

CHINTU GUDIYA FOUNDATION

Chintu Gudiya Foundation is a private family foundation based in San Francisco, CA that strives to support the organizations working in cross multiple sectors, including Sanitation, Health, Education, Adolescent Girls, Sports for Children, and Philanthropic Giving. In the past, it has funded US-based NGOs and organizations developing open-source software for the public good. Currently working with NGOs in India, it is also supporting Tech4Dev initiative to use software tools to improve the programmatic operations of organizations, thereby nurturing and fostering a vibrant and thriving software ecosystem in the country's non-profit and social impact organizations.
