

THE WILLIAM FLORA HEWLETT FOUNDATION

Established in 1966, the William and Flora Hewlett Foundation is a nonpartisan, private charitable foundation that advances ideas and supports institutions to promote a better world. Internationally, the organisation has supported efforts to advance education, preserve the environment, improve lives and livelihoods, and promote the health and economic well-being of women.

The Foundation joined our funding fraternity to support Edelgive in our efforts to build a network of well-informed, influential leaders who can sustain and grow the movement for clean energy in India. Through the support of the Foundation, the EdelGive- India Climate Collaborative Alliance works towards bolstering the collective strength of the climate community in India to advise multiple stakeholders and additionally strengthen climate mitigation knowledge and capacity among domestic donors.
