EDELGIVE and HURUN INDIA release EdelGive Hurun India Philanthropy List 2022

(20 October 2022, Mumbai) [Hurun India](#) and [EdelGive](#) today released the *EdelGive Hurun India Philanthropy List 2022*. This is the 9th annual ranking of the most generous individuals in India. This is our attempt to highlight India's remarkable givers and to capture the growing importance of individual givers in India's philanthropic landscape towards nation-building. Donations were measured by the value of their cash or cash equivalents from 1 April 2021 to 31 March 2022. This is the ninth year of the list and it follows on from the [Hurun India Rich List](#), a ranking of 1,103 richest individuals in India, released in September 2022 for the eleventh year.

EdelGive Foundation has partnered with Hurun India towards creating this report to understand philanthropic giving in the country from a data and evidence point of view. The report is not only significant in understanding data of giving but also throws light on the sectors and geographies that are at the receiving end of this giving. Through this report, we aim to bring to notice the strength of the social sector and access areas which require further growth.

This year's *EdelGive Hurun India Philanthropy List 2022* features individuals who have donated INR 5 crore or more during the period under review.

"We are pleased to associate with Hurun India for the fourth consecutive year for the launch of EdelGive Hurun India Philanthropy List. Our focus remains the same on bringing forth one of the most authoritative lists of philanthropists in India. Like every year, we aim to document and analyze the evolving patterns of philanthropic giving in the country. The *EdelGive Hurun India Philanthropy List 2022* presents us with an opportunity to deep dive into the motivations and thoughts that drive these eminent philanthropists to contribute towards a plethora of causes." **Naghma Mulla, CEO, EdelGive Foundation.**

Commenting on the launch, Anas Rahman Junaid, MD and Chief Researcher, Hurun India, said, "EdelGive Hurun India Philanthropy List aims at chronicling the Indian philanthropy landscape and so far the transformation is encouraging. For instance, over the last 5 years, number of donors who have given more than INR 100 crore have grown from 2 to 15, and over INR 50 crore have grown from 5 to 20. Considering wealth creation potential of India and assuming that the billionaires keep up with philanthropy, I expect these numbers to at least double over the next 5 years."

"The cohort of senior and young tech entrepreneurs holds the potential to play a crucial role in meeting the country's social sector fund requirement. For instance, Nikhil and Nithin Kamath and Binny Bansal increased their donations by more than 100% compared to last year. Many such acts from founders of start-ups could kick the Indian philanthropy curve into a higher orbit."

"I am very stoked to see the rise in personal philanthropy in India. Cumulative personal donations grew by 50% to INR 3097 crore, and this constitutes 55% of donation in the list. *EdelGive Hurun India Philanthropy List* narrates the modern India's giving culture through the eyes of the philanthropists."

"Sustainability as a cause has received accelerated attention last year. For instance, donation towards Environment and Sustainability increased by 46%, to INR 193 crore, compared to last year. I believe that CSR will play a key role in India meeting sustainable development goals (SDG) by 2030 and achieving net zero emissions by 2070."

"In the midst of extreme challenges, charitable giving has been a silver lining. Giving back to society is deeply embedded in our culture and some of the most generous good Samaritans are Indians. With total donations estimated at US\$102.4bn, Mumbai-based Jamsetji Tata (1839-1904), was the world's biggest philanthropist of the last century in the 2021 EdelGive Hurun Philanthropists of the Century, a ranking of the world's most generous individuals from the past century."

"As wealth grows, family philanthropy is becoming more visible and slowly shifting away from random acts of giving food, clothes and scholarships to new and marginalised areas. This further accentuates the need to celebrate such efforts, so that it percolates down to every level of the community – the core objective of *EdelGive Hurun India Philanthropy List*," concluded **Anas Rahman Junaid, MD and Chief Researcher, Hurun India.**

Larsen & Toubro's Group executive chairman **AM Naik** is ranked 10th with a donation of **INR 142 crore** in FY22. He has demonstrated that philanthropy is more than writing out a cheque

and is intensely outcome-oriented and based on a professional approach to the act of giving. Naik's philanthropy, carried out exclusively in his personal capacity, is sharply focused on three segments – healthcare, education, and skill-building. Most activities are carried out by the two trusts that he set up in 2010 – the Nirali Memorial Medical Trust and the A M Naik Charitable Trust.

Methodology

To put together a comprehensive list of the largest philanthropists of India is an almost impossible task. However, we at Hurun believe that, the *EdelGive Hurun India Philanthropy List* is the most serious and authoritative effort to date, identifying the individuals and highlighting the causes they donate to. To make this list, the Hurun Report surveyed India's most successful entrepreneurs, including those from the Hurun India Rich List 2022, meticulously cross-referencing the results with media reports and charitable foundations. In the course of the research, Hurun Report attended non-profit related seminars, as well as meeting with scholars, experts, philanthropists, and senior members of charitable foundations.

Hurun Report includes cash and cash equivalents pledged with legally binding commitments for the twelve months from 1 April 2021 to 31 March 2022, and the latest available CSR data filed with the Ministry of Corporate Affairs.

Hurun Report included donations made by companies in which an individual had a significant share by applying the percentage the individual has of the company on the donations. So, for example, Biocon for the period made donations of INR 8 crore, and Kiran Mazumdar-Shaw holds 60.68% of the shares of the company, so Hurun Report recorded Shaw's donations as INR 4.92 crore. In 2015, Azim Premji had transferred a significant part of his shareholding amounting to 39% of the shares of Wipro to trust and foundation, which had been taken into account that year. Since this is a one-time philanthropic donation, it has not been included this year.

The list only includes those individuals born and bred in India regardless of the passport they currently hold. Values are rounded, and past figures are subject to exchange rate fluctuations.

About Hurun India

“Promoting Entrepreneurship Through Lists and Research”

Hurun India was launched in 2012, under the leadership of [Anas Rahman Junaid](#), a graduate of the University of Oxford. Junaid met Rupert Hoogewerf, the founder of Hurun Global, through Oxford University and the duo thought it was the right time to speak about wealth creation in India as they saw India booming. Since then, Hurun India has been in the pursuit to celebrate the stories of India’s transparent wealth creation, innovation, and philanthropy.

The Five core pillars of Hurun India are:

1. **Wealth Creation** - *We celebrate transparent wealth creation by bringing to light success stories of some of the most amazing entrepreneurs through Hurun Rich Lists.*
 - **Hurun India Rich List** *is a ranking of individuals with a net worth of INR 1,000 Crore+ and has grown to become the most comprehensive rich list from India. Over the last decade, the list grew from 100 individuals from 10 cities to 1,007 richest Indians, from 76 cities.*
 - **Hurun Leading Wealthy Women List** *is the ranking of the richest self-made women in India*
 - **Hurun Real Estate Rich List** *ranks the most successful Real Estate entrepreneurs in the country.*
 - **Hurun India Wealth Report** *is the most detailed Hurun study on the wealth distribution landscape in India.*
2. **Value Creation** - Under this pillar, Hurun celebrates the success stories of some of the most respected Indian companies through **Hurun India 500** - a ranking of most valuable non-state-controlled companies and emerging companies and investors

that make the future look bright for India through the ***Hurun India Unicorn Index, Gazelle List, Cheetah List, and Top Investors List.***

3. ***Sustainability and Philanthropy - Hurun India Philanthropy List***, which is on the 6th year anniversary, ranks India's most generous entrepreneurs. ***Hurun India Impact 50*** list ranks India's most sustainable companies based on their alignment with the UN's Sustainable Development Goals.
4. ***Art*** - In 2019, the ***Hurun India Art List*** was launched, aimed at tracking some of the most successful artists who are alive today by way of cumulative auction prices. Through the art list, our endeavor is to encourage individuals to collect Indian art.
5. ***Lifestyle and Luxury*** -The ***Hurun Luxury Consumer Survey*** debuted in 2019 to encourage an understanding about lifestyle and brand preferences of ultra-high net worth individuals, while curating a survey to help them explain their spending habits.

Globally, The Hurun brand registers an estimated 8 billion views, 50% YoY growth, on the back of lists and research reports.

Hurun India serves as India's definitive voice celebrating wealth creation, innovation, and growth. Last year, Hurun further expanded its repertoire by releasing the Hurun Global Rich List 2022, a ranking of the 3,381 US dollar billionaires, so-called 'Nine-Zero Club', currently in the world and the tenth India Rich List which ranks the 1,103 richest individuals in India, allowing for comparisons between some of the most dynamic economies in the world. The purpose of this list is to try and tell the story of modern India through the eyes of an entrepreneur. For the full details, please refer to www.hurunindia.com
