

By default, all other financial assets are subsequently measured at FVTPL.

Financial assets carried at amortised cost (AC)

A financial asset is measured at amortised cost if it is held within a business model whose objective is to hold the asset in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in carrying value of financial assets is recognised in profit and loss account.

Financial assets at fair value through other comprehensive income (FVTOCI)-Loans

A financial asset is measured at FVTOCI if it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The changes in fair value of financial assets are recognised in Other Comprehensive Income.

Unrealised gains or losses on debt instruments measured at FVOCI are recognised in other comprehensive income, and on derecognition of such instrument accumulated gains or losses are recycled to profit and loss statement. Interest income on such instrument is recognised in profit and loss statements using EIR method.

Investment in equity instruments:

The Company subsequently measures all equity investments at fair value through profit or loss, unless the management has elected to classify irrevocably some of its strategic equity investments to be measured at FVOCI, when such instruments meet the definition of Equity under Ind AS 32 Financial Instruments: Presentation and are not held for trading. Such classification is determined on an instrument-by-instrument basis.

Financial assets at fair value through profit or loss (FVTPL)

A financial asset which is not classified in any of the above categories are measured at FVTPL. The Company measures all financial assets classified as FVTPL at fair value at each reporting date. The change in fair value of financial assets is recognised in Profit and loss account.

Edelweiss Retail Finance Limited

Notes to the financial statement for the year ended March 31, 2025

3.3 Financial Assets and Liabilities:

3.3.1 Financial assets held for trading:

The Company classifies financial assets as held for trading when they have been purchased primarily for short-term profit making through trading activities or form part of a portfolio of financial instruments that are managed together, for which evidence of recent pattern of short-term profit is taking. Held-for-trading assets are recorded and measured in the balance sheet at fair value. Changes in fair value are recognised in net gain on fair value changes.

3.3.2 Debt securities and other borrowed funds:

The Company measures debt issued and other borrowed funds at Amortised cost at each reporting date. Amortised cost is calculated by taking into account any discount or premium on issue funds, and costs that are an integral part of the EIR.

3.3.3 Financial Guarantee:

Financial guarantees are contract that requires the Company to make specified payments to reimburse the holder for loss that it incurs because a specified debtor fails to make payment when it is due in accordance with the terms of a debt instrument.

Financial guarantee issued or commitments to provide a loan at below market interest rate are initially measured at fair value and the initial fair value is amortised over the life of the guarantee or the commitment. Subsequently they are measured at higher of this amortised amount and the amount of loss allowance.

3.3.4 Loan Commitments:

Undrawn loan commitments are commitments under which, the Company is required to provide a loan with pre-specified terms to the customer over the duration of the commitment. Undrawn loan commitments are in the scope of the ECL requirements.

3.4 Reclassification of Financial assets and liabilities

The Company does not reclassify its financial assets subsequent to their initial recognition, apart from the exceptional circumstances in which the Company acquires, disposes of, or terminates a business line. Financial liabilities are never reclassified. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest

3.5 Derecognition of financial Instruments:

3.5.1 Derecognition of financial asset

A financial asset (or, where applicable a part of a financial asset or a part of a group of similar financial assets) is derecognised when the rights to receive contractual cash flows from the financial asset have expired. The Company also derecognises the financial asset if it has both, transferred the financial asset and the transfer qualifies for derecognition.

The Company has transferred the financial asset if, and only if, either:

- The Company has transferred the rights to receive cash flows from the financial asset or
- It retains the contractual rights to receive the cash flows of the financial asset, but assumed a contractual obligation to pay the cash flows in full without material delay to third party under pass through arrangement.

Edelweiss Retail Finance Limited
Notes to the financial statement for the year ended March 31, 2025

Pass-through arrangements are transactions whereby the Company retains the contractual rights to receive the cash flows of a financial asset (the 'original asset'), but assumes a contractual obligation to pay those cash flows to one or more entities (the 'eventual recipients'), when all of the following conditions are met:

- The Company has no obligation to pay amount to the eventual recipients unless it has collected equivalent amount from the original asset, excluding short-term advances with the right to full recovery of the amount lent plus accrued interest at market rates.
- The Company cannot sell or pledge the original asset other than as security to the eventual recipients.

The Company has to remit any cash flow it collects on behalf of the eventual recipients without material delay. In addition, the Company is not entitled to reinvest such cash flows, except for investments in cash or cash equivalents including interest earned, during the period between the collection date and the date of required remittance to the eventual recipients.

A transfer only qualifies for derecognition if either:

- The Company has transferred substantially all the risks and rewards of the asset; or
- The Company has neither transferred nor retained substantially all the risks and rewards of the asset but has transferred control of the asset.

The Company considers control to be transferred if and only if, the transferee has the practical ability to sell the asset in its entirety to an unrelated third party and is able to exercise that ability unilaterally and without imposing additional restrictions on the transfer.

The Company also derecognises a financial asset, when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new financial asset, with the difference recognised as a derecognition gain or loss, to the extent that an impairment loss has not already been recorded.

If the modification does not result in cash flows that are substantially different, the modification does not result in derecognition. Based on the change in cash flows discounted at the original EIR, the Company records a modification gain or loss, to the extent that an impairment loss has not already been recorded.

3.5.2 Derecognition of financial liabilities

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the consideration paid, including modified contractual cash flow recognised as new financial liability, is recognised in statement of profit or loss.

3.6 Impairment of financial assets:

The Company records provisions based on expected credit loss model ("ECL") on all loans, other financial assets not measured at FVTPL, undrawn loan commitment and financial guarantee contracts, in this section all referred to as "Financial instrument". Equity instruments are not subject to impairment.

ECL is a probability-weighted estimate of credit losses. A credit loss is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive discounted at the original effective interest rate. As ECL considers the amount and timing of payments, a credit loss arises even if the entity expects to be paid in full but later than when contractually due.

Simplified Approach

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables. The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on portfolio of its receivables. The provision matrix is based on its historically observed default rates over the expected life of the receivables. However, if receivables contain a significant financing component, the Company chooses as its accounting policy to measure the loss allowance by applying general approach to measure ECL.

General Approach

For all other financial instruments, the Company recognises lifetime ECL when there has been a significant increase in credit risk (SICR) since initial recognition. If, on the other hand, the credit risk on the financial instrument has not increased significantly since initial recognition, the Company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses (12m ECL). The assessment of whether lifetime ECL should be recognised is based on significant increases in the likelihood or risk of a default occurring since initial recognition instead of an evidence of a financial asset being credit-impaired at the reporting date or an actual default occurring.

Lifetime ECL represents the expected credit losses that will result from all possible default events over the expected life of a financial instrument. In contrast, 12m ECL represents the portion of lifetime ECL that is expected to result from default events on a financial instrument that are possible within 12 months after the reporting date.

The measurement of expected credit losses is a function of the probability of default (PD), loss given default (LGD) (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information. As for the exposure at default (EAD), for financial assets, this is represented by the assets' gross carrying amount at the reporting date; for loan commitments and financial guarantee contracts, the exposure includes the amount drawn down as at the reporting date, together with any additional amounts expected to be drawn down in the future by default date determined based on historical trend, the Company's understanding of the specific future financing needs of the debtors, and other relevant forward-looking information.

Company categorises its financial assets as follows:

Stage I Assets:

Stage I assets include financial instruments that did not have a significant increase in credit risk since initial recognition or that have low credit risk at the reporting date. For these assets, 12-month ECL (resulting from default events possible within 12 months from reporting date) are recognised.

Stage II Assets:

Stage II Assets include financial instruments that have a significant increase in credit risk since initial recognition. For these assets lifetime ECL (resulting from default events possible within 12 months from reporting date) are recognised.

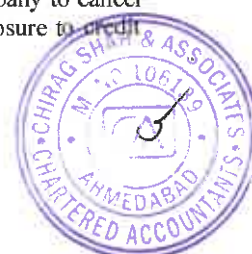

Stage III Assets:

Stage III Assets are considered credit-impaired, the Company recognises the lifetime ECL for these loans. The method is similar to that for Stage II assets, with the PD set at 100%.

Company recognises an impairment gain or loss in profit or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account.

The expected credit loss on the uncancellable loan commitment is recognised together with the loss allowance for the financial asset.

The Company's product offering includes working capital facilities with a right to Company to cancel and/or reduce the facilities with one day's notice. The Company does not limit its exposure to credit

Edelweiss Retail Finance Limited

Notes to the financial statement for the year ended March 31, 2025

losses to the contractual notice period, but, instead calculates ECL over a period that reflects the Company's expectations of the customer behaviour, its likelihood of default and the Company's future risk mitigation procedures, which could include reducing or cancelling the facilities.

3.7 Collateral Valuation:

To mitigate its credit risks on financial assets, the Company seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit /guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the Company's balance sheet. However, the fair value of collateral affects the calculation of ECL. It is generally assessed, at a minimum, at inception and re-assessed on a periodic basis. However, some collateral, for example, securities relating to margin requirements, is assessed on a daily basis.

To the extent possible, the Company uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market value are valued using models.

3.8 Collateral Repossessed:

The Company's policy is to determine whether a repossessed asset can be best used for its internal operations or should it be sold. Assets determined to be useful for the internal operations are transferred to their relevant asset category at the lower of their repossessed value or the carrying value of the original secured asset. Assets for which selling is determined to be a better option are transferred to assets held for sale at their fair value (if financial assets) and fair value less cost to sell for non-financial assets at the repossession date, in line with the Company's policy.

In its normal course of business, the Company does not physically repossess properties or other assets in its retail portfolio, but engages external agents to recover funds, generally at auction, to settle outstanding debt. Any surplus funds are returned to the customers/obligors. As a result of this practice, the residential properties under legal repossession processes are not recorded on the balance sheet.

3.9 Write-Offs:

Financial assets are written off either partially or in their entirety only when the Company has no reasonable expectation of recovery besides technical write off as per relevant policy.

3.10 Forborne and modified loan:

The Company sometimes make concessions or modifications to the original terms of loans as a response to the borrower's financial difficulties, rather than taking possession or to otherwise enforce collection of collateral. The Company considers a loan forborne when such concessions or modifications are provided as a result of the borrower's present or expected financial difficulties and the Company would not have agreed to them if the borrower had been financially healthy. Indicators of financial difficulties include defaults on covenants, significant concerns raised by the Credit Risk Department. Forbearance may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, any impairment measured using the original EIR as calculated before the modification of terms. It is the Company's policy to monitor forborne loans to help ensure that future payments continue to be likely to occur. If these procedures identify a loss in relation to a loan, it is disclosed and managed as an impaired Stage III forborne asset and Company continues to monitor until, it is collected or written off.

3.11 Determination of Fair Value:

The Company measures financial instruments, such as, derivatives at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either;

- In the principal market for the asset or liability, or

Edelweiss Retail Finance Limited
Notes to the financial statement for the year ended March 31, 2025

- In the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use, when pricing the asset or liability, assuming that market participants act in their economic best interest. A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use. The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques, as summarised below:

Level 1 Financial Instruments:

Those where the inputs used in the valuation are unadjusted quoted prices from active markets for identical assets or liabilities that the Company has access to at the measurement date. The Company considers markets as active only if there are sufficient trading activities with regards to the volume and liquidity of the identical assets or liabilities and when there are binding and exercisable price quotes available on the balance sheet date.

Level 2 Financial Instruments:

Those where the inputs that are used for valuation and are significant, are derived directly or indirectly from observable market data available over the entire period of the instrument's life.

Level 3 Financial Instruments:

Those that include one or more unobservable input that is significant to the measurement as whole. For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period. The Company periodically reviews its valuation techniques including the adopted methodologies and model calibrations.

Therefore, the Company applies various techniques to estimate the credit risk associated with its financial instruments measured at fair value, which include a portfolio-based approach that estimates the expected net exposure per counterparty over the full lifetime of the individual assets, in order to reflect the credit risk of the individual counterparties for non-collateralised financial instruments.

The Company evaluates the levelling at each reporting period on an instrument-by-instrument basis and reclassifies instruments when necessary based on the facts at the end of the reporting period.

3.12 Leases:

Company as a lessee:

The Company has applied Ind AS 116 using the partial retrospective approach.

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right of Use Assets:

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-

Edelweiss Retail Finance Limited
Notes to the financial statement for the year ended March 31, 2025

use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short term lease

The Company has elected not to recognise right of use asset and lease liabilities for short term leases of property that has lease term of 12 months or less. The Company recognises lease payment associated with these leases as an expense on a straight line basis over lease term.

Company as lessor:

The Company's accounting policy under Ind AS 116 has not changed from the comparative period. As a lessor the Company classifies its leases as either operating or finance leases. A lease is classified as a finance lease if it transfers substantially all the risks and rewards incidental to ownership of the underlying asset and classified as an operating lease if it does not.

3.13 Earnings Per Share:

Basic earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by the weighted average number of equity shares outstanding for the year.

Diluted earnings per share reflect the potential dilution that could occur if securities or other contracts to issue equity shares were exercised or converted during the year. Diluted earnings per share is computed by dividing the net profit after tax attributable to the equity shareholders for the year by weighted average number of equity shares considered for deriving basic earnings per share and weighted average number of equity shares that could have been issued upon conversion of all potential equity shares.

3.14 Retirement and other employee benefit:

3.14.1 Provident fund and National Pension Scheme:

The Company contributes to a recognised provident fund and national pension scheme which is a defined contribution scheme. The contributions are accounted for on an accrual basis and recognised in the statement of profit and loss.

3.14.2 Gratuity:

The Company's gratuity scheme is a defined benefit plan. The Company's net obligation in respect of the gratuity benefit scheme is calculated by estimating the amount of future benefit that the employees have earned in return for their service in the current and prior periods, that benefit is discounted to determine its present value, and the fair value of any plan assets, if any, is deducted. The present value of the obligation under such benefit plan is determined based on independent actuarial valuation using the Projected Unit Credit Method.

Edelweiss Retail Finance Limited
Notes to the financial statement for the year ended March 31, 2025

Re-measurement, comprising of actuarial gains and losses, the effect of the asset ceiling, excluding amounts included in net interest on the net defined benefit liability and the return on plan assets (excluding amounts included in net interest on the net defined benefit liability), are recognised immediately in the balance sheet with a corresponding debit or credit to retained earnings through OCI in the period in which they occur.

Remeasurement are not reclassified to profit or loss in subsequent periods.

3.14.3 Compensated Absences:

The eligible employees of the Company are permitted to carry forward certain number of their annual leave entitlement to subsequent years, subject to a ceiling. The Company recognises the charge in the statement of profit and loss and corresponding liability on such non-vesting accumulated leave entitlement based on a valuation by an independent actuary. The cost of providing annual leave benefits is determined using the projected unit credit method.

3.14.4 Equity-settled share-based payments and Stock Appreciation Rights (SARs):

Equity-settled share-based payments to employees are granted by the ultimate parent Company. These are measured by reference to the fair value of the equity instruments at the grant date. These includes Stock Appreciation Rights (SARs) where the right to receive the difference between the SAR price and the market price of equity shares of the ultimate parent Company on the date of exercise, either by way of cash or issuance of equity shares of the ultimate parent Company, is at the discretion of the ultimate parent Company. These are classified as equity settled share based transaction.

The fair value determined at the grant date of the equity-settled share-based payments is expensed over the vesting period, based on the Group's estimate of equity instruments that will eventually vest, with a corresponding increase in equity. At the end of each reporting period, the Group revises its estimate of the number of equity instruments expected to vest. The impact of the revision of the original estimates, if any, is recognised in profit or loss such that the cumulative expense reflects the revised estimate, with a corresponding adjustment to the 'ESOP reserve'. In cases where the share options granted vest in instalments over the vesting period, the Group treats each instalment as a separate grant, because each instalment has a different vesting period, and hence the fair value of each instalment differs.

3.15 Property, Plant and Equipment (PPE):

Property, plant and equipment is stated at cost excluding the costs of day-to-day servicing, less accumulated depreciation and accumulated impairment in value. Changes in the expected useful life are accounted for by changing the amortisation period or methodology, as appropriate, and treated as changes in accounting estimates.

Subsequent costs incurred on an item of property, plant and equipment is recognised in the carrying amount thereof when those costs meet the recognition criteria as mentioned above. Repairs and maintenance are recognised in profit or loss as incurred.

Depreciation is recognised so as to write off the cost of assets (other than freehold land and properties under construction) less their residual values over their useful lives. Depreciation is provided on a written down value basis from the date the asset is ready for its intended use or put to use whichever is earlier. In respect of assets sold, depreciation is provided upto the date of disposal.

As per the requirement of Schedule II of the Companies Act, 2013, the Company has evaluated the useful lives of the respective fixed assets which are as per the provisions of Part C of the Schedule II for calculating the depreciation. The estimated useful lives of the fixed assets are as follows:

Nature of assets	Estimated useful lives
Furniture and fixtures	10 years
Vehicles	8 years

Edelweiss Retail Finance Limited**Notes to the financial statement for the year ended March 31, 2025**

Office Equipment	5 years
Computers - Servers and networks	6 years
Computers - End user devices, such as desktops, laptops, etc.	3 years

Leasehold improvements are amortised on a straight-line basis over the estimated useful lives of the assets or the period of lease whichever is earlier.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. The carrying amount of those components which have been separately recognised as assets is derecognised at the time of replacement thereof. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

The residual values, useful lives and methods of depreciation of property, plant and equipment are reviewed at each financial year end and adjusted prospectively, if appropriate.

3.16 Intangible Assets:

Intangible assets are recorded at the consideration paid for the acquisition of such assets and are carried at cost less accumulated amortization and impairment, if any. Intangibles such as software are amortised over a period of 3 years based on its estimated useful life.

3.17 Impairment of non-financial assets:

The Company assesses at each balance sheet date whether there is any indication that an asset may be impaired based on internal/external factors. If any such indication exists, the Company estimates the recoverable amount of the asset. If such recoverable amount of the asset or the recoverable amount of cash generating unit which the asset belongs to is less than its carrying amount, the carrying amount is reduced to its recoverable amount. The reduction is treated as an impairment loss and is recognized in the statement of profit and loss. If at the balance sheet date there is an indication that a previously assessed impairment loss no longer exists, the recoverable amount is reassessed and the assets is reflected at the recoverable amount subject to a maximum of the depreciable historical cost.

3.18 Provisions and other contingent liabilities:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that the Company will be required to settle the obligation, and a reliable estimate can be made of the amount of the obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows to net present value using an appropriate pre-tax discount rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability.

A present obligation that arises from past events, where it is either not probable that an outflow of resources will be required to settle or a reliable estimate of the amount cannot be made, is disclosed as a contingent liability. Contingent liabilities are also disclosed when there is a possible obligation arising from past events, the existence of which will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Claims against the Company, where the possibility of any outflow of resources in settlement is remote, are not disclosed as contingent liabilities.

Contingent assets are not recognised in the financial statements since this may result in the recognition of income that may never be realised. However, when the realisation of income is virtually certain, then the related asset is not a contingent asset and is recognised.

3.19 Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise of cash at banks and in hand and short-term deposits with an original maturity of three months or less.

3.20 Income tax expenses:

Income tax expense represents the sum of the tax currently payable and deferred tax.

3.20.1 Current tax:

The tax currently payable is based on taxable profit for the year. Taxable profit differs from 'profit before tax' as reported in the statement of profit and loss because of items of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Company's current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

3.20.2 Deferred tax:

Deferred tax is recognised on temporary differences arising between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent it is probable that taxable profits will be available against which those deductible temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred tax liabilities and assets are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset realised, based on tax rates (and tax laws) that have been enacted or substantively enacted by the end of the reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Company expects, at the end of the reporting period, to recover or settle the carrying amount of its assets and liabilities.

3.20.3 Current and Deferred tax for the year:

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively.

4. Significant accounting judgements, estimates and assumptions:

The preparation of these financial statements in conformity with Ind AS requires the management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amount of assets, liabilities, incomes and expenses. Actual results may differ from those estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation, uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the standalone financial statements are included are given below:

4.1 Business model assessment:

The Company determines the business model at a level that reflects how the financial assets are managed together to achieve a particular business objective. This assessment includes judgement reflecting all relevant evidence including how the performance of the assets is evaluated and their performance measured, the risks that affect the performance of the assets and how these are managed and how the managers of the assets are compensated. The Company monitors financial assets measured at amortised cost that are derecognised prior to their maturity to understand the reason for their disposal and whether the reasons are consistent with the objective of the business for which the asset was held. Monitoring is part of the Company's continuous assessment of whether the business model for which the remaining financial assets are held continues to be appropriate and if it is not appropriate whether there has been a change in business model and so a prospective change to the classification of those instruments.

4.2 Significant increase in credit risk:

As explained in note 49.1, ECL is measured as an allowance equal to 12-month ECL for Stage I assets, or lifetime ECL for Stage II or Stage III assets. An asset moves to Stage II when its credit risk has increased significantly since initial recognition. Ind AS 109 does not define what constitutes a significant increase in credit risk. In assessing whether the credit risk of an asset has significantly increased the Company takes into account qualitative and quantitative reasonable and supportable forward-looking information. Refer to note 49.1 for more details.

4.3 Key sources of estimation uncertainty:

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period that may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, as described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

4.4 Fair value of financial instruments:

The Fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Company uses its judgement to select a variety of methods and make assumptions based on market conditions existing at the end of each reporting period. Judgements and estimates include consideration of liquidity and model inputs related to items such as credit risk, funding value adjustments, correlation and volatility.

4.5 Effective Interest Rate (EIR) Method:

The Company's EIR methodology, as explained in Note 3.1.1, recognises interest income / expense using a rate of return that represents the best estimate of a constant rate of return over the expected behavioural life of loans given / taken and recognises the effect of potentially different interest rates at various stages and other characteristics of the product life cycle including prepayments and penalty interest and charges.

This estimation, by nature requires an element of judgement regarding the expected behaviour and life cycle of the instrument, as well expected changes India's base rate and other fee income, expenses that are integral part of the instrument

4.6 Impairment of Financial assets:

The impairment provisions for the financial assets except assets valued at fair value through Profit & Loss account (FVTPL) are based on assumptions about estimation of the amount and timing of future cash flows, collateral values, assessment of a significant increase in credit risk, probability of default (PD) and Loss given default (LGD) rates. The Company uses judgements in making these assumptions and selecting the inputs for impairment calculations based on its past history, existing market conditions

Edelweiss Retail Finance Limited

Notes to the financial statement for the year ended March 31, 2025

and forward looking estimates at the end of each period. These estimates are driven by number of factors, change in which can result in different level of allowance.

The Company's expected credit loss (ECL) calculations are output of complex model with number of underlying assumptions regarding choice of variable inputs and their interdependencies. Elements of the ECL models that are considered accounting judgements and estimates include:

- The Company's internal credit grading model, which assigns PDs to the individual grades based on ageing.
- The Company's criteria for assessing if there has been a significant increase in credit risk and so allowances for financial assets should be measured on a LTECL basis and the qualitative assessment.
- The segmentation of financial assets when their ECL is assessed on a collective basis.
- Development of ECL models, including the various formulas and the choice of inputs Determination of associations between macroeconomic scenarios and, economic inputs, such as unemployment levels and collateral values, and the effect on PDs, EADs and LGDs.
- Selection of forward-looking macroeconomic scenarios and their probability weightings, to derive the economic inputs into the ECL models.

It has been the Company's policy to regularly review its models in the context of actual loss experience and adjust when necessary.

6. Recent Accounting Pronouncement:

Ministry of Corporate affairs ("MCA") notifies new Standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2024, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

7. A Scheme of Amalgamation for the merger of the Transferor Company with ECL Finance Limited (the Transferee Company) has been initiated under Sections 230 to 232 of the Companies Act, 2013. The scheme was filed with the BSE on June 12, 2024, and with the NSE on June 13, 2024. On October 10, 2024, both exchanges issued observation letters with no adverse comments. Additionally, on June 12, 2024, the Company had applied to the Reserve Bank of India (RBI) for confirmation of its previous approval related to the merger and RBI vide its letter dated February 7, 2025 conveyed its no objection to the Scheme. Later, the Transferor Company and the Transferee Company filed a joint application before Hon'ble National Company Law Tribunal, Mumbai Bench and the matter was heard on April 25, 2025 and is reserved for order.

Note: For movement in Other Equity, refer 'Statement of changes in Equity'

29.1. Nature and purpose of Reserves**(a) Capital reserve**

Capital reserve represents the gains of capital nature which is not freely available for distribution.

(b) Securities Premium

Securities premium is used to record the premium on issue of shares. Balance in Securities premium can be utilised only for limited purposes such as issuance of bonus shares in accordance with the provisions of the Companies Act, 2013.

(c) Special Reserve under Section 45-IC of the Reserve Bank of India Act, 1934

Reserve created under section 45-IC of the Reserve Bank of India Act, 1934 a sum not less than twenty per cent of its net profit every year as disclosed in the profit and loss account and before any dividend is declared.

(d) Debenture Redemption Reserve

The Company being an NBFC is required to create and maintain debenture redemption reserve (DRR) equivalent to 25% of the public issue of debentures, as required by Companies Act, 2013. The amounts credited to the DRR may not be utilised except on redemption of such debentures. On redemption of debentures, the amount may be transferred from debenture redemption reserve to retained earnings. However, as per the recent amendment to the Companies Act 2013, NBFCs are no longer required to create and maintain DRR. Accordingly, the Company has not created incremental DRR on existing public issue of debentures, post the said amendment, though the Company continues to maintain the DRR created earlier till the maturity of these debentures.

(e) Deemed capital contribution - Equity

This reserve relates to share options granted to eligible employees of the Company by the parent company under its employee share option plan.

(f) Retained Earnings

Retained earnings comprises of the Company's undistributed earnings after taxes.

Edelweiss Retail Finance Limited
Notes to the financial statements for year ended March 31, 2025 (Continued)
(Currency : Indian rupees in millions)

40. Earnings per Share

Basic earnings per share is calculated by dividing the profit attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period.

	For the year ended March 31, 2025	For the year ended March 31, 2024
Net Profit attributable to Equity holders of the Company - A	91.02	144.18
Weighted average Number of Shares		
- Number of equity shares outstanding at the beginning of the year	42.95	42.95
- Number of equity shares issued during the year	-	-
Total number of equity shares outstanding at the end of the year	42.95	42.95
Weighted average number of equity shares outstanding during the year (based on the date of issue of shares) - B	42.95	42.95
Nominal value of equity shares	10.00	10.00
Basic and diluted earnings per share (in rupees) (A/B)	2.12	3.36

The basic and diluted earnings per share are the same as there are no dilutive/ potential equity shares issued or outstanding as at the year end.

41. Contingent Liability and Commitment:

(a) Contingent Liability

	As at March 31, 2025	As at March 31, 2024
Taxation matters	12.19	5.50
Litigation pending against the company	Nil	Nil

The Company's pending litigations mainly comprise of claims against the Company pertaining to proceedings pending with Income Tax and other authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed as contingent liabilities where applicable, in the financial statements. The Company believes that the outcome of these proceedings will not have a materially adverse effect on the Company's financial position and results of operation.

(b) Commitment:

	As at March 31, 2025	As at March 31, 2024
Estimated amount of contracts remaining to be executed on capital account	-	9.47
Loan sanctioned pending disbursements	-	100.06
AIF Fund pending commitments	897.85	988.05

42. Retirement and other employee benefits

(a) Defined contribution plan - Provident funds

In accordance with Employees' Provident Fund and Miscellaneous Provisions Act, 1952, employees of the Company are entitled to receive benefits under the provident fund, a defined contribution plan, in which, both the employee and the Company contribute monthly at a determined rate. These contributions are made to a recognized provident fund administered by Regional Provident Fund Commissioner. The employees contribute 12% of their basic salary and the Company contributes an equal amount.

The Company recognised as of March 31, 2025 Rs. 7.72 millions (March 31, 2024 : Rs 10.11 millions) for provident fund in the Statement of profit and loss.

(b) Defined benefit plan - Gratuity

In accordance with the Payment of Gratuity Act, 1972, the Company provides for gratuity, a defined benefit plan covering all employees. The plan provides a lump sum payment to vested employees at retirement or termination of employment in accordance with the rules laid down in the Payment of Gratuity Act, 1972. The gratuity benefit is partially provided through funded plan and annual expense is charged to the statement of profit and loss on the basis of actuarial valuation.

The most recent actuarial valuation of plan assets and the present value of the defined benefit obligation (DBO) for gratuity were carried out as at March 31, 2025. The present value of the defined benefit obligations and the related current service cost and past service cost, were measured using the Projected Unit Credit Method.

Based on the actuarial valuation obtained in this respect, the following table sets out the status of the gratuity plan and the amounts recognised in the Company's financial statements as at balance sheet date:

	As at March 31, 2025	As at March 31, 2024
Present value of defined benefit obligations (A)	8.80	9.11
Fair Value of plan assets (B)	-	-
Present value of defined benefit obligations (A-B)	8.80	9.11
Net deficit / (assets) are analysed as:		
Liabilities	-	9.11
Assets	8.80	-

Movement in net defined benefit (asset) liability:

The following table shows a reconciliation from the opening balances to the closing balances for net defined benefit (asset) liability and its components:

	Defined benefit obligation		Fair value of plan assets		Net defined benefit (asset) liability	
	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024	March 31, 2025	March 31, 2024
(i) Present value of defined benefit obligations (opening)	9.11	9.11	-	-	9.11	9.11
Current service cost	1.63	2.09	-	-	1.63	2.09

47. Cost sharing

Edelweiss Financial Services Limited, being the ultimate holding Company along with fellow subsidiaries incurs expenditure like common senior management compensation cost, Group mediclaim, insurance, rent, electricity charges etc. which is for the common benefit of itself and its certain subsidiaries, fellow subsidiaries including the Company. This cost so expended is reimbursed by the Company on the basis of number of employees, time spent by employees of other Companies, actual identifications etc. On the same lines, employees' costs expended (if any) by the Company for the benefit of fellow subsidiaries is recovered by the Company. Accordingly, and as identified by the management, the expenditure heads in note 37 include reimbursements (received)/paid and are net of reimbursements paid/(received). Based on the management's best estimate, Rs. 43.12 million was paid (net of reimbursements received) during the year (Previous year Rs. 33.66 million).

48. Risk Management

(a) Introduction and risk profile

Risk is an integral element of the Company's operations. When the Company extends a corporate or retail loan, buys or sells securities in market, or offers other products or services, the Company takes on some degree of risk. Risk management is the process of identifying, assessing, and prioritizing risks followed by a coordinated efforts to minimize, monitor, and control the likelihood or impact of unforeseen events. It outlines the specific risks the organization faces, their potential impact, and the likelihood of their occurrence.

The Company follows following for effective risk management:

- 1) Acceptance of responsibility, including identification and escalation of risk issues, by all individuals within the Company;
- 2) Ownership of risk identification, assessment, data and management within each of the lines of business and Corporate; and
- 3) Firmwide structures for risk governance

By understanding its risk profile, an organization can make informed decisions, allocate resources effectively, and implement appropriate risk management strategies to protect its assets, reputation, and long-term viability.

(b) Risk Management Structure

We have a well-defined risk management policy framework for risk identification, assessment and control to effectively manage risks associated with the various business activities. The risk function is monitored primarily by the business risk group.

Our risk management policy ensures that the margin requirements are conservative to be able to withstand market volatility and scenarios of sharply declining prices. As a result, we follow conservative lending norms. The Group centralises the risk monitoring systems to monitor our client's credit exposure which is in addition to the monitoring undertaken by the respective businesses.

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board has established the Risk Management Committee, which is responsible for developing and monitoring the Company's risk management policies. The Committee holds regular meetings and report to board on its activities. This structure typically outlines roles, responsibilities, processes, and tools to ensure effective risk management.

The audit committee oversees how management monitors compliance with the Company's risk management policies and procedures, and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. Conducting audits, evaluating the effectiveness of risk management strategies, and identifying areas for improvement. The audit committee is assisted in its oversight role by internal audit. Internal audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

(c) Risk mitigation and risk culture

The Company's business processes are designed to ensure full independence of functions and a clear segregation of responsibilities. Our credit appraisal and credit control processes, along with a centralized operations unit and an independent audit unit, provide comprehensive checks to ensure compliance with established policies and approve loans at the transaction level. Additionally, our risk management processes and policies include multiple layers of verification and oversight. The head of our business or operations regularly monitors these key processes. Furthermore, our loan approval, administration, collection, and enforcement procedures are specifically designed to minimize delinquencies and maximize recoveries.

At all levels of the Company's operations, specifically tailored risk reports are prepared and distributed in order to ensure that all business divisions have access to extensive, necessary and up-to-date information. The risk mitigation involves minimizing the effects of risks to an acceptable level, ensuring the organization can continue to operate smoothly despite uncertainties. Effective risk mitigation helps protect an organization's assets, reputation, and long-term success.

It is the Company's policy that a monthly / quarterly briefing is given to the Board of Directors and all other relevant members of the Company in the utilisation of market limits, proprietary investments and liquidity, plus any other risk developments.

It is the Company's policy to ensure that a robust risk awareness is embedded in its organisational risk culture. Employees are expected to take ownership and be accountable for the risks the Company is exposed to. It is integral to the Company's policy that every employee understands the risks the business is exposed to, both in their specific role and within the broader context of the organization's operations. The Company's continuous training and development emphasises that employees are made aware of the Company's risk appetite and they are supported in their roles and responsibilities to monitor and keep their exposure to risk within the Company's risk appetite limits. Compliance breaches and internal audit findings are important elements of employees' annual ratings and remuneration reviews.

(d) Types of Risks

The Company's risks are generally categorized in the following risk types:

Risk	Exposure Arising from	Measurement	Management of risk
Credit Risk	Credit risk is the possibility of a loss resulting from a borrower's failure to repay a loan or meet their financial obligations as per the agreed terms. It refers to the risk that a borrower or counterparty may default on their debt, either by failing to make scheduled payments or by not fulfilling other contractual obligations, leading to financial losses for the lender or investor.	Arises principally from financing, dealing in Corporate Bonds, Investments in Mutual Fund, Equity, but also from certain other products such as guarantees and derivatives	1) Measured as the amount that could be lost if a customer or counterparty fails to make repayments; 2) Monitoring indicators that might signal an increased likelihood of default. These can include a decline in credit ratings, payment delays, changes in macroeconomic conditions, or negative news about a borrower's financial performance. 3) Monitored using various internal risk management measures and within limits approved by individuals within a framework of delegated authorities; and 4) Managed through a robust risk control framework, which outlines clear and consistent policies, principles and guidance for risk managers.
Liquidity Risk	Liquidity risk is the risk that we do not have sufficient financial resources to meet our obligations as they fall due or that we can only do so at an excessive cost.	Liquidity risk arises from mismatches in the timing of cash flows. Arises from disruptions in financial markets, such as market crashes or credit freezes, which can reduce the availability of financing or the ability to sell assets. Relying on a limited number of funding sources increases liquidity risk. Arises when illiquid asset positions cannot be funded at the expected terms and when required.	1) Measured using a range of metrics, including Asset Liability mismatch, Debt Equity Ratio, Current ratio, Quick Ratio, Cash ratio. 2) Measures the difference between available liquid assets and short-term liabilities, helping identify potential liquidity shortages. 3) Regular monitoring of funding levels to ensure to meet the requirement for Business and maturity of our liabilities 4) Maintain diverse sources of funding and liquid assets to facilitate flexibility in meeting our liquidity requirements of the Company 5) Maintaining a buffer of liquid assets (such as cash or marketable securities) to ensure the company can meet its short-term obligations without resorting to debt. 6) Conducting regular audits of liquidity management practices and reviewing policies to ensure alignment with best practices and regulatory requirements.
Market Risk	Market risk is the risk that movements in market factors, such as Interest rates, equity prices and Index prices, will reduce our income or the value of our portfolios	Exposure to market risk is separated into two portfolios: trading and non-trading. Changes in stock prices can affect investments and portfolios that are exposed to the equity market. Rising inflation erodes the purchasing power of money, affecting both costs and returns on investments. Fluctuations in interest rates can negatively affect the value of fixed-income securities	1) Measured using sensitivities, detailed picture of potential gains and losses for a range of market movements and scenarios. 2) Create stress testing tools which simulates extreme market scenarios (e.g., sharp interest rate hikes, economic crashes) to assess the portfolio's response. 3) Utilizes financial instruments to offset potential losses from market movements. 4) Monitored using measures, including the sensitivity of net interest income. 5) Managed using risk limits approved by the risk management committee

49.1. Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations. It arises when a counterparty defaults on a payment, whether it's interest or principal, or if the value of collateral backing the loan declines. The Company has adopted a policy of dealing with creditworthy counterparties and obtains sufficient collateral, where appropriate, as a means of mitigating the risk of financial loss from defaults. In case the loans are to be restructured, similar credit assessment process is followed by the Company.

Credit risk can arise from various sources, including borrower default, credit rating downgrades, a decline in collateral value, concentration of exposure to a single borrower or sector, economic downturns, and counterparty risk in derivative contracts.

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

The Company manages and controls credit risk by setting limits on the amount of risk it is willing to accept for individual counterparties/Groups (Single Borrowing Limit/Group Borrowing Limit) and for industry concentrations, and by monitoring exposures in relation to such limits.

To measure credit risk, the Company employs a variety of tools and models. These include credit scoring, which assesses the likelihood of borrower default, and credit ratings from recognized agencies to evaluate the creditworthiness of borrowers. Key metrics such as Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD) are used to assess both the likelihood of default and the potential severity of losses.

Credit quality of a customer is assessed based on its credit worthiness and historical dealings with the Company and market intelligence. Outstanding customer receivables are regularly monitored. The credit quality review process aims to allow the Company to assess the potential loss as a result of the risks to which it is exposed and take corrective actions.

(a) Impairment Assessment:

The Company applies the expected credit loss model for recognising impairment loss. The expected credit loss allowance is computed based on a provision matrix which takes into account historical credit loss experience and adjusted for forward-looking information.

The expected credit loss is a product of exposure at default, probability of default and loss given default. The Company has devised an internal model to evaluate the probability of default and loss given default based on the parameters set out in Ind AS. Accordingly, the loans are classified into various stages as follows:

Internal rating grade	Internal grading description	Stages
Performing		
High grade	0 dpd and 1 to 30 dpd*	Stage I
Standard grade	31 to 90 dpd*	Stage II
Credit Impaired		
Individually impaired	NPA*	Stage III

*Excluding non performing asset (NPA)

**Represent loan assets classified as NPA as per the extant RBI guidelines

(b) Expected Credit Loss

Credit loss is the difference between all contractual cash flows that are due to an entity in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. Expected Credit Loss (ECL) computation is not driven by any single methodology, however methodology and approach used must reflect the following:

- An unbiased and probability weighted amount that evaluates a range of possible outcomes
- Reasonable and supportable information that is available without undue cost and effort at the reporting date about past events, current conditions and forecasts of future economic conditions;
- Time value of money

While the time value of money element is currently being factored into ECL measurement while discounting cash flows by the Effective Interest Rate (EIR), the objective of developing a macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the first two requirements. This has been achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

(c) Significant increase in credit risk (SICR)

Company considers a financial instrument defaulted, classified as Stage 3 (credit-impaired) for ECL calculations, in all cases when the borrower becomes 90 days past due or classified as non performing asset (NPA) as per RBI guidelines. Classification of assets from stage 1 to stage 2 has been carried out based on SICR criterion. Accounts which are more than 30 days past due have been identified as accounts where significant increase in credit risk has been observed. These accounts have been classified as Stage 2 assets. When such events occur, the Company carefully considers whether the event should result in treating the customer as defaulted and therefore assessed as Stage 3 for ECL calculations or whether Stage 2 is appropriate.

(d) Probability of Default

Probability of default (PD) is an estimate of the likelihood of default over a given time horizon. PD estimation process is done based on historical internal data available with the Company. While arriving at the PD, the Company also ensures that the factors that affects the macro economic trends are considered to a reasonable extent, wherever necessary. Company calculates the 12 month PD by taking into account the past historical trends of the Loans/portfolio and its credit performance. In case of assets where there is a significant increase in credit risk / credit impaired assets, lifetime PD has been applied.

(e) Loss Given Default (LGD)

The LGD represents expected losses on the EAD given the event of default, taking into account, among other attributes, the mitigating effect of collateral value at the time it is expected to be realised and the time value of money. The Loss Given Default (LGD) has been computed with workout methodology. Along with actual recoveries, value of the underlying collateral has been factored in to estimate future recoveries in LGD computation. Workout LGD computation involves the actual recoveries as well as future recoveries (as a part of the workout process) on a particular facility, as a percentage of balance outstanding at the time of Default/Restructuring. The assessment of workout LGD was then performed. Principal outstanding each loan was assessed, which went into the denominator of the LGD calculation. LGD computation has been done for each segment and sub-segment separately.

(f) Exposure at Default (EAD)

The amount which the borrower will owe to the portfolio at the time of default is defined as Exposure at Default (EAD). While the drawn credit line reflects the explicit exposure for the Company, there might be variable exposure that may increase the EAD. These exposures are of the nature where the Company provides future commitments, in addition to the current credit. Therefore, the exposure will contain both on and off balance sheet values. The value of exposure is given by the following formula:

$$\text{EAD} = \text{Drawn Credit Line} + \text{Credit Conversion Factor} * \text{Undrawn Credit Line} + \text{Interest Accrual for one year}$$

Where

Drawn Credit Line = Current outstanding amount

Credit Conversion Factor (CCF) = Expected future drawdown as a proportion of undrawn amount

Undrawn Credit Line = Difference between the total amount which the Company has committed and the drawn credit line While the drawn exposure and limits for the customer are available, the modelling of CCF is required for computing the EAD

(g) Forward looking adjustments

"A measure of ECL is an unbiased probability-weighted amount that is determined by evaluating a range of possible outcomes and using reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions."

To fulfil the above requirement Company has incorporated forward looking information into its measurement of ECL. The objective of developing a macroeconomic model using exogenous macroeconomic variables (MEVs) is to address the requirements of unbiased, probability weighted outcomes while taking into account current conditions as well as future economic conditions. This will be achieved by using the model output to adjust the PD risk component in order to make it forward looking and probability-weighted.

Exogenous macroeconomic parameters were used as independent (X) variables to predict the dependent (Y) variable. The Company formulates base case view of the future direction of relevant economic variable as well as a representative range of other possible forecast scenario. This involves developing two or more additional economic scenarios and considering the relative probabilities of

(h) Data sourcing

The Company is expected to obtain reasonable and supportable information that is available without undue cost or effort. Keeping in mind the above requirement macroeconomic information was aggregated from various research database like RBI database, Economic Intelligence Unit (EIU), Bloomberg, World Bank, Citi research etc. Beyond 2022 macro-economic variables are forecasted by mean reverting the values to their long term average. External information includes economic data and forecasts published by governmental bodies and monetary authorities in the country, supranational organisations such as the OECD and the IMF, and selected private sector and academic forecasters.

(i) Probability weighted scenario creations:

To incorporate macroeconomic impact into probability-weighted, each scenario has an associated probability. In order to ensure consistency across macroeconomic models, these probabilities were calculated at an overall level for both Retail and Non-Retail portfolios, considering the impact of a scenario across different portfolios may differ based on endogenous factors, the probability of a scenario unfolding is purely exogenous, and hence should not vary.

The Company has identified and documented key drivers of credit risk and credit losses for each portfolio of financial instruments and using an analysis of historical data, has estimated relationship between macro-economic variables and credit risk and credit losses.

Predicted relationship between the key indicators and default and loss rates on various portfolios of financial assets have been developed based on analysing historical data over the past years.

49.1. Credit Risk

49.1.1. Analysis of risk concentration

The following table shows the risk concentration by industry for the components of the balance sheet. Additional disclosures for credit quality and the maximum exposure for credit risk per categories based on the Company's internal credit assessment system and year-end stage classification are further disclosed in Note 11.

Industry analysis

As at March 31, 2025	Financial services	Retail	Construction	Wholesale	Total
Financial assets

49.1. Credit Risk

49.1.3. Overview of modified and forborne loans

The table below includes assets that were modified and, therefore, treated as forborne during the year, with the related modification gain / (loss) suffered by the Company.

Particulars	For the year ended March 31, 2025	For the year ended March 31, 2024
Amortised costs of financial assets modified during the	-	-
Net modification gain / (loss)	-	-

49.1.4. Transfer of financial assets

Transferred financial assets that are not derecognised in their entirety

The following tables provide a summary of financial assets that have been transferred in such a way that part or all of the transferred financial assets do not qualify for derecognition, together with the associated

	As at March 31, 2025	As at March 31, 2024
Securitisations		
Carrying amount of transferred assets (held as Collateral)	779.75	750.29
Carrying amount of associated liabilities	747.19	806.90
Fair value of assets	521.47	887.09
Fair value of associated liabilities	499.69	806.90
Net position at FV	21.78	80.19

49.2. Liquidity Risk

Liquidity risk is defined as the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Liquidity risk arises because of the possibility that the Company might be unable to meet its payment obligations when they fall due as a result of mismatches in the timing of the cash flows under both normal and stress circumstance.

The company has financing arrangement from banks/ financial institutions in form of committed credit lines.

49.2.1. Analysis of non-derivative financial assets and liabilities by remaining contractual maturities

As at March 31, 2025	On demand	1 to 14 days	15 days to 1 month	1 month to 2 months	2 months to 3 months	3 months to 6 months	6 months to 1 year	1 year to 3 years	3 years to 5 years	Over 5 years	Total
A. Financial Assets:											
Cash and cash equivalent and other bank balances	872.32	-	-	-	-	-	103.30	-	-	-	975.62

Note - The company has financing arrangement from banks/ financial institutions in form of committed credit lines. Undrawn committed credit lines as at March 31, 2024 is Nil.

The table below shows the expected maturity of the Company's loan commitments

Undrawn loan commitments	-	-	-	100.06	-	-	-	-	-	-	100.06
Total	-	-	-	100.06	-	-	-	-	-	-	100.06

49.2. Liquidity Risk

49.2.3. Financial assets available to support future funding

Following table sets out availability of company's financial assets to support funding

As at March 31, 2025	Encumbered Pledge as collateral	Contractually/ legally restricted assets	Unencumbered Available as collateral	Others	Total carrying amount
Cash and cash equivalent including bank balance	102.33	-	873.29	-	975.62
Securities held for trading	-	-	-	-	-
Trade receivables	-	-	13.27	-	13.27
Loans	1,192.75	667.46	1,216.78	98.32	3,175.31
Investments	-	179.64	4,876.85	-	5,056.49
Property, Plant and Equipment (Land)	0.37	-	-	-	0.37
Other financial assets	-	-	13.28	-	13.28
Total assets	1,295.44	847.10	6,993.47	98.32	9,234.34

As at March 31, 2024	Encumbered Pledge as collateral	Contractually/ legally restricted assets	Unencumbered Available as collateral	Others	Total carrying amount
Cash and cash equivalent including bank balance	102.23	-	357.94	-	460.17
Securities held for trading	-	-	-	-	-
Trade receivables	-	-	0.69	-	0.69
Loans	1,100.51	697.52	5,364.33	10.59	7,172.94
Investments	-	1,543.92	675.42	-	2,219.34
Property, Plant and Equipment (Land)	0.37	-	-	-	0.37
Other financial assets	-	18.23	-	-	18.23
Total assets	1,203.12	2,259.67	6,398.38	10.59	9,871.74

Notes:-

- 1 Represents assets which are not pledged and Group believes it is restricted from using to secure funding for legal or other reason
- 2 Represents assets which are not restricted for use as collateral, but that the group would not consider readily available to secure funding in the normal course of business

49.3. Market Risk

Market risk is the risk associated with the effect of changes in market factors such as interest rates, equity prices, credit spreads or implied volatilities, on the value of assets and liabilities held resulting in loss of future earnings. The objective of the Company's market risk management is to manage and control market risk exposures within acceptable parameters. The Company separates its exposure to market risks between trading and non-trading portfolios.

Exposure to market risk – Non trading portfolios

Interest rate risk - The principal risk to which non-trading portfolios are exposed is the risk of loss from fluctuations in the future cash flows or fair values of financial instruments because of a change in market interest rates. Interest rate risk is managed principally through monitoring interest rate gaps and by having pre-approved limits for repricing bands.

ALCO is the monitoring body for compliance with these limits. ALCO reviews the interest rate gap statement and the mix of floating and fixed rate assets and liabilities. Balance Sheet Management Unit is in-charge for day to day management of interest rate risk.

49.3.1 Total market risk exposure

The fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as interest rates. The Company classifies its exposures to market risk into non-trading portfolios.

Particulars	As at March 31, 2025			As at March 31, 2024			Primary risk sensitivity
	Carrying amount	Traded risk	Non-traded risk	Carrying amount	Traded risk	Non-traded risk	
Financial Assets							
Cash and cash equivalent and other bank balances	975.62	-	975.62	460.17	-	460.17	Interest rate
Loans	3,175.31	-	3,175.31	7,172.94	-	7,172.94	Interest rate
Investments	5,056.49	-	5,056.49	2,219.34	-	2,219.34	Interest rate
Trade receivables	13.27	-	13.27	0.69	-	0.69	
Other financial assets	13.28	-	13.28	18.23	-	18.23	
Total	9,233.97	-	9,233.97	9,871.37	-	9,871.37	
Financial Liability							
Debt securities	1,173.26	-	1,173.26	1,166.41	-	1,166.41	Interest rate
Borrowings (other than Debt Securities)	65.67	-	65.67	254.47	-	254.47	Interest rate
Subordinated Liabilities	2,279.94	-	2,279.94	2,233.62	-	2,233.62	Interest rate
Trade payables	60.88	-	60.88	177.70	-	177.70	
Other liabilities	706.50	-	706.50	697.72	-	697.72	
Total	4,286.25	-	4,286.25	4,529.93	-	4,529.93	

49.3. Market Risk

49.3.2 Interest rate risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows of financial instruments. The sensitivity of the statement of profit and loss is the effect of the assumed changes in interest rates on the profit or loss for a year, based on the floating rate non-trading financial assets and financial liabilities held as at year end.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates (all other variables being constant) of the Company's statement of profit and loss and equity.

For the year ended	Increase/ (Decrease) in basis points	Increase in profit after tax	Decrease in profit after tax	Increase in Equity	(Decrease) in Equity
INR Loans					
March 31, 2025	25/(25)	1.10	(1.10)	1.10	(1.10)

50.1. Fair Value measurement:

A. Valuation principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e., an exit price), regardless of whether that price is directly observable or estimated using a valuation technique. In order to show how fair values have been derived, financial instruments are classified based on a hierarchy of valuation techniques:

Level 1 – valuation technique using quoted market price: financial instruments with quoted prices for identical instruments in active markets that company can access at the measurement date.

Level 2 – valuation technique using observable inputs: Those where the inputs that are used for valuation and are significant, are derived from directly or indirectly observable market data available over the entire period of the instrument's life.

Level 3 – valuation technique with significant unobservable inputs: Those that include one or more unobservable input that is significant to the measurement as whole.

Refer note 3.11 for more details on fair value hierarchy

B. Valuation governance framework

The Company's fair value methodology and the governance over its models includes a number of controls and other procedures to ensure appropriate safeguards are in place to ensure its quality and adequacy. All new product initiatives (including their valuation methodologies) are subject to approvals by various functions of the Company including the risk and finance functions.

Where fair values are determined by reference to externally quoted prices or observable pricing inputs to models, independent price determination or validation is used. For inactive markets, Company sources alternative market information, with greater weight given to information that is considered to be more relevant and reliable.

The responsibility of ongoing measurement resides with the business and product line divisions. However finance department is also responsible for establishing procedures governing valuation and ensuring fair values are in compliance with accounting standards.

C. The following table shows an analysis of financial instruments recorded at fair value by level of the fair value hierarchy

As at March 31, 2025	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Investment				
Corporate Bonds	-	4,104.35	-	4,104.35
Total financial instruments measured at fair value - A	-	4,104.35	-	4,104.35
Investment				
Security Receipts (SR)	-	-	179.64	179.64
Total financial instruments measured at fair value - B	-	-	179.64	179.64
Investment				
Units of AIF	-	-	772.50	772.50
Total financial instruments measured at fair value - C	-	-	772.50	772.50
Total (A+B+C)	-	4,104.35	952.14	5,056.49
As at March 31, 2024	Level 1	Level 2	Level 3	Total
Assets measured at fair value on a recurring basis				
Investment				
Corporate Bonds	1.99	-	-	1.99
Total financial instruments measured at fair value - A	1.99	-	-	1.99
Investment				
Security receipts	-	-	1,543.92	1,543.92
Total financial instruments measured at fair value - B	-	-	1,543.92	1,543.92
Investment				
Units of AIF	-	-	673.43	673.43
Total financial instruments measured at fair value - C	-	-	673.43	673.43
Total (A+B+C)	1.99	-	2,217.35	2,219.33

D. Valuation Techniques:

Debt Securities

Whilst most of these instruments are standard fixed rate securities, however nifty linked debentures have embedded derivative characteristics. Fair value of these instruments is derived based on the indicative quotes of price and yields prevailing in the market as at the reporting date. Company has used quoted price of national stock exchange wherever bonds are traded actively. In cases where debt securities are not actively traded Company has used CRISIL Corporate Bond Valuer model for measuring fair value.

Security Receipts

The market for these securities is not active. Investments in SRs issued by ARCs shall be valued periodically by reckoning the Net Asset Value (NAV) declared by the ARC and as per RBI guidelines. Securities receipts with significant unobservable valuation inputs are classified as Level 3.

E. There have been no transfers between levels during the year ended March 31, 2025 and March 31, 2024.

F. The following table shows a reconciliation of the opening balances and the closing balances for fair value measurements in Level 3 of the fair value hierarchy.

Financial year ended March 2025	Security Receipts	Units of AIF	Total
Investments - at April 1, 2024	1,543.92	673.43	2,217.35
Purchase	-	24.27	24.27
Sale/Redemption proceeds	(927.91)	(31.57)	(959.48)
Profit/(loss) for the year recognised in profit or loss	(436.36)	106.36	(330.00)
FV losses under R&R reimbursed by ultimate holding co	-	-	-
Investments - at March 31, 2025	179.64	772.50	952.14
Unrealised gain/(Loss) related to balances held at the end of the year	(113.89)	80.13	(33.75)
Financial year ended March 2024	Security receipts	Units of AIF	Total
Investments - at April 1, 2023	783.61	2,331.80	3,115.40
Purchase	1,614.01	40.75	1,654.76
Sale/Redemption proceeds	(855.34)	(1,813.90)	(2,669.23)
Profit for the year recognised in profit or loss	(14.11)	114.78	100.67
FV losses under R&R reimbursed by ultimate holding co	15.75	-	15.75
Investments - at March 31, 2024	1,543.92	673.43	2,217.35
Unrealised gain/(Loss) related to balances held at the end of the year	(93.93)	21.28	(72.65)

50.1. Fair Value measurement:

G. Impact on fair value of level 3 financial instrument of changes to key unobservable inputs

The below table summarises the valuation techniques together with the significant unobservable inputs used to calculate the fair value of the Company's Level 3 Instruments i.e. Securities receipts. The range of values indicates the highest and lowest level input used in the valuation technique and, as such, only reflects the characteristics of the instruments as opposed to the level of uncertainty to their valuation. Relationships between unobservable inputs have not been incorporated in this summary.

Type of Financial Instruments	Fair value of asset as on 31 March 2025	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Security Receipts (SR)	179.64	Net Asset Value Method	Book Value	293.53	5% increase in Expected future Cash flow	14.68	5% Decrease in Expected future Cash flow	(14.68)
Units of AIF	722.50	Net Asset Value Method	Fair value of underlying investments	722.50	5% Increase in Fair value of Underlying Investment	38.62	5% Increase in Fair value of Underlying Investment	(38.62)

Type of Financial Instruments	Fair value of asset as on 31 March 2024	Valuation techniques	Significant unobservable input	Range of estimates for unobservable input	Increase in the unobservable input	Change in fair value	Decrease in the unobservable input	Change in fair value
Security Receipts	1,543.92	Net Asset Value Method	Book Value	1,450.02	5% increase in Expected future Cash flow	72.50	5% Decrease in Expected future Cash flow	(72.50)
Units of AIF	673.43	Net Asset Value Method	Fair value of underlying investments	673.43	5% Increase in Fair value of Underlying Investment	33.67	5% Increase in Fair value of Underlying Investment	(33.67)

50.2. Financial instruments not measured at fair value

The following table sets out the fair values of financial instruments not measured at fair value and analysing them by the level in the fair value hierarchy into which each fair value measurement is categorised.

As on March 31, 2025	Total Carrying Amount	Total fair value	Level 1	Level 2	Level 3
Financial assets					
Loans	3,175.31	3,350.61	-	-	3,350.61
Total	3,175.31	3,350.61	-	-	3,350.61
Financial liabilities					
Debt securities	1,173.26	1,210.43	-	1,210.43	-
Subordinated liabilities	2,279.94	2,287.07	-	2,287.07	-
Total	3,453.20	3,497.50	-	3,497.50	-
As on March 31, 2024					
Financial assets:					
Loans	7,172.94	6,919.42	-	-	6,919.42
Total	7,172.94	6,919.42	-	-	6,919.42
Financial liabilities					
Debt securities	1,166.41	1,212.39	-	1,212.39	-
Subordinated liabilities	2,233.62	2,249.86	-	2,249.86	-
Total	3,400.03	3,462.25	-	3,462.25	-

50.3 Valuation methodologies of financial instruments not measured at fair value

Below are the methodologies and assumptions used to determine fair values for the above financial instruments which are not recorded and measured at fair value in the Company's financial statements. These fair values were calculated for disclosure purposes only. The below methodologies and assumptions relate only to the instruments in the above tables and, as such, may differ from the techniques and assumptions explained in notes.

Short term financial assets and liabilities

For financial assets and financial liabilities that have a short-term maturity (less than twelve months), the carrying amounts are a reasonable approximation of their fair value. Such instruments include: Trade receivables, trade payables and contract liability without a specific maturity. Such amounts have been classified as Level 2 on the basis that no adjustments have been made to the balances in the balance sheet. Cash and cash equivalent and Bank balances other than cash and cash equivalents have been classified as Level 1.

Financial assets at amortised cost

The fair values of financial assets measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields incorporating the counterparties' credit risk. In case of floating interest rate linked loans, since such loans are subject to repricing periodically (less than twelve months), with the interest rate reflecting current market price. Hence carrying value of loans is deemed to be equivalent of fair value.

Issued debt

The fair value of issued debt is estimated by a discounted cash flow model incorporating the Company's own credit risk.

Financial liabilities at amortised cost

The fair values of financial liabilities measured at amortised cost are estimated using a discounted cash flow model based on contractual cash flows using actual or estimated yields and discounting by yields. In case of floating interest rate linked borrowings, since such borrowings are subject to repricing periodically (less than twelve months), with the interest rate reflecting current market price. Hence carrying value of such borrowings is deemed to be equivalent of fair value.

51. Trade receivables

Provision matrix for Trade receivables

Particulars	Trade receivables days past due	1-90days	91-180 days	181-365 days	more than 365 days	Total
ECL rate		0.33%	0.00%	0.00%	100.00%	
As at March 31, 2025	Estimated total gross carrying amount at default	13.31	-	-	-	13.31
	ECL - Simplified approach	(0.04)	-	-	-	(0.04)
	Net carrying amount	13.27	-	-	-	13.27
As at March 31, 2024	Estimated total gross carrying amount at default	0.21	0.52	0.00	0.62	1.35
	ECL - Simplified approach	(0.00)	(0.04)	-	(0.62)	(0.66)
	Net carrying amount	0.21	0.48	-	(0.00)	0.69

52. Details of the loan taken from Banks and other parties

Nature of Security and terms of repayment for secured borrowings

All Secured long term borrowings are secured by way of hypothecation of receivables i.e. loans & advances.

56. Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company complies with externally imposed capital requirements from its regulators and maintains strong credit ratings and healthy capital ratios in order to support its business and to maximise shareholder value.

(a) The Pillars of its policy are as follows:

- Maintain diversity of sources of financing and spreading the maturity across tenure buckets in order to minimize liquidity risk.
- Maintain investment grade ratings for all its liabilities issuances domestically and internationally by ensuring that the financial strength of their balance sheets are preserved.
- Manage financial market risks arising from Interest rate, equity prices and minimise the impact of market volatility on earnings.
- Leverage optimally in order to maximise shareholder returns while maintaining strength and flexibility of balance sheet.

This framework is adjusted based on underlying macro-economic factors affecting business environment, financial market conditions and interest rates environment

(b) Regulatory Capital

The below regulatory capital is computed in accordance with Master Direction – Reserve Bank of India (Non-Banking Financial Company –Scale Based Regulation) Directions, 2023 (RBI/DoR/2023-24/106 DoR.FIN.REC.No.45/03.10.119/2023-24) dated October 19, 2023.

Particulars	As at March 31, 2025	As at March 31, 2024
Capital Funds		
Common Equity Tier1 (CET1) capital	1,156.94	3,559.63
Other Tier 2 capital instruments (CET2)	309.14	718.19
Total capital	1,466.08	4,277.82
Risk weighted assets	4,233.56	7,447.09
Tier 1 Capital ratio*	27.33%	47.80%
Tier 2 Capital ratio	7.30%	9.64%
Total Capital ratio*	34.63%	57.44%

*Capital adequacy ratio is reduced on account of increase in group company exposure and fair valuation impact of security receipts.

57. Other Disclosures

(i) Details of dues to micro enterprise and small enterprise

Trade Payables includes Nil amount payable to “Suppliers” registered under the Micro, Small and Medium Enterprises Development Act, 2006. (Previous Year 0.01 million) Interest paid by the company during the year to “Suppliers” registered under this Act is Nil (Previous year: 0.02 million). The aforementioned is based on the responses received by the company to its inquiries with suppliers with regard to applicability under the said Act

(ii) Disclosure under regulation 53(f) of SEBI (Listing obligations and disclosure Requirements) Regulations, 2015

The company being a retail finance company, disclosure of current ratio, long term debt to working capital, Bad debts to Account receivable ratio, Current liability ratio, Debtors turnover, Inventory turnover, Operating margin are not applicable.

1. Debt-equity Ratio = Total Debt (Debt Securities + Borrowings (other than debt securities) + Subordinated Liabilities) / Net worth

2. Net worth = Share capital + Share application money pending allotment + Reserves & Surplus – Deferred Tax Assets

3. Total debts to total assets = Total Debt / Total assets

4. Net profit margin (%) = Net profit after tax / Revenue from Operations

5. As per RBI guidelines on Liquidity Risk Management Framework, all non-deposit taking NBFCs with asset size of Rs. 5,000 crore shall maintain the required level of Liquidity coverage ratio (LCR) starting December 1, 2020 in phased manner from 30% to 100% by December 1, 2024. As at March 31, 2025, the Company's asset size is less than Rs. 5,000 crores and hence minimum LCR maintenance is not mandatory for the Company.

57. Other Disclosures

(viii) Registration of charges or satisfaction with Registrar of Companies (ROC)

No charges or satisfaction yet to be registered with ROC beyond the statutory period by the company.

(ix) Compliance with number of layers of companies

The provision of this act shall not be applicable as the company is a non-banking financial company as defined in the Reserve Bank of India Act, 1934 (2 of 1934) which is registered with the Reserve Bank of India and considered as systemically important non-banking financial company by the Reserve Bank of India as per the exceptions prescribed under clause (87) of section 2 of the Act read with Companies (Restriction on number of Layers) Rules, 2017.

(x) Utilisation of Borrowed funds and share premium:

(A) During the year, the company has not advanced or loaned or invested funds to any other person(s) or entity(ies), including foreign entities (Intermediaries) with the understanding that the Intermediary shall:

(i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (Ultimate Beneficiaries) or

(ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries

(B) During the year, the Company has not received any fund from any person(s) or entity(ies), including foreign entities (Funding Party) with the understanding (whether recorded in writing or otherwise) that the Company shall:

(i) directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party(Ultimate Beneficiaries) or

(ii) provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries

(xi) Details of Benami Property held

There are no proceedings which have been initiated or pending against the company for holding any benami property under the Benami Transactions (Prohibition) Act, 1988 (45 of 1988) and rules made thereunder.

(xii) Undisclosed income

The Company will not hav any transaction which not recorded in the books of accounts that has been surrendered or disclosed as income during the year in the tax assessments under the Income Tax Act, 1961

(xiii) Rounding of amounts

All amounts disclosed in the financial statements and notes have been rounded off to the nearest million as per the requirements.

Edelweiss Retail Finance Limited**Notes to the financial statements for year ended March 31, 2025 (Continued)**

Edelweiss Retail Finance Limited**Notes to the financial statements for year ended March 31, 2025 (Continued)**

(Currency : Indian rupees in millions)

58. Regulatory Disclosures**(x) Details of single borrower limit and group borrower limit exceeded by the Company:**

During the year ended 31 March 2025, the Company's credit exposure to single borrowers and group borrowers were within the limits prescribed by the RBI, except exposure to below entity. (Previous year: Nil)

City Gold Education Research Limited

The above loans were disbursed within in the limit of Single Borrower Limit (SBL) and Group Borrower Limit (GBL) as defined in Master Direction – Reserve Bank of India (Non-Banking Financial Company – Scale Based Regulation) Directions, 2023 as amended time to time. However this was a passive breach in SBL due to reduction of Net Owned Fund of FY 2024 on account of increase in Group exposure.

(xi) Unsecured Advances

The company has not taken any charges over the rights, licences, authorisation etc against unsecured loan given to borrowers.

(xii) Fraud Reporting

There were no instances of fraud identified and reported during the year (Previous Year Nil) as required in terms of Chapter II paragraph 5 of Monitoring of frauds in NBFCs (Reserve Bank) Directions, 2016.

(xiii) Remuneration of Directors

The company has not entered into any transaction with non-executive directors during the year (Previous Year Rs. Nil) except disclosure made in table below:

Details of transaction with non executives directors

Name of Directors	Nature of transaction	For the year ended March 31, 2025	For the year ended March 31, 2024
Mr. Vinod Juneja	Sitting fees	0.70	0.49
Mr. Sunil Phatarpohar	Sitting fees	0.74	0.46

(xiv) Net profit or loss for the period, prior period items and changes in accounting policy

There are no prior period items (previous year Rs: Nil) and there are no changes in accounting policies during the year.

(xv) Details of 'provisions and contingencies'

Break up of 'provisions and contingencies' shown under the head expenditure in statement of profit and loss.	For the year ended March 31, 2025	For the year ended March 31, 2024
(i) Provision for depreciation on investment	-	-
(ii) Provision towards NPA (Stage III loans)	(9.56)	20.95
(iii) Provision made towards income tax	24.78	22.40
(iv) Provision for Standard loans (Stage I & II loans)	(47.90)	(50.34)
(v) Other provision and contingencies	50.00	-

Edelweiss Retail Finance Limited**Notes to the financial statements for year ended March 31, 2025 (Continued)**

(Currency : Indian rupees in millions)

58. Regulatory Disclosures**(xvi) Draw down from Reserves**

The Company has drawn Rs. Nil (Previous Year Nil) from the debenture redemption reserve and transferred to retained earnings on redemption of debentures till March 31, 2025. Further, pursuant to the amendments in the Companies Act, 2013, debenture redemption reserve is not required to be created for debentures issued by Non-Banking Finance Companies (including Housing Finance Companies) regulated by Reserve Bank of India.

(xvii) Concentration of deposits, advances, exposures and NPAs

A) Concentration of Deposits (for deposit taking NBFCs)	As at March 31, 2025	As at March 31, 2024
Total Deposits to twenty largest depositors	NA	NA
% of Deposits of twenty largest depositors to total Deposit taking NBFC	NA	NA
B) Concentration of advances	As at March 31, 2025	As at March 31, 2024
Total advances to twenty largest borrowers	2,333.96	5,245.46
% of advances to twenty largest borrowers to total advances	70.49%	71.20%
C) Concentration of exposures (includes Off balance sheet exposure)		
Total exposures to twenty largest borrowers / customers	2,333.96	5,345.46
% of exposures to twenty largest borrowers / customers to total Exposure	70.49%	71.58%
D) Concentration of NPAs		
Total exposures to top four NPAs	58.97	77.18
E) Intra group exposures	As at March 31, 2025	As at March 31, 2024
i) Total amount of intra-group exposures	4,416.22	4,598.47
ii) Total amount of top 20 intra-group exposures	4,416.22	4,598.47
iii) Percentage of intra-group exposures to total exposure of the NBFC on borrowers/customers	52.78%	47.47%
F) Sector-wise NPAs	As at March 31, 2025	As at March 31, 2024
% of NPAs to total advances in that sector		
1 Agriculture & allied activities	0.00%	0.00%
2 MSME	9.49%	3.94%
3 Corporate borrowers	0.40%	0.20%
4 Services	2.78%	1.55%

f) Institutional set-up for liquidity risk management

The Board of Directors of the Company has constituted the Asset Liability Management Committee and the Risk Management Committee.

The Asset Liability Management Committee, inter alia

- Implement and administer guidelines on Asset-Liability Management approved by the Board and its revision, if any;
- Monitor the asset liability gap and overcome the asset-liability mismatches, interest risk exposure, etc.; Strategize action to mitigate risk associated with the asset liability gap;
- Develop risk policies and procedures and verify adherence to various risk parameters and prudential limits; review the risk monitoring system and ensure effective risk management; and
- Ensure that the credit and investment exposure to any party / Company / group of parties or companies does not exceed the internally set limits as well as statutory limits as prescribed by Reserve Bank of India from time to time.
- Company has a Liquidity Contingency Policy in place to ensure various liquidity parameters are defined and tracked regularly. Liquidity Management Team is provided with update on expected liquidity shortfalls in Normal as well as Stress scenario.
- the Company has ensured maintenance of a Liquidity Cushion in the form of Mutual Funds and liquid fixed deposits with banks, etc. These assets carry minimal credit risk and can be liquidated in a very short period of time. A comfortable liquidity cushion is maintained of the borrowings. These would be to take care of immediate obligations while continuing to honour our commitments as a going concern.
- There are available lines of credit from banks which are drawable on notice which further augment the available sources of funds.

59. Breach of covenant
