

## MAITRI TRUST

---

Set up in 2006 in Edinburgh in the UK, The Maitri Trust facilitates the philanthropic giving of Stewart Investors and funds improvements in the quality of education by supporting both small and large organisations in India, South Africa and Mexico that have both the potential to effect broad change long - term and the ability to reflect and adapt. With a resonating belief in strengthening local networks across communities and encouraging mutual trust and transparency, as a response to the Covid-19 crisis, The Maitri Trust partnered with EdelGive Foundation to further our implementing partners' efforts towards relief and rehabilitation of vulnerable communities affected due to the pandemic.
