A. Women Empowerment:

EdelGive Foundation's Women Empowerment Portfolio aims to empower women and girls by fostering an ecosystem of collaborative action. By partnering with high-caliber NGOs dedicated to tackling violence against women and promoting women's safety, EdelGive has formed the Coalition for Women Empowerment (CWE) to address social and economic inequities that hinder women and girls from reaching their full potential. The CWE program focuses on five key priority areas: freedom from violence and discrimination, access to legal justice, grassroots leadership, rights and entitlements, and freedom from economic dependence.

The CWE program aims to break the cycle of economic dependence and enable women to achieve financial autonomy. By working with NGO partners, EdelGive aims to create a future where women and girls in India can thrive, unleashing their full potential and shaping a brighter, more inclusive society.
